The invention of photography in 1839 led to a revolution in visual culture: photography both portrayed and created the modern world. For the first time, it was possible to depict and unlock every facet of that world. Photography secured a position in every field: in science, the arts, daily life and in the reporting of what was happening in the world. Presenting a selection of more than 300 photographs from the large and important collection of the Rijksmuseum, 'New Realities' provides an impressive overview of the international development of photography. Major highlights include the earliest travel photos, motion studies by Eadweard Muybridge, advertising photography, portraits, scenes from everyday life, the earliest photograph taken in Suriname and amazing shots that were made by microscope and telescope. Exhibition: Rijksmuseum, Amsterdam, The Netherlands (16.06.-17.09.2017).

The tension builds towards a shocking and unforgettable conclusion, when the full horror of Eltonsbrody will be revealed. ? One of the most prolific and important of 20th-century Caribbean writers, Edgar Mittelholzer (1909-1965) was at his best in Gothic novels like *My Bones and My Flute* (1955) and *Eltonsbrody* (1960). 17th century Perigord is a county of sun-drenched villages and dark forests, languid rivers and moonlit lakes. It is a corner of France teeming with spirits, dryads and nymphs, and like everywhere else, witches are burned at the stake. Born with the second sight, young fisherman Jehan wants nothing but to keep his head down, work hard, and stay out of trouble. Which works well enough until a suspicious string of bad luck befalls the village smith and his wife. Their adoptive son Giraud is everybody's dashing darling, who behind his sooty smile and swashbuckling manners has buried a painful connection to the supernatural himself. Fearing that some evil is afoot, Giraud turns to the only other man in town who knows about the hidden world around them - Jehan. Before long, they are embroiled in a quest involving brigands, witches and noble fey, while their friendship and attraction gradually shifts into something deeper. If they manage to survive ancient feuds and everyday prejudice, they might even have a chance to forge a Happily Ever After all of their own... From Rainbow-Award-winning authors Beryll & Osiris Brackhaus, *'The Blacksmith Prince'* is an old-fashioned, swoon-worthy historical fantasy romance about tender love in a time when history and fairy-tales were one and the same.

Monsieur de Phocas ranks with A Rebours as the summation of the French Decadent Movement. Modelled on The Portrait of Dorian Gray, it drips with evil and certainly would have been unpublishable in fin-de-siècle England. 'With Ethel's friends, grotesque, ageing decadents, Phocas for the first time tastes opium. He experiences the pleasure of absolute degradation, and the double pleasure of being both observer and observed, dominant subject and passive object. As the opium takes effect, the naked Javanese dancers at the orgy vanish in a swirling cloud, to be replaced by a dark lamplit street where two thieves carefully saw at a woman's throat with a delicate knifeblade. From this cruel vision, Phocas soars into dizzy flight from which, suddenly, he plunges to destruction, into oozing depths where clinging vampires suck his blood, until he almost swoons into spasms. The mysterious, vicious double is on the threshold of existence: Phocas sees himself as Giles de Retz in the forest of Tiffauges, haunted by obscene desires.' From Bernstein Award-winner Sayed Kashua comes his fourth and most daring, intimate novel yet—a searing exploration of the stories Palestinians and Israelis tell themselves about their lives, their histories, and the blurred lines between personal and national memory. Hailed as “an unusually gifted storyteller with exceptional insight” (*Jewish Tribune*), Bernstein award-winning writer Sayed Kashua presents his masterful fourth novel *Track Changes* which follows an Arab-Israeli man as he reckons with the weight of his past, his memories, and his cultural identity. Having emigrated to America years before, a nameless

memoirist now residing in Illinois receives word that his estranged father, whom he has not spoken to in fourteen years, is dying. Leaving his wife and their three children, he returns to Jerusalem and to his hometown of Tira in Palestine to be by his family's side. But few are happy to see him back and, geographically and emotionally displaced, he feels more alienated from his life than ever. Sitting by his father's hospital bed, the memoirist begins to remember long-buried traumas, the root causes of his fallout with his family, the catalyst for his marriage and its recent dissolution, and his strained relationships with his children—all of which is strangely linked to a short story he published years ago about a young girl named Palestine. As he plunges deeper into his memory and recounts the history of his land and his love, the lines between truth and lies, fact and fiction become increasingly blurred. *Track Changes* is a stunningly original, poignant, and captivating exploration of alienation, love, country, and memory by one of the most important writers at work today.

Book Size: 8 1/2" x 11" * * * * * From the BIOGRAPHICAL SKETCH IT is impossible for the modern music lover to enter I thoroughly into the spirit of Johann Sebastian Bach without considering him in relation to the times in which he lived. The severely contrapuntal style in which he expressed himself sounds so austere to modern ears that one is apt to regard him as a prophet indeed -- but rather as a prophet who dwelt in seclusion than as one who lived amid the haunts of men. It is true that much of his music is Cast in an ecclesiastical mold, but what of the gavottes, the sarabandes, the bourrées innumerable in his instrumental music? The fact is that Bach was very human. He had the full-blooded German love for family life, having been married twice, and having reared a family of twenty children -- all of whom were consecrated to music. As a composer he was a pioneer who saw far ahead of the musicians of his day. In Bach's time Equal Temperament was almost unknown, though Willaert had suggested its possibility as early as 1550. An attempt to make all modern major scales scientifically accurate -- that is to say, so that C sharp, for example, could be distinguished from D flat -- would require eighty-one keys to each octave. Bach's musical ear found no fault with a scale divided into twelve equal semitones. Having opened up a virgin field, he proceeded to explore it with serene indifference to the adverse criticism of the more pedantic among his contemporaries. A genius like Bach could hardly be produced in these hustling times. Materialism, with its concomitant evils, has taken such hold upon us that it seems as if all our activities aimed only at the outward circumstances of existence, and that if another genius such as Bach were born, he would soon be crushed by the onward tramp of our relentless age. Bach was content with the greatest simplicity. All he needed was a sufficient income to keep the wolf from the door, and sufficient leisure to work out the ideas with which his genius

inspired him

Most contemporary poets wear their cultural and artistic influences on their sleeve. Picking up a book in an English language bookstore, it is easy to see where the poet is coming from, either geographically, or culturally (ironic and formal; confessional and free etc). This may seem reductive until you read a book like the one you have in your hands. Put simply, Mia Lecomte is a quietly dazzling poet on her own terms. She is fed by multiple cultures, she is widely read, but her writing is unique and absolutely genuine. You won't have read anything like this.

Restif de la Bretonne (1734–1806) was perhaps the key author amongst a glut of imitators inspired by the publication of the Marquis de Sade's "obscene" masterworks Juliette and Justine in the late 18th century. In 1798 Restif wrote his ultra-erotic epic The Anti-Justine (or The Joys of EroS), thus inaugurating a long tradition of "Sadean literature" that continues to this day. The Anti-Justine is a vivid and extreme novelization of Restif's own life and sexual debauches, which the author tried to defend "morally" by declaring his book to be an "antidote" to the supposed poison of de Sade; yet whilst the book opens with a spurious warning to women against cruelty, it soon develops into a monumental odyssey of sexual depravity which often rivals de Sade in its relentless explicitness. This new edition of THE ANTI-JUSTINE has been freshly translated by Meredith Head (translator of de Sade's Philosophy In The Boudoir), and contains an introductory essay by de Sade's biographer Dr Iwan Bloch.

Concentrating on Europe, this volume's sixteen essays discuss different forms of medievalism in Germany, France, Italy, Spain, and Serbia.
