In this, his last significant work, an admired French philosopher provides extraordinary meditations on the relations between the imagining consciousness and the world, positing the notion of reverie as its most dynamic point of reference. In his earlier book, *The Poetics of Space*, Bachelard considered several kinds of "praiseworthy space" conducive to the flow of poetic imagery. In *Poetics of Reverie* he considers the absolute origins of that imagery: language, sexuality, childhood, the Cartesian ego, and the universe. Approaching the psychology of wonder from the phenomenological viewpoint, Bachelard demonstrates the auriferous potential of all that awareness. Thus he distinguishes what is merely a phenomenon of relaxation from the kind of reverie which "poetry puts on the right track, the track of expanding consciousness"

Foreign hacking in U.S. elections is quickly becoming a central issue in 2020 -- because it may determine who wins the presidential election. The CIA, the FBI and NSA have confirmed that Russian hackers interfered with the 2016 presidential election to help elect Donald Trump. And now similar manipulations have started in 2020. Meanwhile the Trump administration continues to deny Russian hacking ever happened, and has blocked attempts to stop it. So the interference is still taking place. But it is not too late to stop that hacking activity and let your vote decide the election. Here you discover the simple steps that can create a real difference. Good people are already working on it, but they need help. Make some good things happen. Give your candidate for president a fair chance to win.

Focusing on theories of verbal symbolism, Tzvetan Todorov here presents a history of semiotics. From an account of the semiotic doctrines embodied in the works of classical rhetoric to an exploration of representative modern concepts of the symbol found in ethnology, psychoanalysis, linguistics, and poetics, Todorov examines the rich tradition of sign theory. In the course of his discussion Todorov treats the works of such writers as Aristotle, Cicero, Quintilian, Augustine, Condillac, Lessing, Diderot, Goethe, Novalis, the Schlegel brothers, Levy-Bruhl, Freud, Saussure, and Jakobson.

In *Symbolism and Interpretation*, Tzvetan Todorov examines two aspects of discourse: its production, which has traditionally been the domain of rhetoric, and its reception, which has always been the object of hermeneutics. He analyzes the diverse theories of symbolism and interpretation that have been elaborated over the centuries and considers their contribution to a general theory of verbal symbolism, discussing a wide range of thinkers, from the Sanskrit philosophers and Aristotle to the German Romantics and contemporary semioticians. Todorov begins by examining general ideas of linguistic symbolism and the interpretive process. He then turns to a detailed consideration of two of the most influential and pervasive interpretative strategies in Western thought: the patristic exegesis of Augustine and Aquinas, and the philological exegesis foreshadowed in the work of Spinoza, developed by Wolf, Ast, Boeckh, and Lanson, and criticized by Schleiermacher. Todorov clarifies in masterly fashion the intricacies of the many schools of thought and refines the concepts crucial to critical theory today, including the distinctions between language and discourse, direct and indirect meaning, sign and symbol. Aply translated by Catherine Porter, *Symbolism and Interpretation* provides a coherent and innovative framework that is indispensable to the study of semiotics, its history, and its future.

Theory of Literature was born from the collaboration of René Wellek, a Vienna-born student of Prague School linguistics, and Austin Warren, an independently minded "old New Critic." Unlike many other textbooks of its era, however, this classic kowtows to no dogma and toes no party line. Wellek and Warren looked at literature as both a social product--influenced by politics, economics, etc.--as well as a self-contained system of formal structures. Incorporating examples from Aristotle to Coleridge, written in clear, uncondescending prose, *Theory of Literature* is a work which, especially in its suspicion of simplistic explanations and its distrust of received wisdom, remains extremely relevant to the study of literature today.

MORE THAN FORTY-FIVE YEARS OF INTENSIVE STUDY and thousands of experiments with people from all walks of life have gone into the creation of what I call Perfect Living. And what is Perfect Living? Perfect Living is a state of absolute self-togetherness, a union of the conscious and subconscious selves for the ultimate good and benefit of your whole person. Though this union of an individual's two selves has been much written and talked about, little has been accomplished to bring it down to a tangible level. In my own mind-science studies I concentrated on discovering a practical method of uniting the conscious mind and the subconscious, and found a technique through which such a union can be achieved. My technique calls for four easily adopted attitudes and the use of switchwords, a means by which the conscious mind can "talk to" and direct the thought patterns of the subconscious. Through these switchwords the conscious person gains the cooperation of his subconscious self, creating an inner harmony that brings immediate results. For example, how often is your day spoiled by a persistent, nagging pain or headache? Aspirin may bring temporary relief, but it doesn't get to the cause, and the pain returns. Wouldn't it be wonderful to be able to utter a single word which would instantly cause all pain to vanish? There is such a word, and Chapter 9 of this book explains in detail how you can make it work for you. Or have you ever lost or misplaced some important or valuable possessions? The more desperately you search for the object, the more it seems to elude you. But with one of the magic switchwords you relax and let your Inner Self bring you to the thing you are searching for. Chapter 8 covers the details on how you can turn on your own finder machinery. These are only two small examples of what Perfect Living and its switchwords can do for you. With Perfect Living you can do anything. You can: 1. Conquer all your fears. 2. Learn to relax. 3. Keep yourself forever young. 4. Overcome despair and "blue" moods. 5. Begin to know yourself. 6. Get along better with other people. 7. Set goals and achieve them. 8. Gain money and new prosperity. 9. Free yourself of bad habits. 10. Achieve glowing health and freedom from pain. 11. Release your hidden abilities. 12. Be a permanently happy person, invulnerable to any upset or setback. But the benefits of Perfect Living are endless and the book itself explains them all to you. Why not put this modern miracle to work now? Make Perfect Living a part of your life!

Guerilla i Albanien under 2.verdenskrig især i årene 1943-45. De albanske styrker var støttet af engelske kommandotropper.

From Ismail Kadare, winner of the inaugural Man Booker International Prize – a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie – the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, The Siege is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

This book tells of the hold that Albania and its people came to exercise over one Englishman. Colonel Dayrell Oakley-Hill's memoirs provide a vivid description of the landscape, people and customs of this beautiful country and the two very different leaders that he came to know well--King Zog and Enver Hoxha. Oakley-Hill returned to the UK in 1955, but never severed his connections with Albania. Right up to his death in 1985 he was tireless in his efforts to help Albanian refugees and for many years served as Secretary to the Anglo-Albanian Association. In The Spirit Level, as ever with Seamus Heaney, personal memory and humble domestic objects -- a whitewash brush, a sofa, a swing -- are endowed with talismanic significance, and throughout the collection he addresses his growing concerns, which inevitably include the political situation in his native Northern Ireland, in a poetry that never ceases to be fluid, alert, and completely truthful.

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.

A personality of Mother Teresa's calibre and global reach does not come about by chance. To provide a well-rounded portrait of this influential figure, this book approaches her in the context of her familial background and ethnic, cultural and spiritual milieus. Her life and work are explored in the light of newly-discovered information about her family, the Albanian nation's spiritual tradition before and after the advent of Christianity, and the impact of the Vatican and other influential powers on her people since the early Middle Ages. Focusing on her traumas, ordeals and achievements as a private individual and a public missionary, and her complex spirituality, this book contends that Mother Teresa's life and her nation's history, especially her countrymen's relationship with Roman Catholicism, are interconnected. Unravelling this interconnectedness is essential to understanding how this modern spiritual and humanitarian icon has come to epitomise her ancient nation's cultural and spiritual DNA.

Masterful in its simplicity, Chronicle in Stone is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.
