During the 1976 Bicentennial celebration, millions of Americans engaged with the past in brand-new ways. They became absorbed by historical miniseries like *Roots*, visited museums with new exhibits that immersed them in the past, propelled works of historical fiction onto the bestseller list, and participated in living history events across the nation. While many of these activities were sparked by the Bicentennial, M. J. Rymza-Pawlowska shows that, in fact, they were symptomatic of a fundamental shift in Americans' relationship to history during the 1960s and 1970s. For the majority of the twentieth century, Americans thought of the past as foundational to, but separate from, the present, and they learned and thought about history in informational terms. But Rymza-Pawlowska argues that the popular culture of the 1970s reflected an emerging desire to engage and enact the past on a more emotional level: to consider the feelings and motivations of historic individuals and, most importantly, to use this in reevaluating both the past and the present. This thought-provoking book charts the era's shifting feeling for history, and explores how it serves as a foundation for the experience and practice of history making today.

Normandy depicts the planning and execution of Operation Overlord in 96 full-color pages. The initial paratrooper assault is shown, as well as the storming of the five D-Day beaches: Utah, Omaha, Gold, Juno, and Sword. But the story does not end there. Once the Allies got ashore, they had to stay ashore. The Germans made every effort to push them back into the sea. This book depicts the such key events in the Allied liberation of Europe as: 1. Construction of the Mulberry Harbors, two giant artificial harbors built in England and floated across the English Channel so that troops, vehicles, and supplies could be offloaded across the invasion beaches. 2. The Capture of Cherbourg, the nearest French port, against a labyrinth of German pillboxes. 3. The American fight through the heavy bocage (hedgerow country) to take the vital town of Saint-Lô. 4. The British-Canadian struggle for the city of Caen against the "Hitler Youth Division," made up of 23,000 seventeen- and eighteen-year-old Nazi fanatics. 5. The breakout of General Patton's Third Army and the desperate US 30th Division's defense of Mortaine. 6. The Falaise Pocket, known as the "Killing Ground," where the remnants of two German armies were trapped and bombed and shelled into submission. The slaughter was so great that 5,000 Germans were buried in one mass grave. 7. The Liberation of Paris, led by the 2nd Free French Armored Division, which had been fighting for four long years with this goal in mind.

A "fascinating" look at what students in Russia, France, Iran, and other nations are taught about America (The New York Times Book Review). This "timely and important" book (History News Network) gives us a glimpse into classrooms across the globe, where opinions about the United States are first formed. Iran, Saudi Arabia, Cuba, Canada, and others, covering such events as the American Revolution, the Cuban Missile Crisis, the Iran hostage crisis, and the Korean War—providing some alternative viewpoints on the history of the United States from the time of the Viking explorers to the post-Cold War era. By juxtaposing starkly contrasting versions of the historical events we take for granted, *History Lessons* affords us a sometimes hilarious, often sobering look at what the world thinks about America's past. "A brilliant idea." —Foreign Affairs

Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In *How to Hide an Empire*, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano Islands, where prospectors collected one of the nineteenth century's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted

grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr notes, the United States moved away from colonialism. Instead, it put innovations in electronics, transportation, and culture to use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, *How to Hide an Empire* is a major and compulsively readable work of history.

An award-winning historian reveals the harrowing forgotten story of America's internal slave trade—and its role in the making of America. Slave traders are peripheral figures in most histories of American slavery. But these men—who trafficked and sold over half a million enslaved people from the Upper South to the Deep South—were essential to slavery's expansion and fueled the growth and prosperity of the United States. In *The Ledger and the Chain*, acclaimed historian Joshua D. Rothman recounts the shocking story of the domestic slave trade by tracing the lives and careers of Isaac Franklin, John Armfield, and Rice Ballard, who built the largest and most powerful slave-trading operation in American history. Far from social outcasts, they were rich and widely respected businessmen, and their company sat at the center of capital flows connecting southern fields to northeastern banks. Bringing together

entrepreneurial ambition and remorseless violence toward enslaved people, domestic slave traders produced an atrocity that forever transformed the nation.

Over the course of his career, David McCullough has spoken before Congress, colleges and universities, historical societies, and other esteemed institutions. Now, at a time of self-reflection in America following a bitter election campaign that has left the country divided, McCullough has collected some of his most pertinent speeches in a brief volume designed to identify important principles and characteristics that are particularly American.

History Alive! Pursuing American Ideals centers on the five founding ideals from the Declaration of Independence: equality, rights, liberty, opportunity, and democracy. Each generation has struggled with these ideals. Some have made little progress toward achieving them. Others have made great progress. This book invites students to become engaged in this struggle, from establishing an American republic to the making of modern America. --Website.

to the beginnings of the human story. As they explore the great early civilizations of Egypt and the Near East, India, China, Greece, and Rome, students discover the secrets of these ancient cultures that continue to influence the modern world. History Alive! The Medieval World and Beyond explores the legacy of civilizations from Europe, Africa, and the Middle East to Asia and the Americas. History Alive! The United States Through Industrialism immerses students in a powerful journey through the history of the United States from its earliest foundations to the age of industrialism. History Alive! The United States Through Modern Times captures the story of the United States from the precolonial era to the 21st century.

On 28 June 1914, two pistol shots shattered the peace of a sunny afternoon in Sarajevo. Those shots reverberated around Europe and shattered the peace of the whole world. This was the beginning of the Great Slaughter. Could it have been avoided? Alan Woods uses the method of Marxism to answer this question. He explains that, actually, whilst individuals play an important role in history, to explain events such as wars, one must look at deeper causes. As well as dealing with the origin of the war, Woods traces the conflict through its development, looking at the role of all the major actors, and their aims. He shows how in the midst of the despair of the trenches and the home front, a

new consciousness was formed. He also makes the case that it was the German Revolution that brought the war to an end, and how a revolutionary wave swept across Europe. The book also looks at the Treaty of Versailles and how the victorious powers imposed the deal, not just on Germany, but the rest of Europe and the Middle East. Given the amount of nationalistic mystification from all sides about the First World War, a history of the subject from the standpoint of the world working class is essential and it is provided by this book.

THE CLASSIC NATIONAL BESTSELLER "A wonderful, splendid book—a book that should be read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future." —Howard Fast Historian Howard Zinn's *A People's History of the United States* chronicles American history from the bottom up, throwing out the official narrative taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, it is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As Zinn shows, many of our

country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States* features insightful analysis of the most important events in our history. This edition also includes an introduction by Anthony Arnove, who wrote, directed, and produced *The People Speak* with Zinn and who coauthored, with Zinn, *Voices of a People's History of the United States*.

James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retelling of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and

A self-portrait by the controversial music artist shares his private thoughts on everything from his inner struggles to his relationship with his daughter, in an account complemented by drawings, handwritten lyrics, and previously unseen photographs. It is the best known book about American slavery, and was so incendiary upon its first publication in 1852 that it actually ignited the social flames that led to Civil War less than a decade later. What began as a series of sketches for the Cincinnati abolitionist newspaper *The National Era* scandalized the North, was banned in the South, and ultimately became the bestselling novel of the 19th century. Today, controversy over this melodramatic tale of the

dignified slave Tom, the brutal plantation owner Simon Legree, and Stowe's other vividly drawn characters continues, as modern scholars debate the work's newly appreciated feminist undertones and others decry it as the source of enduring stereotypes about African Americans. As one of the most influential books in U.S. history, it deserves to be read by all students of literature and of the American story. American abolitionist and author HARRIET BEECHER STOWE (1811-1896) was born in Connecticut, daughter of a Congregationalist minister and sister to abolitionist theologian Henry Ward Beecher. She wrote more than two dozen books, both fiction and nonfiction.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Derry is the second largest city in Northern Ireland and has had a Catholic majority since 1850. It was witness to some of the most important events of the civil rights movement and the Troubles. Derry City examines Catholic Derry from the turn of the twentieth century to the end of the 1960s and the start of the Troubles. Plotting the relationships between community memory and historic change, Margo Shea provides a rich and nuanced account of the cultural, political, and social history of Derry using archival research, oral histories, landscape analysis, and public discourse. Looking through the lens of the memories Catholics cultivated and nurtured as well as those they contested, she illuminates Derry's Catholics' understandings of themselves and their Irish cultural and political identities through the decades that saw Home Rule, Partition, and four significant political redistricting schemes designed to maintain unionist political majorities in the largely Catholic and nationalist city. Shea weaves local history sources, community folklore, and political discourse together to demonstrate how people maintain their agency in the midst of political and cultural conflict. As a result, the book invites a reconsideration of the genesis of the Troubles and reframes discussions of the "problem" of Irish memory. It will be of interest to anyone interested in Derry and to students and scholars of memory, modern and contemporary British and Irish

A much-needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality and community, the national and global past and concepts of time. Throughout the authors empower teachers to adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. Bringing History Alive through Local People and Places puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the subject. Practical topics explored include:

Investigating children's cultural and geographical roots through fieldwork  
Finding and visiting local museums, archives and heritage sights  
Choosing and using resources  
Using significant people, events and buildings to link with national history  
Environmental education and sustainable development through local history  
Understanding the links between history and everyday life  
Planning and assessing history. Based on the latest research and practice in the field, Bringing History Alive through Local People and Places offers an exciting
