Ptolemy's Almagest is one of the most influential scientific works in history. A masterpiece of technical exposition, it was the basic textbook of astronomy for more than a thousand years, and still is the main source for our knowledge of ancient astronomy. This translation, based on the standard Greek text of Heiberg, makes the work accessible to English readers in an intelligible and reliable form. It contains numerous corrections derived from medieval Arabic translations and extensive footnotes that take account of the great progress in understanding the work made in this century, due to the discovery of Babylonian records and other researches. It is designed to stand by itself as an interpretation of the original, but it will also be useful as an aid to reading the Greek text.

Kautilya, also known as Chanakya, is India's most illustrious political economist of all time. He regarded economic activity as the driving force behind the functioning of any political dispensation. In fact, he went to the extent of saying that revenue should take priority over the army because sustaining the army was possible out of a well-managed revenue system. Kautilya advocated limiting the taxation power of the State, having low rates of taxation, maintaining a gradual increase in taxation and most importantly devising a tax structure that ensured compliance. He strongly encouraged foreign trade, basing it on the premise that for a successful trade contract to be established, it had to be beneficial to all. He emphasised State control and investment in land, water and mining. Kautilya was a true statesman who bridged the gap between experience and vision. For Kautilya, good governance was paramount. He suggested built-in checks and balances in systems and procedures for the containment of malpractices. Many postulates of Kautilya's philosophy of political economy are applicable to contemporary times. Historian Henry Reynolds has found himself being asked these questions by many people, over many years, in all parts of Australia. The acclaimed *Why Weren't We Told?* is a frank account of his personal journal towards the realisation that he, like generations of Australians, grew up with a distorted and idealised version of the past. From the author's unforgettable encounter in a North Queensland jail with injustice towards Aboriginal children, to his friendship with Eddi Mabo, to his shattering of the myths about our 'peaceful'

A thorough and incisive introduction to contemporary India The story of the forging of India, the world's largest democracy, is a rich and inspiring one. This volume, a sequel to the best-selling India's Struggle for Independence, analyses the challenges India has faced and the successes it has achieved, in the light of its colonial legacy and century-long struggle for freedom. The book describes how the Constitution was framed, as also how the Nehruvian political and economic agenda and basics of foreign policy were evolved and developed. It dwells on the consolidation of the nation, examining contentious issues like party politics in the Centre and the states, the Punjab problem, and anti-caste politics and untouchability. This revised edition offers a scathing analysis of the growth of communalism in India and the use of state power in furthering its cause. It also documents the fall of the National Democratic Alliance in the 2004 General Elections, the United Progressive Alliance's subsequent rise to power and the Indo-US Nuclear Deal that served to unravel the political consensus at the centre. Apart from detailed analyses of Indian economic reforms since

Akbarnama, or The History of Akbar, by Abu'l-Fazl (d. 1602), is one of the most important works of Indo-Persian history and a touchstone of prose artistry. Marking a high point in a long, rich tradition of Persian historical writing, it served as a model for historians across the Persianate world. The work is at once a biography of the Mughal emperor Akbar (r. 1556-1605) that includes descriptions of his political and martial feats and cultural achievements, and a chronicle of sixteenth-century India. The fifth volume details the bellicose seventeenth to twenty-second years of Akbar's reign, including accounts of the conquest of Gujarat, the capture of Rohtas fort from rebel Afghans, and the invasions of Patna and Bengal. The Persian text, presented in the Naskh script, is based on a careful reassessment of the primary sources.

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a

quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

When the Hindu nationalist Bharatiya Janata Party (BJP) assumed power in India in 1998 as the largest party of the National Democratic Alliance, it soon became evident that it prioritized educational reforms. Under BJP rule, a reorganization of the National Council of Educational Research and Training occurred, and in 2002 four new history textbooks were published. This book examines the new textbooks which were introduced, considering them to be integral to the BJP's political agenda. It analyses the ways in which their narrative and explanatory frameworks defined and invoked Hindu identity. Employing the concept of decontextualization, the author argues that notions of Hindu cultural similarity were conveyed, particularly as the textbooks paid scarce attention to social, geographical and temporal contexts in their approaches to Indian history. The book shows that intrinsic to the textbooks' emphasis on similarity is a

systematic backgrounding of any references to internal lines of division within the Hindu community. Through a comparison with earlier textbooks, it sheds light on the contested nature of history writing in India, especially in terms of nation building and identity construction. This issue is also highly relevant in India today due to the electoral success of the BJP in 2014, and the efforts of the Hindu nationalist organization Vishwa Hindu Parishad to construct a coherent Hinduism. Arguing that the textbooks operate according to the BJP's ideology of Hindu cultural nationalism, this book will be of interest to academics in the field of South Asian studies, contemporary history, the uses of history, identity politics and Hindu nationalism.

traditional education to address the problems of globalization. The articles conceive sustainable development education as focusing on the holistic development of the body and mind, encompassing a wide range of issues. This idea is also central to the Gandhian tradition of life knowledge and Nai Talim (New Education). The uniqueness of this compilation is in the multiple perspectives it provides, establishing workable links between local communities, governments and international organizations that would enable sustainable human development. It is a rich reference resource for those working in the fields of education, economics and development studies.

This book presents a complete and accessible description of the history of early India. It starts by discussing the origins and growth of civilizations, empires, and religions. It also deals with the geographical, ecological, and linguistic backgrounds, and looks at specific cultures of the Neolithic, Chalcolithic, and Vedic periods, as well as at the Harappan civilization. In addition, the rise of Jainism and Buddhism, Magadha and the beginning of territorial states, and the period of Mauryas, Central Asian countries, Satvahanas, Guptas, and Harshavardhana are also analysed. Next, it stresses varna system, urbanization, commerce and trade, developments in science and philosophy, and cultural legacy. Finally, the process of transition from
