The CMOS Cookbook contains all you need to know to understand and successfully use CMOS (Complementary Metal-Oxide Semiconductor) integrated circuits. Written in a "cookbook" format that requires little math, this practical, user-oriented book covers all the basics for working with digital logic and many of its end appliations. Whether you're a newcomver to logic and electronics or a senior design engineer, you'll find CMOS Cookbook and its examples helpful as a self-learning guide, a reference handbook, a project-idea book, or a text for teaching others digital logic at the high school through university levels. In the pages of this revised edition, you'll discover: *What CMOS is, who makes it, and how the basic transistors, inverters, and logic and transmission gates work *CMOS usage rules, power-suppy examples, and information on breadboards, state testing, tools, and interfacing *Discussions of the latest CMOS devices and sub-families, including the 74C, 74HC, and 74HCT series that streamline TTL and CMOS interfacing *An in-depth look at multivibrators - including astable, monostable, and bistable - and linear techniques *Clocked-logic designs and the extensive applications of JK and D-type flip-flops *A helpful appendix featuring a TTL-to-CMOS conversion chart

INDEPENDENT BOOKS OF THE YEAR This completely new edition of the Penguin Guide reviews the 1000 best classical albums issued and reissued over the past five

decades, many of which dominate the catalogue because of their sheer excellence, irrespective of recording dates. More comprehensive than ever before, it indicates key recordings on CD, DVD and enhanced SACD, including those in surround sound. If you want the finest available version of any major classical album you will find it listed and assessed in these pages. Ranging from long-established albums to the newest releases, the latest edition represents the cream of the international repertoire and has all the information you need to select the finest classical music available.

Wny You BY WEBB B. GARRISON Illustrated ly Henry R. Martin ABINGDON PRESS NEW YORK NASHVILLE To BRUCE and BEATRICE BLACKMAR GOULD Connoisseurs of Words Foreword Words and phrases are like persons. Some are dull and stodgy, while others are very good company indeed. It is from the ranks of the latter group that the words in this volume have been selected. Interest is the standard which determined whether or not a particular word or phrase should be included. Dedicated though it is to the general reader, it may be used with confidence by persons with special interests. In general, word-histories are developed along lines of standard scholarship. There are a few exceptions accounts based upon tradition. These stories, included because of their interest, are clearly indicated as based upon popular accounts. Much of the material included in this collection was originally pub lished in the popular magazines which are listed on the acknowledg ments page. Final research was done in the Joint University Library, Nashville, Tennessee. Many courtesies were extended by Dr. A.

F. Kuhlman, director, and Mrs. Paul L. Wayman, circulation librarian. A Ladies Home Journal reader first suggested that this material should be published in book form. Coming as it did from a reader in the Transvaal, Africa, the suggestion carried much weight though it was not acted upon for some months. Unfortunately, that readers letter has been lost, so it is impossible to give due credit by name. WEBB B. GARJEUSON 7 Acknowledgments Much of the material in this volume was originally published as short features in general and specialized magazines. Special thanks are due editors and publishers of these magazines, both forencouragement in research and for permission to reprint numerous items. Publishers involved, and magazines in which the material was originally pub lished, are listed below Andrus Publishing Co. for cushion, furniture, mahogany, and suite from Furniture Digest. Catholic Digest, Inc., for asylum awful, batiste, bedlam bead cancel, canter, cardinal, to chime in, clerk, crib, diaper, dumbbell, gabardine, helpmate, journal, ledger, lobby, marigold, musical notes noon, polite, primer sign, to a t, and thinking cap from Catholic Digest. Chesapeake and Ohio Railway for caboose, to call on the car pet conductor, crosstie, deadhead, engineer, freight, gon dola, hogger, news butch, spur, station, train, and tun nel from Tracks. Chilton Company, Inc., for boot, heel, last, moccasin, shoe, and sole from Boot and Shoe Recorder. The Curtis Publishing Company for Bible, bigwig, blarney, blue jeans, Blue Monday, bombast, boss, to bring home the bacon, calendar, camera, canary, compact companion, Dixie, doily, to eat ones hat, a feather in ones cap, flower names, fruit names, grass widow, heckle, husband, infan try, lord, to nag patent, salary, soft soap sundae, to 9 WHY YOU SAY IT take with a grain of salt to tie the knot and wife from Ladies Home Journal. Dell Publishing Co., Inc., for serenade from Dell Crossword An nual easel, earshot villain from Dell Crossword Puzzles con

template, fanatic, pedigree, zoo from Official Crossword Puzzles and abracadabra, ancient gods anecdote, banquet, bogey, spire from Pocket Crossword Puzzles. Detective World, Inc., for aboveboard, apache, assassin, bobby, carpetbagger, catchpenny, to crib, double cross, fili buster, footpad, gun, gyp, hoax, moll, to pull the woolover ones eyes, to steal thunder, stool pigeon, and thug from Detective World. Farrell Publishing Corp, for apple-pie order etiquette, mil liner, mind your ps and qs, mug, and pin money from The Woman. Father Bakers Homes of Charity for best foot forward boner, chairman, coward, czar, falsehood, to get hep grain, grocer, in the groove, learn by heart, lion, mail, outlaw, parlor, to pay the piper piano, piker, to put a flea in ones ear, to read the riot act, roughneck, shoddy, vandal, and to be at loose ends from The Victorian. Fawcett Publications, Inc...

The explosive increase in information and the miniaturization of electronic devices demand new recording technologies and materials that combine high density, fast response, long retention time and rewriting capability. As predicted, the current silicon-based computer circuits are reaching their physical limits. Further miniaturization of the electronic components and increase in data storage density are vital for the next generation of IT equipment such as ultra high-speed mobile computing, communication devices and sophisticated sensors. This original book presents a comprehensive introduction to the significant research achievements on high-density data storage from the aspects of recording mechanisms, materials and fabrication technologies, which are promising for overcoming the physical limits of current data storage systems. The book serves as an useful guide for the development of optimized materials, technologies and

device structures for future information storage, and will lead readers to the fascinating world of information technology in the future.

Revision of the 1989 book The compact disk; a handbook of theory and use. A technical discussion of the system. Annotation copyrighted by Book News, Inc., Portland, OR

Eshbach's Handbook of Engineering Fundamentals, the standard engineering reference work for over fifty years, has been updated and revised in this Fourth Edition. The coverage of the revised Handbook addresses all the fundamental subdivisions of engineering, including electronics, controls, fluids, with a special emphasis on the various elements of mechanical and aerospace engineering. The Fourth Edition includes entirely new chapters on materials, acoustics, and computers. In addition, all chapters have been rewritten and revised to reflect changes since the previous edition of the Handbook was published. The coverage is organized around these main subjects: mathematical and physical units, standards, and tables; mathematics; mechanics of rigid bodies; mechanics of deformable bodies; mechanics of incompressible fluids; aeronautics; astronautics; automatic control; computer science; engineering thermodynamics and heat transfer; electromagnetic and circuits; electronics; radiation, light, and acoustics; chemistry; engineering economics; and properties of materials. As in the previous editions, the coverage is given in capsule form to give the reader a basic understanding of the topic. References to more specific

literature are also provided with each entry.

A cute, lined Notebook for adults, students and kids! Useful for school, work or home. This Notebook has: Place for your name, 119 lined pages, Good quality white paper, Handy size 6 x 9, Wide spaced lines, Matte cover. Great gift for Birthday, Christmas or Mother's Day. Have fun writing or buy for mom, dad, sister or brother.
