25 mila metri quadri di superficie e più di 150 milioni di passeggeri l'anno, la Stazione Termini di Roma è il più grande scalo ferroviario d'Italia e il quinto di tutta Europa. Dal 2009 il fotografo Niccolò Berretta fotografa le persone che popolano questo non luogo per eccellenza. Fra pendolari e homeless, turisti e habitués, "Stazione Termini. Lookbook 2009-2021" è un libro che in più di 500 scatti e senza scadere in giudizi politici o sociali, descrive la vera essenza delle stazioni, luoghi tanto singolari quanto comuni a tutte le metropoli.

Enrico Corte (1963) vive e lavora a New York e Roma. Adotta fin dal suo esordio un ruolo antinomico rispetto alle modalità abituali del fare arte, scegliendo di mostrare &"ciò che non si vuol vedere&", il lato oscuro della creatività che spesso confina col suo opposto, ossia con l'autodistruzione. Corte si colloca lontano sia dal gusto tipicamente italiano per la &"leggerezza&" sia dalla ricerca dello scandalo a tutti i costi, trovando invece inedite forme di bellezza plastica, fatali fascinazioni di fronte all'ignoto. Capovolgendo le regole stabilite del mercato dell'arte, che vorrebbero l'artista specializzato in un singolo &"segno&" riconoscibile nel tempo, Corte è intervenuto direttamente nel sociale tramite una moltiplicazione di stili, tecniche e soluzioni estetiche sufficienti per attrarre l'attenzione del suo pubblico e condurlo nei territori del turbamento e vertigine. I temi del pieno e del vuoto, e dell'equilibrio delle forme - tipici dell'arte scultorea classica - subiscono nuove metamorfosi e divengono metafore tragicomiche di un malessere sociale. In questa monografia su Corte, un saggio critico di Gianluca Marziani analizza una selezione di opere secondo un'ottica &"spettroscopica&" che annulla i concetti tradizionali di Evoluzione e Maturità. Attraverso questa interpretazione, il lavoro di Corte si colloca in una dimensione neurale, imitando lo sviluppo labirintico che regola il macrocosmo dei più oscuri ed inquietanti processi cerebrali.

La tragedia che il 26 gennaio 2020 ci ha privato di una delle icone sportive più potenti e amate di tutti i tempi ha generato un vero e proprio terremoto di dolore, e Los Angeles, la città di cui Kobe Bryant era indiscutibilmente diventato il re, non può che essere l'epicentro di questa onda emotiva. Fondendo fiction e realtà, Andrea Careri, scrittore e sceneggiatore che vive fra New York e L.A., delinea otto short stories incentrate sulla vita di Kobe, e altre ventiquattro i cui protagonisti vivono in quella maledetta domenica un turning point determinante delle proprie esistenze. Otto e ventiquattro, come i numeri delle maglie dei Lakers indossate da Bryant. Racconti di una dolente città degli angeli dai quali emerge quanto la famosa Mamba mentality e la forza trascinate di Kobe siano state un punto di appiglio per tanti, in un contesto segnato dagli elementi più tipici dell'alienazione urbana, droga e depressione su tutti. Un raggio di sole che anche nell'ora più nera si fa fatica a immaginare spento.

Andy Warhol called Christopher Makos "the most modern photographer in America." The man who first introduced Warhol to the work of Jean-Michel

Basquiat and Keith Haring here presents the photographic remains of their more than 10 years of intimate friendship and frequent collaboration. For the first time ever, all of Warhol's camouflage portraits, taken by Makos under the direct supervision of the artist himself, appear together, in full-page reproductions complete with Warhol's touch-ups and markings. In the photographic portraits that Warhol regarded as genuine self-portraits, he appears dressed up and in drag, wearing colored wigs and make-up, looking melancholic and shameless. Published in collaboration with Edition Bruno Bischofberger, Zurich.

Six years ago Bryan Adams was approached by Trudie Styler to photograph a portrait story of homeless street vendors for The Big Issue magazine. That story inspired a more in-depth photographic look at these people who live on the streets of London and sell the magazine. The Big Issue is a weekly publication created by professional journalists and photographers, and sold on the streets to provide the homeless with legitimate income and facilitate their reintegration into mainstream society. Today The Big Issue is published in several international editions throughout Asia and Africa. Adams' portraits are direct, compassionate and full of dignity. They depict character beyond social and economic circumstance, and can be seen as a continuation of Adams' 2013 *Wounded: The Legacy of War*, his portraits of young British soldiers who suffered life-changing injuries during combat in Iraq and Afghanistan.

The football star made famous in the hit film (and book) *The Blind Side* reflects on how far he has come from the circumstances of his youth. Michael Oher shares his personal account of his story, in this inspirational New York Times bestseller. Looking back on how he went from being a homeless child in Memphis to playing in the NFL, Michael talks about the goals he had to break out of the cycle of poverty, addiction, and hopelessness that trapped his family. Eventually he grasped onto football as his ticket out and worked hard to make his dream into a reality. With his adoptive family, the Touhys, and other influential people in mind, he describes the absolute necessity of seeking out positive role models and good friends who share the same values to achieve one's dreams. Sharing untold stories of heartache, determination, courage, and love, *I Beat the Odds* is an incredibly rousing tale of one young man's quest to achieve the American dream.

Kirk Toncray remembers a normal childhood, and the successful establishment of a family and a career as a diesel mechanic and heavy equipment services manager. Then a series of devastating events left him without a job, without a wife, partially disabled from an on-the-job injury and a motorcycle accident and, finally, homeless. Behind the signs looks beyond the

stereotypes to examine the misfortunes, mistakes, and miseries that can bring ordinary lives to ruin.

This book explores the contemporary conditions of marginal work within the context of persistent unemployment, poverty, and homelessness in wealthy nations. Drawing from research concerning three cities—Melbourne, San Francisco, and London—Jessica Gerrard offers a rich account of one of the most precarious informal forms of work: selling homeless street press (The Big Issue and Street Sheet). Combining analyses of sellers' everyday work experiences with theorizations of marginality, working, and learning, Gerrard provides much-needed insight into contemporary forms of entrepreneurial and precarious work. This book demonstrates that those who are unemployed and seemingly unproductive are, in fact, highly productive. They value, desire, and seek practical work experience whilst also struggling to fulfill the basic needs that many of us take for granted.

It has long been established that access to food, clothing, medical care, and housing are fundamental human rights the world over. Helping the approximately 600,000 Americans and 300,000 Canadians who are currently homeless work toward this goal is a complex undertaking. This text presents the fundamental knowledge and skills that frontline workers need in order to help vulnerable and homeless persons. It provides readers with both an understanding of the lived experiences of those who have faced homelessness and an outline of the interprofessional practice context of services for homeless people. Waegemakers Schiff focuses on the interventions and best practices that have been found to be most effective in making connections, establishing helping relationships, and working with individuals on moving toward stabilization.

Jonathan Kozol describes "Homeless in America" as ". . . a valuable collection of enlightened writings by those who know the challenges and realities first-hand". An authoritative work on a compelling subject, this comprehensive title offers investigative essays on key policy-related issues surrounding homelessness. It also answers hundreds of questions about the magnitude and implications of this complex social issue. Illus.

Alone among the creatures of the world, man suffers a pang both bitter and sweet. It is an ache for the homecoming. The Greeks called it nostalgia. Post-modern man, homeless almost by definition, cannot understand nostalgia. If he is a progressive, dreaming of a utopia to come, he dismisses it contemptuously, eager to bury a past he despises. If he is a reactionary, he sentimentalizes it, dreaming of a lost golden age. In this profound reflection, Anthony Esolen explores the true meaning of nostalgia and its place in the human heart. Drawing on the great works of Western literature from the Odyssey to Flannery O'Connor, he traces the development of this fundamental longing from the pagan's desire for his earthly home, which most famously inspired Odysseys' heroic return to Ithaca, to its transformation under Christianity. The doctrine of the fall of man forestalls sentimental traditionalism by insisting that there has been no Eden since Eden. And the revelation of heaven as our true and final home, directing man's longing to the next world, paradoxically strengthens and ennoble the pilgrim's devotion to his home in this world. In our own day, Christian nostalgia stands in frank opposition to the secular usurpation of this longing. Looking for a city that does not exist, the progressive treats original sin, which afflicts everyone, as mere political error, which afflicts only his opponents. To him, history is a long tale of misery with nothing to teach us. Despising his fathers, he lives in a world without piety. Only the future, which no one can know, is

real to him. It is an idol that justifies all manner of evil and folly. Nostalgia rightly understood is not an invitation to repeat the sins of the past or to repudiate what experience and reflection have taught us, but to hear the call of sanity and sweetness again. Perhaps we will shake our heads as if awaking from a bad and feverish dream and, coming to ourselves, resolve, like the Prodigal, to "arise and go to my father's house."

Despite an extensive literature on homelessness there is surprisingly little work that investigates the roots of homelessness by tracking homeless people over time. In this fascinating and much-needed ethnographic study, Megan Ravenhill presents the results of ten years' research on the streets and in the hostels and day-centres of the UK, incorporating intensive interviews with 150 homeless and formerly homeless people as well as policy makers and professionals working with homeless people. Ravenhill discusses the biographical, structural and behavioural factors that lead to homelessness. Amongst the important and unique features of the study are: the use of life-route maps showing the circumstances and decisions that lead to homelessness, a systematic study of the timescales involved, and a survey of people's exit routes from homelessness. Ravenhill also identifies factors that predict those most vulnerable to homelessness and factors that prevent or considerably delay the onset of homelessness.

"I started from scratch. Absolutely nothing. But I think I've shown that if you have a dream, you can achieve it. Because only I know the conviction that I had, when I was younger, to be a champion. Realizing my dream is an excellent way for me to help the people of my country, who also have dreams, and who only have those dreams to fill their hearts. In Cameroon, many young people see me as their role model and dream of following my example and saying 'I will be an MMA Champion. I will box like Francis'. It's because these people saw me young, destitute. I didn't stand a chance. And now they see me, and they dream about it. They're starting to think it's possible. It isn't easy. It's hard, but it's possible! I told myself that among those children I left behind, with their eyes on me... Just for that alone, it would be worth trying something. Today, I am honored to build the first fully equipped MMA and combat sports gymnasium in Cameroon under the leadership of the FRANCIS NGANNOU FOUNDATION. It is for me a way to allow them, like me, to dream". - Francis NGANNOU - In this incredible Odyssey, you'll see the world through the eyes of the man from Batié, who holds the world record for the most powerful strike. Aptly nicknamed THE PREDATOR, Francis is feared by his opponents for his spectacular knockouts. In this new and inspiring book you will discover his dreams, his fights, his sufferings and above all 14 principles of success inspired by the incredible journey of a homeless and undocumented man who landed in France illegally in 2013 and is now the new UFC Superstar. To date he has fought 17 battles, including 14 victories and 3 defeats.

In the vein of *The Glass Castle*, *Breaking Night* is the stunning memoir of a young woman who at age fifteen was living on the streets, and who eventually made it into Harvard. Liz Murray was born to loving but drug-addicted parents in the Bronx. In school she was taunted for her dirty clothing and lice-infested hair, eventually skipping so many classes that she was put into a girls' home. At age fifteen, Liz found herself on the streets. She learned to scrape by, foraging for food and riding subways all night to have a warm place to sleep. When Liz's mother died of AIDS, she decided to take control of her own destiny and go back to high school, often completing her assignments in the hallways and subway stations where she slept. Liz squeezed four years of high school into two, while homeless; won a New York Times scholarship; and made it into the Ivy League. *Breaking Night* is an unforgettable and beautifully written story of one young woman's indomitable spirit to survive and prevail, against all odds.

YouTube sensation Ted Williams's memoir of addiction, homelessness, and unlikely redemption, cowritten by #1 New York Times bestselling author Bret Witter Ted Williams was panhandling in December 2010 when a passerby taped him and posted a clip of his gorgeous radio voice on YouTube. The video went viral, and overnight, launched him—the homeless man with a golden voice—into the hearts of millions. Since then, millions have heard pieces of his story: his successful radio career, his crack addiction, his multiple arrests, and his heartbreaking relationship with his ninety-year-old mother. But in *A Golden Voice*, Ted Williams finally puts all the pieces together to give an unforgettable, searingly honest account of life on the streets. Nothing is held back, as Williams takes the reader through prostitution, theft, crack houses, and homeless shelters in a search, ultimately, for redemption and hope. Along the way, we see his relationship with his long-term girlfriend, Kathy, grow into an unlikely and inspiring love story, and we hear the Golden Voice of God lead Ted from the selfishness of crime to the humility of the street corner—almost a year before he was “discovered” on that highway entrance ramp. But this memoir isn't just an exploration of wrongs and a once-in-a-lifetime chance to give homelessness a voice. It is a deeply American, from-the-heart comeback story about the power of hope, faith, and personal responsibility. With the innate charisma that has won him millions of fans, Ted Williams proves that no one, no matter how degraded, is too lost for a second chance.

Foreword by Nan Roman, President and CEO of the National Alliance to End Homelessness This book explains how to end the U.S. homelessness crisis by bringing together the best scholarship on the subject and sharing solutions that both local communities and national policy-makers can apply now *In the Midst of Plenty* shifts our understanding of the phenomenon of homelessness away from issues of individual disability and embeds it in larger contexts of poverty, income inequality, housing affordability, and social exclusion. Homelessness experts Shinn and Khadduri provide guidance on how to end homelessness for people who experience it and how to prevent so many people from reaching the point where they have no alternative to sleeping on the street or in emergency shelters. The book is organized around four questions: Who becomes homeless? Why do people become homeless? How do we end homelessness? How do we prevent it? Based on a comprehensive look at relevant research, the authors show that we know how to end homelessness—if we devote the necessary resources to doing so. *In the Midst of Plenty: Homelessness and What to Do*

About It is an excellent resource for professionals and decision-makers in the homeless services system, as well as for anyone who is interested in helping to end homelessness. It also can be used as a text in undergraduate or masters courses in public policy, sociology, psychology, social work, urban studies, or housing policy. “The knowledgeable and thoughtful authors of this book—two brilliant women who know as much as anyone in the country about the nature of homelessness and its solutions—have done a great service by taking us on a journey through the history of homelessness, how our responses have changed, and how we can end it.” Nan Roman, President and CEO National Alliance to End Homelessness. “Shinn and Khadduri’s new book is a thorough yet concise examination of what we know about the nature and causes of homelessness, and the crucial lessons learned. This critically important work provides a roadmap to restoring basic housing and income security as viable policy options, in the face of our daunting inequality divide that otherwise threatens millions with destitution and homelessness.” Dennis Culhane, Dana and Andrew Stone Professor of Social Policy, University of Pennsylvania “Marybeth Shinn and Jill Khadduri have combined their significant expertise to create an essential guide about the history of modern homelessness and to offer a clear path forward to end this American tragedy. Their policy recommendations on ending homelessness are culled from the best about what we know works.” Barbara Poppe, Executive Director US Interagency Council on Homeless, 2009-2014.

IL SISTEMA FAENTINO DELLA CERAMICA viene studiato in questo volume con l’obiettivo di identificare percorsi e possibilità per la creazione di nuove imprese. Ad una ricerca bibliografica che inquadra il settore della ceramica artistica e artigianale in Italia, all’interno delle industrie culturali e creative, segue una parte di ricerca sul campo, che restituisce una fotografia delle caratteristiche attuali del “Sistema Faenza”, con un focus su ceramisti e botteghe ceramiche. Infine, vengono proposti alcuni modelli di ispirazione anglosassone per favorire la nascita di nuove imprese e favorire il ricambio generazionale, che si basano sul concetto di rete e sulla condivisione di spazi e strutture. Un tema trasversale è poi quello della formazione, strettamente collegato con la nascita di nuove imprese: nella ricerca di Paola Casta, emerge con forza la necessità di formare artigiani contemporanei “ibridi”, che sappiano unire competenze tecniche, culturali e progettuali a un forte orientamento all’innovazione.

In *Angels Unawares: Portraits of the Homeless of L.A.*, Casey Coates Danson uses her photographic talent and her passion for humankind to shed light on the issue of homelessness in our country. This powerful juxtaposition of lifestyles of wealth and of extreme poverty is truly eye-opening.

To earn money, a young boy decides to collect and redeem empty soft drink cans, but ends up giving away his money to help a local homeless man.

Nulla può sostituire la lettura del capolavoro di Tolkien *Il Signore degli Anelli*. Ma il celebre filosofo Peter Kreeft ci propone un viaggio nel viaggio, guidando il lettore alla scoperta delle fondamentali filosofiche della Terra di Mezzo. All’interno del libro, i temi filosofici del Signore degli Anelli sono meticolosamente suddivisi in 50 categorie, supportate da più di 1.000 riferimenti al testo. Dal momento che l’excursus sui 50 temi affronta molte delle grandi questioni della Filosofia, questo volume può anche essere letto come una coinvolgente introduzione alla filosofia. Per ognuno degli argomenti filosofici, Kreeft offre quattro strumenti di comprensione: la presentazione di una domanda chiave, una citazione a illustrare il pensiero di Tolkien, ulteriori citazioni da altri scritti di Tolkien come approfondimento al tema, e infine

citazioni di C.S. Lewis, che di Tolkien fu collega e amico.
