Kent's repertory is one of the most acceptable repertories amongst the homoeopathic fraternity . Kent's comparative repertory is a helping hand for the physicians and students alike to overcome the problem of understanding the exact meaning of each rubric and to differentiate amongst the closely related ones such as ;abandon and Forsaken' also the book is a guide for the selection of 'The correct remedy' as it details the differentiating features of each of the third grade remedy under the given rubric. This facilitates the physician at the clinical level. The book well elucidates the most important section of the Kent's repertory which is the Mind section.

This repertory is intended to serve as a handy and useful reference book. It is an attempt to lessen the difficulties of the prescriber. Remedies for a particular rubric are reduced to minimum possible by a careful selection. No drug is given unless there is strong justification provided for it, by authorities like Dr. Boger, Dr. Kent, Dr. Clarke's dictionary, etc. In this repertory, the heading including Mentals, Generals, Modalities, Organs, and their Sub-parts are all arranged according to their Alphabetical order. All the physiological and pathological conditions are also included. Cross references are given where-ever necessary.
