

Hopeless Kingdom A Reverse Harem Series The Hopeless Series Book 2

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

With a name like Violence, she was destined for greatness. Or destruction. As the only female member of the notorious Wild Hunt, Violence spends her days collecting souls. Until she accidentally becomes attached to one. That single soul reveals the darkness the king is breeding in the heart of their city. The men of the Wild Hunt aren't nearly as convinced of the evil that's coming, but Violence knows first-hand just how malicious the king really is. He is her father after all.

Hell has come. And her name is Izara Castillo. Portals are open, hell spawns are destroying the academy from the inside out, and even the ancient Vampiric Citadel is no match for this kind of power. Lucian Morningstar wanted a war? Well he just got one. He may have trained and strengthened Izzy's Prod into a true apocalyptic monster but he forgot about one small detail. Her men would give their life to protect her. Even from herself. This is the final book in the reverse harem series *Origins of the Six*. Recommended for readers 18 and over. This book is about baby-making. "You will be the mother of my children," said the man in a commanding tone. His shameless words rendered Emmelyn speechless and shocked, more so, than the kiss he landed on her lips earlier. "I need three children from you." "Eh ... wait.. what? Hold on a minute," Emmelyn, who was moved from her shock, hurriedly rubbed her lips roughly as if trying to remove the devil's marks from them. "I don't want to be your wife! I don't want to marry you, you devil!!" The man frowned and squinted his eyes menacingly. "Who said anything about marriage?" THE NEXT DAY "Let's go," said the prince. "Let's go where?" Emmelyn asked, not understanding. "Let's go make babies." *** SYNOPSIS: The crown prince was cursed on the day he was born, that he will never be happy. What's worse, no woman could touch him without dying. Thus, finding a wife to produce an heir became the royal family's greatest challenge since the prince is the only son. Until one day.. A slave girl who tried to kill him didn't end up dying after they touched. Emmelyn was a princess from one of their colonies who vowed to avenge her family's death by killing the crown prince.. And that's how she ended up in his castle. Seeing that she was the only woman he could have sexual relationship with, without killing her, the prince made an agreement to let her go and free her kingdom from his oppression if she produced for him three heirs. Emmelyn said yes, but every day that they were together, she made plans to kill him and get her revenge. Can Emmelyn get what she wanted, or would she be entangled deeper with the enemy who was deemed as the devil incarnate himself by his enemies? *** CHECK OUT MY OTHER BOOKS: - The Cursed King - ONGOING - Finding Stardust - COMPLETED - The Alchemists - COMPLETED - The Prince Who Cannot Fall In Love - COMPLETED - Till Death Do Us Part - COMPLETED I DON'T DO SLOW BURNS. Edmond Dantès is a young man about to be made captain of a cargo vessel and marry his sweetheart. But he is arrested at his pre-wedding feast, having been falsely accused of being a Bonapartist. Thrown into the notorious Château d'If prison, he eventually meets an ancient inmate who teaches him language, science, and passes hints of a hidden fortune. When Edmond makes his way out of prison, he plots to reward those who stood by him (his old employer, for one), and to seek revenge on the men who betrayed him: one who wrote the letter that denounced him, one that married his fiancée in his absence, and one who knew Dantès was innocent but stood idly by and did nothing. Its timeless story of adventure, historical drama, romance, revenge, and Eastern mystery has been the source of over forty movies and TV series. You'd think that basically being in charge of love would be an epic job, right? Wrong. Sure, I can blow some Lust into people's faces and watch the show, but I can't actually participate. It gets old, trust me. Same goes for love. I can pass it out like sugar-free lollipops at a dentist's office, but I can't get any love for myself. It totally sucks. I used to consider myself a hopeless romantic, so why wouldn't I choose to become a cupid? Sounds like a good idea, right? Wrong again. They don't call us stupid cupids for nothing. I'm stuck in this never-ending afterlife where I'm invisible, lonely, and bitter as hell. And yeah, I'm probably responsible for some terrible matchmaking out there. Sorry, not sorry. All my bad cupid'ing might be why I was exiled from the human realm. You can only do so much before the cupid bosses get all huffy. Unfortunately, my bitterness carried over into the new realm, and then I attacked a fae prince with Love Arrows. Accidentally. Okay, not accidentally. But hey, he deserved it. What I didn't expect was for him to retaliate and hit my ass with some crazy magic mojo strong enough to push me into the physical realm. Whoa. That's right. This cupid just got a real body. And you know what that means...Now, it's my turn to get some. Love, I mean. Get your head out of the gutter. Wink, wink bitches. Author's Note: This is a medium-burn reverse harem story. It includes explicit language and sexual situations. Intended for audiences 18 years and older. As this is a series, there will be a cliffhanger.

Hellhounds have feelings too...If Hades thinks he's going to drag me back to the Underworld, he might just learn that this fiery hound is more than just his daughter. Or his pet. Without my leash, this bi*** has

a bite that'll make him piss his godly pants. And maybe just maybe make him rethink that whole chaining me to the Underworld for eternity, decision. I can hope, right? The thing is, I know I'll never actually be free of Hades. No matter how much I try to blend into the human world, a creature as wild and dangerous as me just can't. That means my goal will always be just to stay one step ahead of him. To never get distracted. And never get attached. If I do those things, I might get to remain free. So then I must be a complete moron, because the second the three men move into the crappy apartment across from mine, I can't seem to stay away from them. It isn't love. Not even like. It's more that they seem wild, untamed, and innocent in an unexpected way—just like me. I've been called every name under the sun, but the one that rings the truest is monster. I am a monster. Dangerous to everyone around me. So even though I can't seem to fight my attraction to three strange men, I will. Because no matter what people call me, I won't drag mortals into a fight among gods and monsters. Only, what if the three men are more than what they seem? And what if Hades isn't the only one hunting me? CERBERUS UNCHAINED is a steamy reverse harem romance. It involves one lucky woman and three sexy gargoyles. It's also a #whychoose romance, meaning the heroine doesn't have to choose between her love interests.

The System of Objects is a tour de force—a theoretical letter-in-a-bottle tossed into the ocean in 1968, which brilliantly communicates to us all the live ideas of the day. Pressing Freudian and Saussurean categories into the service of a basically Marxist perspective, The System of Objects offers a cultural critique of the commodity in consumer society. Baudrillard classifies the everyday objects of the “new technical order” as functional, nonfunctional and metafunctional. He contrasts “modern” and “traditional” functional objects, subjecting home furnishing and interior design to a celebrated semiological analysis. His treatment of nonfunctional or “marginal” objects focuses on antiques and the psychology of collecting, while the metafunctional category extends to the useless, the aberrant and even the “schizofunctional.” Finally, Baudrillard deals at length with the implications of credit and advertising for the commodification of everyday life. The System of Objects is a tour de force of the materialist semiotics of the early Baudrillard, who emerges in retrospect as something of a lightning rod for all the live ideas of the day: Bataille's political economy of “expenditure” and Mauss's theory of the gift; Reisman's lonely crowd and the “technological society” of Jacques Ellul; the structuralism of Roland Barthes in The System of Fashion; Henri Lefebvre's work on the social construction of space; and last, but not least, Guy Debord's situationist critique of the spectacle.

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal

With powerful illustrations by Emily Carroll, Laurie Halse Anderson's Speak: The Graphic Novel comes alive for new audiences and fans of the classic novel. This title has Common Core connections.

After surviving childhood at the snooty, stuck-up boarding school for budding omegas, I have everyone convinced I'm a dud. My awakening? Never gonna happen. Heat, mates, and a fairytale pack life? Maybe next reincarnation. All I want is to be left alone. I'm invisible, headed to a blissful solo future until the Wyvern Pack destroys my dream of independence. Atlas, Hunter, Finn, Jett, and Orion are poison candy. They don't want an omega, but they need one, even if there'll never be a real spot for me in their pack. Who needs a pack? I'll keep myself safe, same as always. I'll never awaken, and I'll never ever give the Wyverns my heart... Because all they'll do is rip me apart. ? Burn: Slow ? Heat: Med/High (spicy MM + M MMMM scenes) ? Warning: Contains MM content, frequent cursing, and references to past assault that may be disturbing. Author not responsible for ugly crying.

My blood is their salvation... and my ruin. ? For years, the monsters who killed my family have held me in a cage. Brutalized and half-starved. Only kept alive so they can steal my blood. Until one evening when four eerily gorgeous men break me out of my prison. They give me a soft bed and delicious food. They say they'll protect me—but their generosity may come at a price. My rescuers are monsters like my captors: fae who shift into wolves. A curse gripping the faerie realm turns them wild under the full moon. Only my blood can cure their rage. These fearsome men need me, and not just to lift the curse. A tragedy left them outcasts, and offering me to their rulers could win them back the home and the power they lost. No matter how kindly they treat me, no matter how their smoldering eyes and strong hands stir unfamiliar desires in both my body and my heart, their castle is just another prison. As long as I'm a prize more than a person, my life will never be my own. I've survived this long without giving up. I won't roll over now. But how can one damaged human girl hold her own against the savage fae? *Captive of Wolves is the first in a new paranormal romance saga featuring possessive wolf shifters, fraught fae politics, and a wounded heroine coming into her own. Grab it now and get swept away in the fantasy!*

From New York Times and USA Today bestselling author Lara Adrian comes a new story in her Midnight Breed series... Once, they lived in secret alongside mankind. Now, emerged from the shadows, the Breed faces enemies on both sides—human and vampire alike. No one knows that better than Lazaro Archer, one of the eldest, most powerful of his kind. Sworn to his duty as the leader of the Order's command center in Italy, the last thing the hardened warrior wants is to be tasked with the rescue and safekeeping of an innocent woman in need of his protection. But when a covert mission takes a deadly wrong turn, Lazaro finds himself in the unlikely role of hero with a familiar, intriguing beauty he should not desire, but cannot resist. Melena Walsh has never forgotten the dashing Breed male who saved her life as a child. Hopeless Kingdom

If life really was a fairy tale, Zakara would never be the damsel in distress. She'd be a thief, and Prince Charming wouldn't have a clue how to steal the heart of the conniving criminal. Fae magic once ruled the world, until it disappeared without a trace. Only myths of the magic wielders linger in their destroyed society.
