This first of three volumes starts with a short introduction to historical metrology as a scientific discipline and goes on with an anthology of ancient and modern measurement systems of all kind, scientific measures, units of time, weights, currencies etc. It concludes with an exhaustive list of references. Units of measurement are of vital importance in every civilization through history. Since the early ages, man has through necessity devised various measures to assist him in everyday life. They have enabled and continue to enable us to trade in commonly and equitably understood amounts, and to investigate, understand, and control the chemical, physical, and biological processes of the natural world. The essence of the work is an alphabetically ordered, comprehensive list of measurement nomenclature, units and scales. It provides an understanding of almost all quantitative expressions observed in all imaginable situations, including spelling variants and the abbreviations and symbols for units, and various acronyms used in metrology. It will be of use not only to historians of science and technology, but also to economic and social historians and should be in every major academic and national library as standard reference work on the topic.

Though perhaps less well-known here than its Western counterpart, Chinese astrology is every bit as illuminating and provides an equally valuable shortcut to self-knowledge. Jonathan Dee, the well-respected author of several books on astrology, tarot, and fortune-telling, reveals all the mysteries of the art in this informative volume. Filled with legends, charts, and history, it contains all of the essentials for working out your Chinese horoscope including the animal signs for each birthday year, month, and hour. Each sign receives a richly detailed and enlightening explanation. Among the amusing and informative tidbits here: The rat is considered to be the sign of charm and is noted for its shrewdness, enterprise, and wealth. Rats are also prosperous, entrepreneurial, obsessive, anxious, bossy, and mean. The ox is the sign of tenacity and prosperity and a symbol of fertility and muscular strength. People born under the ox are patient, contemplative, eloquent, chauvinistic, petty, and grumpy. The monkey is lively, complex, charming, diplomatic, and agile. Monkeys are also dishonest, sarcastic, lacking respect, and restless. Chinese Astrology, Plain and Simple is an accessible introduction that enlightens, entertains, and informs.

The collaboration between the Textile Department of the University of Minho and the Brazilian Association of Studies and Research (ABEPEM) has led to an international platform for the exchange of research in the field of Fashion and Design: CIMODE. This platform is designed as a biennial congress that takes place in different European and Latin American countries with the co-organization of another university in each location. The current edition was jointly organized by the University of Minho and the Centro Superior de Diseño de Moda (CSDMM) - Universidad Politécnica de Madrid.

CIMODE's mission is to explore fashion and design from a social, cultural, psychological and communication perspective, and to bring together different approaches and perceptions of practice, education and the culture of design and fashion.

Through an interdisciplinary dialogue and intercultural perspective, CIMODE wants to generate and present new scenarios about the present and future of fashion and design. 'DISEÑO AL REVÉS' ('BACKWARD DESIGN') was the central theme of the 4th CIMODE (Madrid, Spain, 21-23 May 2018), which produced a highly topical and relevant number of academic publications presented in this book.

In the domain of visual images, those of fine art form a tiny minority. This original and brilliant book calls upon art historians to look beyond their traditional subjects—painting, drawing, photography, and printmaking—to the vast array of "nonart" images, including those from science, technology, commerce, medicine, music, and archaeology. Such images, James Elkins asserts, can be as rich and expressive as any canonical painting. Using scores of illustrations as examples, he proposes a radically new way of thinking about visual analysis, one that relies on an object's own internal sense of organization. Elkins begins by demonstrating the arbitrariness of current criteria used by art historians for selecting images for study. He urges scholars to adopt, instead, the far broader criteria of the young field of image studies. After analyzing the philosophic underpinnings of this interdisciplinary field, he surveys the entire range of images, from calligraphy to mathematical graphs and abstract painting. Throughout, Elkins blends philosophic analysis with historical detail to produce a startling new sense of such basic terms as pictures, writing, and notation.

Two opposing views of the future in the Middle Ages dominate recent historical scholarship. According to one opinion, medieval societies were expecting the near end of the world and therefore had no concept of the future. According to the other opinion, the expectation of the near end created a drive to change the world for the better and thus for innovation. Close inspection of the history of prognostication reveals the continuous attempts and multifold methods to recognize and interpret God's will, the prodigies of nature, and the patterns of time. That proves, on the one hand, the constant human uncertainty facing the contingencies of the future. On the other hand, it demonstrates the firm believe during the Middle Ages in a future which could be shaped and even manipulated. The handbook provides the first overview of current historical research on medieval prognostication. It considers the entangled influences and transmissions between Christian, Jewish, Islamic, and non-monotheistic societies during the period from a wide range of perspectives. An international team of 63 renowned authors from about a dozen different academic disciplines contributed to this comprehensive overview.

"Every time Laura Lippman comes out with a new book, I get chills because I know I am back in the hands of the master. She is simply a brilliant novelist, an unflinching chronicler of life in America right now, and Sunburn is her dark, gleaming noir gem. Read it." -Gillian Flynn, #1 New York Times bestselling author of Gone Girl New York Times bestselling author Laura Lippman returns with a superb novel of psychological suspense about a pair of lovers with the best intentions and the worst luck: two people locked in a passionate yet uncompromising game of cat and mouse. But instead of rules, this game has dark secrets, forbidden desires, inevitable betrayals—and cold-blooded murder. One is playing a long game. But which one? They meet at a local tavern in the small town of Belleville, Delaware. Polly is set on heading west. Adam says he's also passing through. Yet she stays and he stays—drawn to this mysterious redhead whose quiet stillness both unnerves and excites him. Over the course of a punishing summer, Polly and Adam abandon themselves to a steamy, inexorable affair. Still, each holds something back from the other—dangerous, even lethal, secrets. Then someone dies. Was it an accident, or part of a plan? By now, Adam and Polly are so ensnared in each other's lives and lies that neither one knows how to get away—or even if they want to. Is their love strong enough to withstand the truth, or will it ultimately destroy them? Something—or someone—has to give. Which one will it be? Inspired by James M. Cain's masterpieces The Postman Always Rings Twice, Double Indemnity, and Mildred Pierce, Sunburn is a tantalizing modern noir from the

incomparable Laura Lippman.

The winner of the Man Booker Prize, this "expertly written, perfectly constructed" bestseller (*The Guardian*) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand's booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an enormous cache of gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, *The Luminaries* is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament.

THE NEW ASTROLOGY(tm) FOR THE 21ST CENTURY is INGENIOUS! Suzanne White's revolutionary book of astral character study offers her readers A Unique Blend Of Chinese and Western Astrology. Indeed there are not 12 but 144 signs of the zodiac! By blending the two zodiacs, White has hatched a synthesis of the World's Two Greatest Astrological systems. White's accuracy with character reading is positively uncanny! You will wonder if she has been reading your mail. It is only perhaps once in a generation that a thoroughly new, totally original way of looking at the zodiac is discovered. THE NEW ASTROLOGY FOR THE 21ST CENTURY is that system. In combining the astrological systems of the traditional Chinese (terrestrial) with that of the Occident (celestial), Suzanne White discovered that each of us is governed by not one, but two signs. Hence, a Capricorn/Tiger quite different from a Capricorn/Cat, as is a Leo/Dog from a Leo/Dragon, and so on. This comprehensive blend of Western and Chinese Astrology gives detailed analyses of each of the 144 signs, including individualized sections on love, sex and romance, business, money, careers, home life and compatibility (or lack of it) with other signs. Already a worldwide best-seller in its earlier incarnation, THE NEW ASTROLOGY FOR THE 21ST CENTURY has now been revised and updated by the author. This new edition offers insights into not only our own lives, but also into those of all who are close to us. We can even check out the characters of all the new people we meet. Are they too self-involved? Greedy? Power hungry? Honest? Sexy? Ambitious or Lazy?
