Accounting and Financial Analysis in the Hospitality Industry Jonathan Hales, 2006-08-11 The objective of this textbook is to teach students to be conversational in speaking "numbers." This means understanding fundamental accounting concepts, developing solid financial analysis abilities, and then applying them to understand and improve the operational performance of their hotel or restaurant. The book will accomplish this by studying the current practices of some of today's leading hotel

and restaurant companies. Chapters will be developed under the auspices of a select group of hospitality industry General Managers, Directors of Finance, and Regional Accounting Managers to ensure that the information is current, accurate and useful. Understanding and applying the information will be the main focus of this book. This textbook should provide hospitality managers the knowledge and experience to be comfortable in using numbers to operate their departments. This includes developing the ability to perform all accounting and financial aspects of their position efficiently and correctly including revenue forecasting, wage scheduling, budgeting, P&L critiques, purchasing procedures and cost control methods. As a result, they will have more time to spend on the floor with their customers and employees. This knowledge will help them understand their operations and how to improve, change or expand them to increase revenues or profits.

Accounting Essentials for Hospitality Managers Chris Guilding, Kate Mingjie Ji, 2022-02-27 For non-accountant hospitality managers, accounting and financial management is often perceived as an inaccessible part of the business. Yet having a grasp of accounting basics is a key part of management. Using an easy-to-read style, this book provides a comprehensive overview of the most relevant accounting techniques and information for hospitality managers. It demonstrates how to organise and analyse accounting data to help make informed decisions with confidence. With its highly practical approach, this new fourth edition: Quickly develops the reader's ability to adeptly use and interpret accounting information to enhance organisational decision-making and control. Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base. Presents new accounting problems in the context of a range of countries and currencies throughout. Develops mastery of the key accounting concepts through financial decision-making cases that take a hospitality manager's perspective on a range of issues. Includes accounting problems at the end of each chapter to be used to test knowledge and apply understanding to real-life situations. Offers extensive web support for instructors and students that includes PowerPoint slides, solutions to end-of-chapter problems, a test bank and additional exercises. The book is written in an accessible and engaging style and structured logically with useful features throughout to aid students' learning and understanding. It is a key resource for all future hospitality managers.

Financial Management for Hospitality Decision Makers Chris Guilding, 2007-08-22 Financial Management for Hospitality Decision Makers is written specifically for those 'decision makers' in the industry who need to be able to decipher accountant 'speak' and reports in order to use this information to its best advantage and achieve maximum profits. The area of accounting and finance is a vital but often inaccessible part of the hospitality business. However, having the knowledge and the ability to use it properly makes all the difference to the turnover and success of a business. Financial Management for Hospitality Decision Makers is written specifically for those industry executives who need to be able to decipher, appreciate and utilise valuable financial management tools and techniques in order to realise maximum profits. Highly

practical in its scope and approach, this book: · Outlines the procedure and purpose behind various financial activities - including budgeting, year-end financial statement analysis, double-entry accounting, managing and analysing costs, working capital management, and investment decision making · Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base · Clearly highlights the key financial issues you need to consider in a host of decision making situations · Includes a range of problems to help readers appraise their understanding of concepts - with solutions provided for lecturers at <http://textbooks.elsevier.com>. At all times, the book rigorously applies itself to the specific needs of the hospitality decision-maker, contextualising and explaining financial decision making and control in this light. Combining a user-friendly structure with frequent international cases, worked examples and sample reports to illuminate the theory, *Financial Management for Hospitality Decision Makers* is ideal for all students of hospitality, as well as being a vital source of information for practitioners already in the industry.
