In 2009, my wife of over fifty-eight years was diagnosed with dementia with Alzheimers symptoms. My caregiving responsibilities began before that time and continued until her death in January 2018. She was provided care in her own home. As time went by, the caregiver duties became more and more demanding. It was truly twenty-four hours each day and seven days each week. My sweetheart was referred to the hospice program as a patient beginning in 2013 with a life expectancy of six months or less. At the time of her passing, she had been a hospice patient for four years, eleven months, and five days. The Diary of a Caregiver begins with her entry into the hospice program and continues until her death. Caregiving can be very frustrating at times as one never knows what to expect or when to expect it. The Diary of a Caregiver identifies many of the problems and frustrations associated with care of a dementia patient. It also identifies different techniques and solutions to some of those problems. It should be of interest to anyone who is involved in caregiving, especially those who are just beginning.

Anthony Henday, a young Hudson's Bay Company employee, set out from York Factory in June 1754 to winter with "trading Indians" along the Saskatchewan River. He adapted willingly and easily to their way of life; he also kept a journal in which he described the plains region and took note of rival French traders' success at their inland posts. A copy of Henday's journal was immediately sent to the company directors in London. They rewarded Henday handsomely although they were uncertain where he had travelled, what groups he had met on the plains, and what success he had in opposing rival French traders. Since then, uncertainty about Henday's year inland has increased. The original journal disappeared; only four copies, dating from 1755 to about 1782, are extant. Each text differs from the other three; the differences range from variant spellings to word choice to contradictory statements on vital questions. All four copies are the work of a company clerk, later factor, named Andrew Graham, who used them to support his own views on HBC trading policies. Twentieth-century scholars have based their claims for Henday's importance as an explorer, trader and observer of Native cultures on a poorly edited transcript of the 1782 text. They have been unaware or careless of the journal's textual ambiguity. A Year Inland presents all four copies for the first time, together with contextual notes and a commentary that reassesses the journal's information on plains geography, people and trade.

Fresh from a stint recruiting Albanians to fight the Cossacks in the Crimean War, Edward Shelley embarked for South America, to avoid tiresome (and embarrassing) Parliamentary hearings back home. Thus began a trip around the world over the next 52 months, as he searched for adventure and new scenes to explore, stopping at intervals to collect traveling money from home. Shelley found adventure in full measure, crossing the Andes, passing through revolution-ravaged Mexico, sleeping alongside an erupting Hawaiian volcano and following invading British and French armies into China; and even close brushes with death receive only laconic mention in his journal. Annotations of the journal typescript explain journal some obscure entries and provide the historical and geographical context for his travels.
