Kenji López-Alt has pondered all these questions and more. In *The Food Lab*, Kenji focuses on the science behind beloved American dishes, delving into the interactions between heat, energy, and molecules that create great food. Rodale was founded on the belief that organic gardening is the key to better health both for us and for the planet, and never has this message been more urgent. Now, with *Organic Manifesto*, Maria Rodale, chairman of Rodale, sheds new light on the state of 21st century farming. She examines the unholy alliances that have formed between the chemical companies that produce fertilizer and genetically altered seeds, the agricultural educational system that is virtually subsidized by those same companies, and the government agencies in thrall to powerful lobbyists, all of which perpetuate dangerous farming practices and deliberate misconceptions about organic farming and foods. Interviews with government officials, doctors, scientists, and farmers from coast to coast bolster her position that chemical-free farming may be the single most effective tool we have to protect our environment and, even more important, our health.

From the prominent New York Times food writer, a memoir recounting the tough life lessons she learned from a generation of female cooks—including Marion Cunningham, Alice Waters, Ruth Reichl, Rachael Ray, and Marcella Hazan. Somewhere between the lessons her mother taught her as a child and the ones

she is now trying to teach her own daughter, Kim Severson stumbled. She lost sight of what mattered, of who she was and who she wanted to be, and of how she wanted to live her life. It took a series of women cooks to reteach her the life lessons she forgot-and some she had never learned in the first place. Some as small as a spoonful, and others so big they saved her life, the best lessons she found were delivered in the kitchen. Told in Severson's frank, often funny, always perceptive style, *Spoon Fed* weaves together the stories of eight important cooks with the lessons they taught her-lessons that seemed to come right when she needed them most. We follow Kim's journey from an awkward adolescent to an adult who channeled her passions into failing relationships, alcohol, and professional ambition, almost losing herself in the process. Finally as Severson finds sobriety and starts a family of her own, we see her mature into a strong, successful woman, as we learn alongside her. An emotionally rich, multilayered memoir and an inspirational, illuminating series of profiles of the most influential women in the world of food, *Spoon Fed* is Severson's story and the story of the women who came before her-and ultimately, a testament to the wisdom that can be found in the kitchen.
