The Truth About Day Trading Stocks A realistic guide to day trading today's stock market In terms of the potential for heavy financial losses, day trading is a high-risk profession. No one should contemplate day trading without giving thought to the ways he can lose, and all the ways to lessen or avoid them. Yet many people enter the game with unrealistic expectations, unaware of what it takes to succeed. Seminars and software alone do not make a successful day trader, cautions author Josh DiPietro. Instead, a trader must learn hard lessons of self-discipline, consistency, and staying in the game for the long haul to have a real chance of success. In *The Truth About Day Trading Stocks*, DiPietro offers the amateur day trader a brutally honest look at the pitfalls of day trading—and how to hopefully avoid them. Written in an engaging and sometimes humorous tone, *The Truth About Day Trading Stocks* draws on the author's own experiences as a day trader to offer a clear-cut departure from typical "golden goose" strategies promising instant wealth. Instead, he attempts to slow down the dangerous fervor of the average amateur and demonstrate the ways you can become a professional and not lose your shirt in the process. *The Truth About Day Trading Stocks* shows how trading decisions are bent and shaped by emotions, and why it is critical to know yourself, understand risk, and remember that increasing your skill level is a gradual, ongoing process—there's always more to learn! After dispensing with popular illusions, DiPietro proceeds to offer realistic, practical trading advice—comparing pay-per-trade with pay-per-share brokers, determining which works best and when, offering suggestions on how to avoid the prospect of perfect trades turning ugly, and more. At the end of the book, he also includes a section called "Rules to Remember," a list of over eighty rules, simply stated and easy to grasp, to benefit amateurs' performance. Throughout the book, the author describes his development of acute self-awareness while figuring out how to succeed. Through that blunt self-portrayal, the goal of *The Truth About Day Trading Stocks* is to help you create a disciplined mind-set and apply it to your own successful trading style.

Understand how day trading works—and get an action plan Due to the fluctuating economy, trade wars, and new tax laws, the risks and opportunities for day traders are changing. Now, more than ever, trading can be intimidating due to the different methods and strategies of traders on Wall Street. *Day Trading For Dummies* provides anyone interested in this quick-action trading with the information they need to get started and maintain their assets. From classic and renegade strategies to the nitty-gritty of daily trading practices, this book gives you the knowledge and confidence you'll need to keep a cool head, manage risk, and make decisions instantly as you buy and sell your positions. New trading products such as cryptocurrencies Updated information on SEC rules and regulations and tax laws Using options to manage risk and make money Expanded information on programming If you're someone who needs to know a lot about day trading in a short amount of time, this is your place to start.

Swing Trading Stocks using the End of Day Method is for all beginning aspiring investors and traders who are just getting their head around doing swing trading as a business and making an unlimited income from doing it. Everyone has their own ideas of what they think swing trading is and what it can do for them. *Swing Trading Stocks using the End of Day Method* is for people who want to start their own swing trading business and become investors and traders in today's financial markets, but have zero experience and are looking for the best quality information to get them started. This book is for beginners and will detail many of the things that a brand new trader must learn not to do before they can become consistently profitable in the live markets. You're heard the saying "just say no to drugs", just say no to day trading and you and your account will be waaaaay ahead of the game to start off. Don't say I didn't warn you, OK, continue with your insanity and buy this book to give yourself a fighting chance. The learning curve in the investing and trading business and it is a business can be long, brutal and very very expensive if you learn the wrong way. *Swing Trading Stocks using the End of Day Method* aims to tell you how do study it the right way the first time and greatly reduce that long learning curve by showing you what the market is really made of and who are actually in control of it and when they are in control of it. When you have this information and can see it on a live price chart in real time and pull the trigger without hesitation you can make a lot of damn money, what are you waiting for?

Day trading is difficult. The path is fraught with risk. But a pot of gold awaits those who learn their lessons well. Have you ever Heard about day trading? Have you ever considered giving it a go yourself? Do you know where to start?

Here's a Secret Other Authors Won't Tell You... Day Trading is Hard and Most Day Trading "Educators" Don't Actually Day Trade! You heard that right! They don't make their money from stocks, but from the chatroom, video, and subscription services they sell you! Before we get started, let me first go over what I don't include in this book... I have no "day trading" chatroom which charges your credit card each month for a service you'll never use. I have no monthly website subscription service for "more advanced strategies" that are needed to get started, but not included in the book. I have no Lamborghini I rented to put behind me in a video, or fake money on a table in front of me. What I do have is a book that will teach you how the day trading industry actually works, my own wisdom from being in the stock market for almost a decade, and strategies you can use to actually start day trading. Here's What You'll Learn In This Book: Part 1: The Industry - In the first part of the book, I peel back the curtain and go over the actual day trading industry with you. I show you how so called "pro" traders are able to fake charts, statistics, and trades to make it appear like they actually make money day trading, when they really don't. I then go over the tactics they use to scam traders, and even a website which exposes all the fake educators. Part 2: How to Day Trade - In this section, I go over the basics of day trading. This includes what software and broker to use, finding mentors who you can refer to for help, and what the typical day in the life of a day trader looks like. Part 3: Trading Setup - Next, I show you the optimal set up to use for day trading. This includes indicators to utilize, how to scan for stocks, and the best chart type to use. I then go over preferable stocks to trade, especially for those with smaller account sizes, and how to limit your risks so you don't end up like so many traders before you who have lost all their money day trading. Part 4: Day Trading Strategies - This is the heart of the book, and where I spend the most time. In this section, I give you 8 different strategies you can immediately start using to day trade. I include detailed explanations, charts, and examples so you know exactly how to implement the strategies I go over. Part 5: Additional Advice - In the last part of the book, I go over my final bit of advice in regards to day trading. This includes when to take profits and losses, using a practice account, and more bits of wisdom I have learned over the years. I must admit to you, day trading is not easy and there is no guarantee of actually making it. However I feel this book gives you the best chance of actually getting started, as well providing a big picture of the day trading industry. If you've been on the fence about day trading, now is your chance to finally learn what it's all about! As a FREE bonus, only for book buyers, you'll receive my special report titled Crush the Market! This guide goes over 12 beneficial tips I have learned throughout my trading career that will help keep your account profitable in the stock market. Very few careers can offer you the freedom, flexibility and income that day trading does. As a day trader, you can live and work anywhere in the world. You can decide when to work and when not to work. You only answer to yourself. That is the life of the successful day trader. Many people aspire to it, but very few succeed. Day trading is not gambling or an online poker game. To be successful at day trading you need the right tools and you need to be motivated, to work hard, and to persevere. At the beginning of my trading career, a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from \$1 to over \$55 in just two days. Two days! I was a beginner at the time. I was the amateur. I purchased 1,000 shares at \$4 and sold them at over \$10. On my very first beginner trade, I made \$6,000 in a matter of minutes. It was pure luck. I honestly had no idea what I was doing. Within a few weeks I had lost that entire \$6,000 by making mistakes in other trades. I was lucky. My first stupid trade was my lucky one. Other people are not so lucky. For many, their first mistake is their last trade because in just a few minutes, in one simple trade, they lose all of the money they had worked so hard for. With their account at zero, they walk away from day trading. As a new day trader you should never lose sight of the fact that you are competing with professional traders on Wall Street and other experienced traders around the world who are very serious, highly equipped with advanced education and tools, and most importantly, committed to making money. Day trading is not gambling. It is not a hobby. You must approach day trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake. I am alert. I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends. Rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market's opening. Sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market. I know. I've experienced all of these scenarios. In *How to Day Trade for a Living*, I will show you how you too can take control over your life and have success in day trading on the stock market. I love teaching. It's my passion. In this book, I use simple and easy to understand words to explain the strategies and concepts you need to know to launch yourself into day trading on the stock market. This book is definitely NOT a difficult, technical, hard to understand, complicated and complex guide to the stock market. It's concise. It's practical. It's written for everyone. You can learn how to beat Wall Street at its own game. And, as a purchaser of my book, you will also receive a membership in my community of day traders at www.vancouver-traders.com. You can monitor my screen in real time, watch me trade the strategies explained in his book, and ask questions of me and other traders in our private chat room. I invite you to join me in the world of day trading. I'm a real person who you can connect with. I'm not just a photograph here on the Amazon site. I love what I do. You can follow my blog post under Author Updates on my Author page on Amazon. It's honest. You'll see I lose some days. You can read the reviews of my book. I know you will learn much about day trading and the stock market from studying my book. You can join at no cost and with no obligation my community of day traders at www.vancouver-traders.com. You can ask us questions. Practical, hands-on knowledge. That's *How to Day Trade for a Living*.

It asks over 200 multiple-choice questions, with answers and 11 rating scales for sharpening your trading skills. For example: Question Markets rise when * there are more buyers than sellers * buyers are more aggressive than sellers * sellers are afraid and demand a premium * more shares or contracts are bought than sold * I and II * II and III * II and IV * III and IV Answer B. II and III. Every change in price reflects what happens in the battle between bulls and bears. Markets rise when bulls feel more strongly than bears. They rally when buyers are confident and sellers demand a premium for participating in the game that is going against them. There is a buyer and a seller behind every transaction. The number of stocks or futures bought and sold is equal by definition.

How to Swing Trade Stocks for High Profits is for all beginning aspiring self-directed investors and traders who are just getting their head around doing the day trading and swing trading stock business. Everyone has their own ideas of what they think day trading and swing trading are and what it can do for them. How to Swing Trade Stocks for High Profits is for beginners and will detail many of the things that a brand new self-directed trader must learn not to do before they can become consistently profitable in the live markets. You're heard the saying "just say no to

drugs”, just say no to day trading and you and your account will be waaaaay ahead of the game to start off. Don’t say I didn’t warn you, OK, continue with your insanity and read this entire book to give yourself a fighting chance. Many of the things I tell brand new self-directed investors and traders in all my books may sound like I am a broken record and some things you read may sound repetitive. I do that for a specific reason because much of what trading is about is doing those same actions over and over again repetitively to make money the same way every day. It is the only way professional traders do it and how they develop their edge to win in the live markets against the best market participants in the world. How to Swing Trade Stocks for High Profits will be an excellent introduction for someone has zero or very little experience in the financial markets for what they can expect to research and learn if they want to have any chance at being successful making real money in the live markets. If you’re brand new How to Swing Trade Stocks for High Profits will give you a head start, if you have a little knowledge already I hope How to Swing Trade Stocks for High Profits can give you more information and help you learn something new. When you are done reading How to Swing Trade Stocks for High Profits you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in How to Swing Trade Stocks for High Profits will put you on the fast track to becoming a successful self-directed investor and trader with very little money invested other than the cost of How to Swing Trade Stocks for High Profits.

Success as a day trader will only come to 10 percent of those who try. It’s important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I’ll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders.

Learn the Art of Day Trading With a Practical Hands-On Approach

Do you want to learn how to day trade stock and options for beginners? If yes, then keep reading. There are many different options when it comes to entering the stock market. Some are long-term investments where you make an income each quarter on the stocks you purchase. Others, like day trading, will be short-term with the whole trade occurring in one day. Day trading is the buying and selling of securities in one single trading day. This can occur in any type of marketplace that you choose, but it is most common in the stock market and the forex market. Typically, to do well as a day trader, you need to have some knowledge about your chosen market, and you need to have money. This book covers the following topics: Introduction to day trading Day trading vs. Swing trading How to find stocks for trades Risk and account management Tools and platforms What kind of day trader are you? Technical analysis in day trading Introduction to candlesticks and how to use them in your strategies Day trading strategies Why do stock prices fluctuate? Dos and don'ts of day trading Breakout & breakdown trading How to choose day trading charts Choosing your day trading securities How much do you need to day trade? ...And much more!!! With day trading, you are not going to make a ton of money off each trade. If you make a few dollars with each trade, you are doing a good job. The point here is to do a lot of short trades, taking advantage of the temporary ups and downs of the market. A lot of little profits can add up to a good payday when the process is done. Most financial trading books read more like an infomercial than a book – this is different Would you jump out of an airplane without a parachute? Then why would you start making trades online before you learned what you were doing? It’s crazy! But with deep discount brokers making it look so easy for individual investors, it’s no wonder consumers today are lulled into a false sense of security. You can’t rely on outdated textbooks and strategies anymore. But if you adapt, you can make a considerable fortune with these new market conditions. Here’s just a fraction of what you’ll discover inside: The best brokerage accounts for swing traders (setting this up right can save you \$1000+ a year in commissions) How social media moves asset prices, and how to always be first to act on these (do this and you’ll almost always ensure lower entry prices than your competition) The only 3 strategies you need for swing trading success (despite what everyone else tells you, it’s these 3 which will bring 90% of your profits) How to always ensure the right entry position for a trade How to spot under or overvalued stocks with 99% accuracy The “magic trading number”: If you win this percentage of your trades, you’ll make massive profits (lower than you think) The secret to finding your trading edge (hint: the risk-reward ratio isn’t enough) When to invest, and more important when NOT to invest like Warren Buffett The 10 best traders to follow on Twitter for maximum profit opportunities The #1 thing new traders miss about aftermarket trading. Get this right and you’ll have a huge advantage How to set a proper stop loss so you don’t get stopped out prematurely. One of the biggest mistakes new traders make is having a stop loss which is too tight. Do this instead and you’ll profit when the market moves in your favor. The “zen trader” strategy which makes you immune to losses (which although rare, will occur with any trading plan) A useful, yet barely known website which breaks company news faster than relying on mainstream news services. How to use the “other 80/20 rule” to profit from short term price movements. 3 profit securing lessons you can learn from the DOTCOM bubble Why a new trader should never trade cryptocurrency How one trader made \$1.4 million in a single day with 1 options trade, and why you shouldn’t try to replicate their strategy “Hedge-Fund Style” money management for absolute beginners How to profit from legal marijuana (all the upside of cannabis growing companies but without the red tape and volatility) A simple technique you can do in just 5 minutes a day. This is used by top hedge fund traders, and almost always guarantees an increase in your percentage of winning trades A “backdoor” technique which lets the market do the work for you (an effective “passive trading” strategy and used by Wall Street all the time) ...and much, much more. You may have experienced various obnoxious and even misleading advertisements of easy, get rich trading strategies. This is not one of those. You won’t have to spend thousands on expensive trading software or “magic bullet systems” In fact, you can get started using an online trading account and use free websites for your information (you’ll find the best two in Chapter 7) All written in plain, easy to understand English.
