"A wise and realistic program for instilling genuine self-esteem in children." —Kirkus Reviews, starred review Help your child cultivate real, lasting confidence! In Kid Confidence, a licensed clinical psychologist and parenting expert offers practical, evidence-based parenting strategies to help kids foster satisfying relationships, develop competence, and make choices that fit who they are and want to become. As parents, it's heartbreaking to hear children say negative things about themselves. But as children grow older and begin thinking about the world in more complex ways, they also become more self-critical. Alarming, studies show that self-esteem, for many children, takes a sharp drop starting around age eight, and this decline continues into the early teen years. So, how can you turn the tide on this upsetting trend and help your child build genuine self-esteem? With this guide, you'll learn that self-esteem isn't about telling kids they're "special." It's about helping them embrace the freedom that comes with a quiet ego—a way of being in the world that isn't preoccupied with self-judgment, and instead embraces a compassionate view of oneself and others that allows for both present awareness and personal growth. When kids are less focused on evaluating and comparing themselves with others, they are freer to empathize with others, embrace learning, and connect with the values that are bigger than themselves. You'll also discover how your child's fundamental needs for connection, competence, and choice are essential for real self-esteem. Connection involves building meaningful and satisfying relationships that create a sense of belonging. Competence means building tangible skills. And choice is about being able to make decisions, figure out what matters, and choose to act in ways that are consistent with personal values. When children are able to fulfill these three basic needs, the question of "Am I good enough?" is less likely to come up. If your child is suffering from low self-esteem, you need a nuanced parenting approach. Let this book guide you as you help your child create unshakeable confidence and lasting well-being.

Your appearance is your physical representation in the world and it communicates a strong message to who you are and what you believe in. Tap Into your Inner Confidence Everyone, yourself included, has experienced the feeling of being highly energetic, brave and empowered at certain points in their life. It doesn't matter if you cannot completely recall that moment right now, because what matters more is that you can experience it again. Is it only a question of temperament or the result of conscious self-improvement? How do you get closer to those who stand out thanks entirely to their confidence in themselves? In doing so, he gives us the keys to having more confidence in ourselves.

It's uncomfortable, but you can be sure it will kill your fear of failure once and for all. - What a strange study about hitting dolls or treating them kindly can teach you about how others affect your beliefs about your competence. It's the second most effective way to increase the strength of your belief in your abilities. - What a phenomenon discovered by a German industrial psychologist can teach you about motivation. There's a simple way to inspire you to put more effort into your goals. - The #1 key to improving the confidence in your abilities. If you don't have time to read the entire book, read this one tip alone. - What a study on experts and novices can teach you about how experts approach problems.
