Joey has always been a special kid, but his brother, Mark, is worried that the people in their new town won't understand his odd behavior. Mark has always known that his brother, Joey, was special. The problem is, Joey has always been a little too special for most people to understand. When the brothers move to rural upstate New York to live with their aunt and uncle, Mark is worried that Joey will have a hard time fitting into their new town—especially since Joey has a habit of speaking his thoughts inside people's minds instead of out loud. Mark believes that Joey can do anything he sets his mind to—if he wanted to, he could probably even fly. But when a local politician dares Joey to prove his talents, Mark worries that by accepting the challenge, Joey is keeping himself from ever being able to live a regular life again. And in a town like Westfield, not being normal can be dangerous.

A perfect book to share with the little ones you love, from bestselling author Julie Fogliano and Christian Robinson, Caldecott Honoree and author-illustrator of *Another*. Just in case you want to fly here's some wind and here's the sky. Funny and sweet, told with lyrical text and bright, unexpected illustrations, *Just in Case You Want to Fly* is a celebration of heading off on new adventures--and of knowing your loved ones will always have your back when you need them. A joyful, inclusive cast of children fly, sing, and wish their way across the pages, with everything they could ever need--a cherry if you need a snack, and if you get itchy here's a scratch on the back--to explore the world around them. Christian Robinson's bold illustrations bring out the humor and warmth of the poetic text, teasing out new meanings and adding delightful details that will have you turning the pages again and again. Julie Fogliano and Christian Robinson, the creators of the award-winning *When's My Birthday?*, have teamed up again to create a perfect book to share with the little ones you love--to give them everything they need to go out into the world, and reassure them you'll always be waiting to welcome them home. Whether it's for big milestones like graduations or holidays, or quiet bedtimes and cozy moments together, *Just In Case You Want to Fly* is made for sharing, with gentle humor and sweet reassurances.

You just can't keep a good girl down . . . unless you use the proper methods. Piper McCloud can fly. Just like that. Easy as pie. Sure, she hasn't mastered reverse propulsion and her turns are kind of sloppy, but she's real good at loop-the-loops. Problem is, the good folk of Lowland County are afraid of Piper. And her ma's at her wit's end. So it seems only fitting that she leave her parents' farm to attend a top-secret, maximum-security school for kids with exceptional abilities. School is great at first with a bunch of new friends whose skills range from super-strength to super-genius. (Plus all the homemade apple pie she can eat!) But Piper is special, even among the special. And there are consequences. Consequences too dire to talk about. Too crazy to consider. And too dangerous to ignore. At turns exhilarating and terrifying, Victoria Forester's debut novel has been praised by Stephenie Meyer, author of the *Twilight* saga, as "the oddest/sweetest mix of *Little House on the Prairie* and *X-Men*...Prepare to have your heart warmed." *The Girl Who Could Fly* is an unforgettable story of defiance and courage about an irrepressible heroine who can, who will, who must . . . fly. This title has Common Core connections. Praise for Victoria Forester and *The Girl Who Could Fly*: "It's the oddest/sweetest mix of *Little House on the Prairie* and *X-Men*. I was smiling the whole time (except for the part where I cried). I gave it to my mom, and I'm reading it to my kids—it's absolutely multigenerational. Prepare to have your heart warmed." Stephenie Meyer, author of the *Twilight* saga "In this terrific debut novel, readers meet Piper McCloud, the late-in-life daughter of farmers...The story soars, just like Piper, with enough loop-de-loops to keep kids uncertain about what will come next....Best of all are the book's strong, lightly wrapped messages about friendship and authenticity and the difference between doing well and doing good."--Booklist, Starred Review "Forester's disparate settings (down-home farm and futuristic ice-bunker institute) are unified by the rock-solid point of view and unpretentious diction... any child who has felt different will take strength from Piper's fight to be herself against the tide of

family, church, and society."--The Horn Book Review The Girl Who Could Fly is a 2009 Bank Street - Best Children's Book of the Year.

The inspirational and true story of James Herman Banning, the first African American pilot to fly across the country, comes to life in this picture book biography perfect for fans of Hidden Figures and Little Leaders. Includes art from a Coretta Scott King award-winning illustrator. James Herman Banning always dreamed of touching the sky. But how could a farm boy from Oklahoma find a plane? And how would he learn to fly it? None of the other pilots looked like him. In a journey that would span 3,300 miles, take twenty-one days, and inspire a nation, James Herman Banning proved that you can't put barriers on dreams. Louisa Jaggar incorporates over seven years of research, including Banning's own writings and an interview with the aviator's great-nephew. She teams up with cowriter Shari Becker and award-winning illustrator Floyd Cooper to capture Banning's historic flight across the United States.

"Teague proves that a picture can be worth a thousand words—and almost as many laughs." —Publishers Weekly (starred review) "Engaging illustrations and the baby bird's wild ideas will entertain audiences of all ages." —Booklist (starred review)

"Funny, feathery finesse." —Kirkus Reviews (starred review) Mama bird thinks it's time for Baby bird's first flight, but Baby bird has other ideas in this humorous wordless picture book from New York Times bestselling author-illustrator Mark Teague. It's a big day up in the tree that Mama bird shares with her baby. Mama bird thinks Baby bird is finally ready to leave the nest and learn to fly so he can migrate south with the rest of their flock. But Baby bird isn't so sure. Can't his mother keep bringing him worms in their nest? Can't he migrate in a hot air balloon instead? Or perhaps a car? This silly wordless picture book will keep young readers giggling as Baby bird figures out that he must flap his wings and learn to fly—whether he likes it or not!

When author Sally Fryer Dietz received news from teachers that her oldest son seemed to be having more challenges in school than his peers, she wasn't sure what to do. Her years of training as a physical therapist working with other people's kids suddenly seemed to reach a much more personal level. This inspiring "must-have" book offers personal experiences and eye-opening revelations as it highlights common red flags, innovative solutions, therapies that work, potential dangers of technology, and tips on finding the right help. Filled with insights from the author's years of physical and sensory integration therapy that you can take from the school to your home, When Kids Fly is written in a conversational tone that makes it perfect for parents, friends, teachers, and medical professionals, alike. Starting from the moment that Dietz had her own realization that something "wasn't quite right" with her son, and allowing us to follow them (and others) through to his adulthood, this is a one-of-a-kind book that ties the practical to both the professional and the personal. Discover how to help children who are often misunderstood by their reactions to the world by providing them with ways to overcome sensory integration and developmental glitches. When Kids Fly can help you figure out when to worry about your child's development, when not to worry, and what options are available-no matter where your child falls on the spectrum of sensory motor integration. It is a wonderful resource for those who really want to help children discover their wings as they grow towards maturity and learn to fly on their

own. Book jacket.
