...I was enthralled with Giacchetto. "You must meet him, he is inspired," I told a successful friend. "Oh, if you have any money you should invest it with him." Now this friend says to me, "Emily, I'm glad I didn't listen to you." I knew Dana before the time of the celebrities and I watched as the celebrities transformed his life. I met him in 1992 when he came to Seattle to begin work on what would be one of his most famous deals: the selling of Nirvana's first record label, Sub Pop. My husband was Sub Pop's general manager. He owned a 1 percent share of the company, and he made enough money from the deal to buy a house and give Dana \$100,000 to put into a "safe bond." Rich ended up losing \$80,000 of the investment, but that was later, after the nineties boom had imploded and Dana had become just another felon. Because of my entanglement with Dana, this is not an objective book about his life; and although he initially cooperated with it, it could hardly be called an authorized biography. He agreed to a rule of "no editorial control" -- that the story I wrote would be the one I remembered and uncovered. Yet as the story unfolded for me, he became furious that he couldn't control it. We parted ways before I finished the manuscript. Throughout the process of writing about him I have grappled with my memory of him in the nineties, when I thought he was some kind of rescuer.

A ground-breaking book on the transformative power of impact investing This is the first book to chart the catalytic path of this new industry, explaining how it is and can be a positive disruptive force. It shows how impact investing is a transformational vehicle for delivering "blended value" throughout the investment spectrum, giving a single name to a set of activities previously siloed in enclaves, revealing how they are linked within what is becoming a new field of investing. Written by two leaders in the growing field of impact investing, the book defines this emerging industry for participants on all sides of the funding equation (investors, funders and social entrepreneurs). Filled with illustrative examples of impact investing success stories Reveals how the field can expand in order to address the most critical social and environmental issues of our day Explores the wide-ranging applications of impact investing as well as entrepreneurial opportunities The authors do not take a normative approach to argue how investors should behave like an investment guide might but show how entrepreneurial people and institutions are already offering an integrated alternative.

Amazingly, former arch-swindler-turned-Postmaster General Moist von Lipwig has somehow managed to get the woefully inefficient Ankh-Morpork Post Office running like . . . well, not like a government office at all. Now the supreme despot Lord Vetinari is asking Moist if he'd like to make some real money. Vetinari wants Moist to resuscitate the venerable Royal Mint—so that perhaps it will no longer cost considerably more than a penny to make a penny. Moist doesn't want the job. However, a request from Ankh-Morpork's current ruling tyrant isn't a "request" per se, more like a "once-in-a-lifetime-offer-you-can-certainly-refuse-if-you-feel-you've-lived-quite-long-enough." So Moist will just have to learn to deal with elderly Royal Bank chairman Topsy (née Turvy) Lavish and her two loaded crossbows, a face-lapping Mint manager, and a chief clerk who's probably a vampire. But he'll soon be making lethal enemies as well as money, especially if he can't figure out where all the gold has gone.

Felix Dennis is an expert at proving people wrong. Starting as a college dropout with no family money, he created a publishing empire, founded Maxim magazine, made himself one of the richest people in the UK, and had a blast in the process. How to Get Rich is different from any other book on the subject because Dennis isn't selling snake oil, investment tips, or motivational claptrap. He merely wants to help people embrace entrepreneurship, and to share lessons he learned the hard way. He reveals, for example, why a regular paycheck is like crack cocaine; why great ideas are vastly overrated; and why "ownership isn't the important thing, it's the only thing."

After skipping college, Steve Oliverez worked a series of low-paying jobs before setting a remarkable goal for himself - to double his income every year. In *The Book On Making Money*, he reveals what he learned while successfully hitting this goal for seven years in a row, growing his annual income to more than \$1 million. Walking readers through the steps he took to reach his goal, he shows how they can apply the same techniques to greatly increase their own income, whether they work for someone else or run their own business. Oliverez spells out his disagreements with the traditional wisdom that tells young adults to go to school, get good grades and find a safe, steady job - advice that has left many Americans with tens or hundreds of thousands of dollars in student loans, credit card debt or mortgages on homes they can't afford. He also assaults the idea of saving one's way to wealth as absurd and counterproductive, using his own experience of trying to save money while poor as an example. Instead of promoting an austere lifestyle of clipping coupons and spending as little as possible, he shows how those habits can actually prevent people from becoming wealthy.

Flip-flops and a T-shirt are my uniform and I'm loving it! You Don't Have 60+ Hours a Week to Learn How to Make Money Online?I didn't start making money blogging overnight.
