My name is Vronika Jones Known to the nation as Majesty. First I want to thank those this book is meant for, this book won't be for everyone but for those who are ready to humble themselves and listen for a little while I pray. This book will help you to humble yourself as you raise and cater to your children in a Godly manner and you will be able to not only see things your way but also understand your children ways as they grow up to be who they are meant to become. This book addresses parents around the world to help them put down their anger and put on their humble and patient attitude. As a parent you must remember your children will not stay kids and as they hit their middle adult years, everything you have done to criticize them, abandon them, abuse them mentally, verbally or physically it will all come running back throughout their brains and souls nostalgically. When they age you have to remember just because you have forgotten, your children will never ever forget how you have abused them while they were growing up. So while they're growing up be careful in the way you use your tongue when speaking to your children if you want to maintain a bond with your children when they become adults. You're your children's keeper and protector, it's time for parents to maintain a bond so strong in their kids that no one can even get close to them to destroy what you have with your children. Let's not forget are kids are us, they came from us so remember when you are talking badly to someone about your children or to your children, what you're doing is talking about how you really feel about yourself on the inside. When you heal, you heal your whole bloodline and every generation going forward. Blessings.

Too many entrepreneurs, particularly mission-driven ones, try to avoid raising capital, assuming that they can't offer the kind of returns they think investors demand. Or they're worried that investors will end up taking control of the business. But an under-financed business is a nightmare for the entrepreneur and a major reason new businesses fail. Jenny Kassen shows how anyone can build capital without relying on traditional methods. Based on her 10+ years working with small businesses, Kassen says the landscape of investment capital is far larger and more diverse than many would have you believe. Venture capitalists looking for a 10x return on their investment are a tiny minority, and many investors are just as mission-driven as entrepreneurs. Kassen takes readers through a six-step process to create a customized capital-raising plan, one that inspires them, excites them, and is in complete agreement with their business, their values, and their lives. This book will help as many people as possible turn their big, bold world-changing visions into reality.

Raise Your Own Damn Kids is a humorous collection of ideas and activities for parents and their children. This compilation of comedic concepts not only serves as an irreverent guide to parenting, but also as proof parents did cool stuff with their kids (told you so, kiddo!), and is exactly what families desperately looking for things to do together need. Raise Your Own Damn Kids is a quick reference, easy guide to engage children by providing parents fun and worthwhile activities to execute. From "Tie Your Dang Shoes" and "PB&J Union" to "Thumb Wrestle Mania" and "Roof Ball", these hacks and prompts are used to entertain the reader as much as those participating in the fun. This tongue-in-cheek manual includes advice in the form of pro-tips, from the comedic voice of Chad (the Dad) as well as bonus Q&A material and plenty of space to write notes, color and play games. Chad (the Dad) is a husband, father and comic who recognizes it takes a village to raise a child yet realizes parents can't dump their kids in the village square where the village idiot becomes a bad influence. He maintains that you should raise your own damn kids to make the world a better place-have fun, but don't mess it up for the rest of us. He is not a parenting expert, holds no relevant degrees and claims not to provide helpful advice.
