How To Represent Yourself In The Family Court A Guide To Understanding And Resolving Family Disputes

This Handbook is designed to help people dealing with civil lawsuits in federal court without legal representation. Proceeding without a lawyer is called proceeding "pro se¹," a Latin phrase meaning "for oneself," or sometimes "in propria persona," meaning "in his or her own person." Representing yourself in a lawsuit can be complicated, time consuming, and costly. Failing to follow court procedures can mean losing your case. For these reasons, you are urged to work with a lawyer if possible. Chapter 2 gives suggestions on finding a lawyer. Do not rely entirely on this Handbook. This Handbook provides a summary of civil lawsuit procedures, but it may not cover all procedures that may apply in your case. It also does not teach you about the laws that will control your case. Make sure you read the applicable federal and local court rules and do your own research at a law library or online to understand your case. The United States District Court for the Northern District of California has Clerk's Offices in the San Francisco, San Jose and Oakland courthouses. Clerk's Office staff can answer

general questions, but they cannot give you any legal advice. For example, they cannot help you decide what to do in your lawsuit, tell you what the law means, or even advise you when documents are due. There are Legal Help Centers in the San Francisco, Oakland and San Jose courthouses where you can get free help with your lawsuit from an attorney who can help you prepare documents and give limited legal advice. This attorney will not be your lawyer and you will still be representing yourself. See Chapter 2 for more details.

From renowned trial attorney and New York Times bestselling author Gerry Spence: a must own book for every lawyer and business professional seeking to make cutting-edge winning presentations--in court, at work, everywhere, any time. Gerry Spence is perhaps America's most renowned and successful trial lawyer, a man known for his deep convictions and his powerful courtroom presentations when he argues on behalf of ordinary people. Frequently pitted against teams of lawyers thrown against him by major corporate or government interests, he has never lost a criminal case and has not lost a civil jury trial since 1969. In *Win Your Case*, Spence shares a lifetime of experience teaching you how to win in any arena--the courtroom, the boardroom, the sales call, the salary review, the town council meeting--every venue where a case is to be made against adversaries who oppose the justice you seek. Relying on the successful courtroom methods he has developed over more than half a century, Spence shows both lawyers and laypersons how you can win your cases as he takes you step by step through the elements

of a trial—from jury selection, the opening statement, the presentation of witnesses, their cross-examinations, and finally to the closing argument itself. Spence teaches you how to prepare yourselves for these wars. Then he leads you through the new, cutting-edge methods he uses in discovering the story in which you form the evidence into a compelling narrative, discover the point of view of the decision maker, anticipate and answer the counterarguments, and finally conclude the case with a winning final argument. To make a winning presentation, you are taught to prepare the power-person (the jury, the judge, the boss, the customer, the board) to hear your case. You are shown that your emotions, and theirs, are the source of your winning. You learn the power of your own fear, of honesty and caring and, yes, of love. You are instructed on how to role-play through the use of the psychodramatic technique, to both discover and tell the story of the case, and, at last, to pull it all together into the winning final argument. Whether you are presenting your case to a judge, a jury, a boss, a committee, or a customer, Win Your Case is an indispensable guide to success in every walk of life, in and out of the courtroom.

Memoirs in which trauma takes a major—or the major—role challenge the limits of autobiography. Leigh Gilmore presents a series of "limit-cases"—texts that combine elements of autobiography, fiction, biography, history, and theory while representing trauma and the self—and demonstrates how and why their authors swerve from the formal constraints of autobiography when the representation of trauma coincides with self-representation. Gilmore maintains that conflicting demands on both the self and narrative may prompt formal experimentation by such writers and lead to texts that are not, strictly speaking, autobiography, but are nonetheless deeply engaged with its central concerns. In astute and compelling readings of texts by Michel Foucault, Louis Althusser, Dorothy Allison, Mikal Gilmore, Jamaica Kincaid, and Jeanette Winterson, Gilmore explores how each of them poses the questions, "How have I lived? How will I live?" in relation to the social and psychic forms within which trauma emerges. Challenging the very boundaries of autobiography as well as trauma, these stories are not told in conventional ways: the writers testify to how self-representation and the representation of trauma grow beyond simple causes and effects, exceed their duration in time, and connect to other forms of historical, familial, and personal pain. In their

movement from an overtly testimonial form to one that draws on legal as well as literary knowledge, such texts produce an alternative means of confronting kinship, violence, and self-representation.

A simple, practical how-to guide to representing yourself in a non-criminal court or tribunal. It applies Australia-wide and covers all areas of non-criminal law, including debt, consumer claims, landlord and tenant issues, family law and appeals of government decisions. Although written for non-lawyers, it is also a useful resource for law students and new lawyers.

This book is intended to walk you through most of the

procedures used in courts hearing family law cases for almost any cause of action (such as custody or divorce) in any state in the United States. It shows you how to find the specific information for your state and cause of action and explains common issues. Because the book is intended for all states and each individual state has different laws, there may be differences depending on where you are. I have tried to point out common differences between states and how to ensure you know what is required in your state. This book covers such information as the structure of the court system; how to locate statutes, rules, and case law; the discovery process; various documents used in court; how to prepare for mediation and trial; common evidence issues; and much more. Also, this is a beginner's guide. There are some very in-depth issues that most cases will likely at least touch on at some point. These in-depth issues are sometimes called "weeds." This book does not go into the weeds, which tend to be issue specific, though I do provide coaching services that can walk you through those. This book also only covers procedures at the trial court level and only through the trial. Post trial and appeal issues are very in-depth and could be the subject of their own book.
