Internationally bestselling financial advisor David Bach's Automatic Millionaire promotes a revolutionary system for making even the most undisciplined money managers rich. The Automatic Millionaire shows readers how to change their financial practices and even their lives, the simple and automatic way. The book begins with a powerful story about an average Canadian couple — he's a low-level manager, she's a beautician — whose joint income never exceeds \$55,000 a year, yet who somehow manage to own two homes debt-free, put two kids through college, and retire at fifty-five with more than \$1 million in savings. The incredible message Bach delivers is that the key to getting rich is "automating" the way to wealth by "paying yourself first," using automatic funded retirement accounts and money market accounts to secure the future and pay for the present. A concise guide that's a fixture on bestseller lists, The Automatic Millionaire introduces readers to a system that is powerful and simple — an automatically effective, life-changing system that delivers. Do it once, the rest is automatic.

In *Love Your Life, Not Theirs*, Rachel Cruze shines a spotlight on the most damaging money habit we have: comparing ourselves to others. Then she unpacks seven essential money habits for living the life we really want—a life in line with our values, where we can afford the things we want to buy without being buried under debt, stress, and worry. The Joneses are broke. Life looks good, but hidden beneath that glossy exterior are credit card bills, student loans, car payments, and an out-of-control mortgage. Their money situation is a mess, and they're trying to live a life they simply can't afford. So why exactly do we try so hard to keep up with the Joneses? Are we really living the lives we want, or are we chasing someone else's dream, just trying to keep up appearances on social media, at church, and in our community? Why are we letting other people set the pace for our own family's finances? In *Love Your Life, Not Theirs*, Rachel shows you how to buy and do the things that are important to you—the right way. That starts by choosing to quit the comparisons, reframing the way you think about money, and developing new habits like avoiding debt, living on a plan, watching your spending, saving for the future, having healthy conversations about money, and giving. These habits work, and Rachel is living proof. Now, she wants to empower you to live the life you've always dreamed of without creating the debt, stress, and worry that are all too often part of the deal. Social media isn't real life, and trying to keep up with the Joneses will never get you anywhere. It's time to live—and love—your life, not theirs. "I've never read a book about money that takes this approach—and that's a good thing! Comparison has a way of weaving itself throughout all aspects of our lives, including our money. In *Love Your Life, Not Theirs*, Rachel Cruze outlines the seven money habits that really matter—and they have nothing to do with keeping up with the Joneses!" Practically Independent: Practical Advice to Become Financially Independent Practically Independent: Practical Advice to Become Financially Independent is a no-nonsense guide to help you take control of your finances, full of practical advice that you can use to immediately improve your personal finances. The book outlines the strategy I have used to escape living paycheck-to-paycheck, lower the cost of my debt, get paid for having money, and protect what I have built. Inside the book are tools, tips, and guides to help you manage cash, manage credit, manage investments, and manage risk. If you are looking for a get-rich-quick scheme, this book is not for you. On the other hand, if you are looking for financial independence made simple, with a practical approach to take control of your finances with real-world advice that you can start implementing today, then this is the book for you. The entire strategy to take control of your finances is in the book Practically Independent: Practical Advice to Become Financially Independent, available in both Paperback and eBook editions. Practical advice to become financially independent broken down into four steps. 1. Managing Cash: Being trapped living paycheck-to-paycheck is absolutely awful. Find out how to break the cycle by treating personal finances like a small business. Nobody likes budgets, and any personal financial advice that starts with "create an in-depth budget" is the worst. This approach does not require building a budget for groceries, lattes, or anything else! Instead, separate income from expenses, learn budgeting basics, create an un-detailed budget and watch your savings grow. 2. Managing Credit: The interest rate you pay when you borrow money depends significantly on your credit report and your credit score. This book outlines a specific strategy to build a credit report with a step-by-step checklist to build your FICO score and lower the cost of borrowing money. 3. Managing Investments: Investing is not gambling. If your strategy leaves you hoping that markets go up and scared that they will go down, then you are gambling. Instead, learn how to build a strategy that works when the market goes up and when it goes down. You can invest in mutual funds and ETFs to build a portfolio that systematically and regularly pays you for having money. A strategy that will actually pay you more as you get older and further into retirement. It is investing, demystified. 4. Managing Risk: When you have built up your savings, your credit, and your investments, then you have a lot to lose if something unexpected happens. To protect what you have built, it is important to have three kinds of insurance: Health, Property, and Life. But, what kind, how much, and for how long? This book has an approach to help you decide how much insurance is enough. About the author - Jay Rigler is a financial literacy advocate with a BA and an MA in economics. His career has included personal financial advising, risk management at a major credit card, and analytics for a top tier advertising agency. Here is an excerpt from the About Me section of the book: "In 2010, after two years at the advertising agency, I was thoughtfully living the financial life you are going to learn about if you read through the rest of this book... I was running my personal finances like a small business. "In the middle of 2014, I was able to shift my career again. I set up an online business, replaced my main income with my side hustle, and was able to leave the rat race behind... I want to share my practical tips to become financially independent. I am going to focus on tips that will work whether you earn a salary, an hourly wage, commissions, or are self-employed."

Through my research, my own personal financial struggles, and the knowledge there are a lot of people out there in the same boat looking for a guide to their finance and future, I developed The Pearl Method: Stop Living Paycheck to Paycheck and Save \$5,000 or More in One Year. Oysters and clams make pearls as a defensive response to a foreign object like sand, a parasite, or some other organic material that makes its way inside the oyster's shell. As a result, one of the most beautiful and valuable of gemstones is formed. I went through hard times when I had my children, particularly my daughter, Pearl. Because I learned, grew, and developed a method of managing my finances and my future, I am now able to cherish and enjoy my life with the most valuable gift of all-Pearl, and my other two priceless gems, Eberae and Prem. This is the beginning of you creating your financial pearl. Allow me to lead you on a journey through a step-by-step process to release you from the dark state of financial despair, no matter what your age, gender, race, or circumstances. It's time to close the book on your current situation, open this one, harness the irritants in your financial life, and create your brilliant gem of a future.

The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." —Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: \* Create profitable side hustles that you can turn into passive income streams or full-time businesses \* Save money without giving up what makes you happy \* Negotiate more out of your employer than you thought possible \* Travel the world for less \* Live for free--or better yet, make money on your living situation \* Create a simple, money-making portfolio that only needs minor adjustments \* Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.
