From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. *The Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

**DON'T WAIT TO READ THIS BOOK:** The world's leading expert on procrastination uses his groundbreaking research to offer understanding on a matter that bedevils us all. Writing with humour, humanity and solid scientific information reminiscent of *Stumbling on Happiness* and *Freakonomics*, Piers Steel explains why we knowingly and willingly put off a course of action despite recognizing we'll be worse off for it. For those who surf the Web instead of finishing overdue assignments, who always say diets start tomorrow, who stay up late watching TV to put off going to sleep, *The Procrastination Equation* explains why we do what we do — or in this case don't — and why in Western societies we're in the midst of an escalating procrastination epidemic. Dr. Piers Steel takes on the myths and misunderstandings behind procrastination and motivation — showing us how procrastination affects our lives, health, careers and happiness and what we can do about it. With accessible prose and the benefits of new scientific research, he provides insight into why we procrastinate even though the result is that we are less happy, healthy, even wealthy. Who procrastinates and why? How many ways, big and small, do we procrastinate? How can we stop doing it? The reasons are part cultural, part psychological, part biological. And, with a million new ways to distract ourselves in the digitized world — all of which feed on our built-in impulsiveness — more of us are potentially damaging ourselves by putting things off. But Steel not only analyzes the factors that weigh us down but the things that motivate us — including understanding the value of procrastination.

From Astronaut Abby, the dynamic founder of The Mars Generation, comes a book about dreaming big, reaching for the stars, and making a plan for success! From the age of four, Abigail Harrison knew she wanted to go to space. At age eleven, she sat down and wrote out a plan--not just for how to become an astronaut, but how to be the first astronaut to set foot on Mars. With a degree in biology, internships at NASA, and a national organization founded to help kids reach for the stars themselves, Astronaut Abby is well on her way to achieving her dreams--and she wants to help others do the same! In this book, readers will find helpful advice and practical tips that can help set them on the path toward finding, reaching for, and achieving their goals. With examples from Abby's own life, interactive activities to get readers going, and plenty of fun illustrations along the way, this is the perfect guide for anyone--of any age--with big dreams and plenty of determination. It's time to reach for the stars! Praise for *Dream Big!*: "With friendly encouragement . . . the content and approach are general enough to appeal both to STEM-oriented fans of the author as well as those whose interests lie in other areas . . . Fun and helpful." --Kirkus Reviews "Any young person who wants to achieve their dreams will find this comprehensive book helpful." --Booklist "The conversational style is easy to understand. . . . There are eye-catching fonts, icons, think bubbles, and callouts. . . . A recommended purchase for middle school and high school libraries. Counselors assisting high schoolers with college preparation and educators teaching leadership classes will find many of the journaling activities very useful." --School Library Journal

Procrastinating, putting things off, delaying and obstructing progress - do these sound familiar to you? They are all patterns of destructive or obstructive behaviour in a pressured world where progress is measured by results. Overcoming Procrastination, updated and modernized for 2021, demonstrates that change can only occur when we have a better understanding of our own emotions and motivations. It uses proven therapeutic techniques that centre around finding strategies for developing potential, and unlocking the door to a more effective and enriched life. Parents, grandparents, teachers, supervisors, even baby-sitters, can be driven to distraction by a child's repeated procrastination. However, their distress is nothing compared to the toll procrastination takes on the child-eroding self-confidence, undermining self-esteem and relationships, increasing anxiety, and paving the way for similar behavior as an adult that can be even more costly. Helping a child stop procrastinating is one of the best gifts an adult can share, and Rita Emmett's informative and engaging new book is the place to start. Based on her own procrastination and parenting seminars and on interviews with hundreds of people about what works and what doesn't, Emmett offers proven techniques to defuse the frictions caused by youthful procrastination. Her central point is that, far from being a character flaw, procrastination-in children as in adults-is usually a habit that can be changed. Whether avoiding chores or homework or neglecting goals-or in dozens of other situations-children of all ages procrastinate for many reasons: - feeling overwhelmed or confused and not knowing where to begin - lack of motivation - a subversive desire to assert control by not doing what's asked - a dislike of the task - subconscious fears or anxieties about failure - poor time management skills In each case, Emmett provides strategies for breaking through a child's defense mechanisms or reluctance to talk, and for establishing rules and guidelines that encourage young children and teenagers alike to face obligations in a timely way. Lighthearted and rewarding, The Procrastinating Child is an invaluable resource. A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book A Mind for Numbers A Mind for Numbers and its wildly popular online companion course "Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first--the secret is to understand how the brain works so we can unlock its power. This book explains: • Why sometimes letting your mind wander is an important part of the learning process • How to avoid "rut think" in order to think outside the box • Why having a poor memory can be a good thing • The value of metaphors in developing understanding • A simple, yet powerful, way to stop procrastinating Filled with illustrations, application questions, and exercises, this book makes learning easy and fun. Mel Robbins broke self-publishing records and changed the lives of millions of people with her bestselling global phenomenon, The 5 Second Rule. And now, she's back with The High 5 Habit and on a mission to help you change your life. Don't let the title fool you. This isn't a book about high fiving everyone else in your life. You're already doing that. Instead, Mel teaches you how to start high fiving the most important person in your life, the one who is staring back at you in the mirror: YOURSELF. If you struggle with self-doubt (and who doesn't?) ...If you're tired of that nagging critic in your head (could somebody evict them already?) ...If you're wildly successful but all you focus on is what's going wrong (you're not alone) ...If you're sick of watching everybody else get ahead while you sit on the couch with your dog (don't bring your dog into this) ... ..Mel dedicates this book to you. Using her signature science-backed wisdom, Mel will teach you how to make believing in yourself a habit so that you operate with the confidence that your goals and dreams demand. The High 5 Habit is a simple yet profound tool that changes your attitude, your mindset and your behaviour. So be prepared to laugh and learn as you take steps to immediately boost your confidence, happiness and results.

Picking up where Quiet ended, How to Be Yourself is the best book you'll ever read about how to conquer social anxiety. "This book is also a groundbreaking road map to finally being your true, authentic self." —Susan Cain, New York Times, USA Today and nationally bestselling author of Quiet Up to 40% of people consider themselves shy. You might say you're introverted or awkward, or that you're fine around friends but just can't speak up in a meeting or at a party. Maybe you're usually confident but have recently moved or started a new job, only to feel isolated and unsure. If you get nervous in social situations—meeting your partner's friends, public speaking, standing awkwardly in the elevator with your boss—you've probably been told, "Just be yourself!" But that's easier said than done—especially if you're prone to social anxiety. Weaving together cutting-edge science, concrete tips, and the compelling stories of real people who have risen above their social anxiety, Dr. Ellen Hendriksen proposes a groundbreaking idea: you already have everything you need to succeed in any unfamiliar social situation. As someone who lives with social anxiety, Dr. Hendriksen has devoted her career to helping her clients overcome the same obstacles she has. With familiarity, humor, and authority, Dr. Hendriksen takes the reader through the roots of social anxiety and why it endures, how we can rewire our brains through our behavior, and—at long last—exactly how to quiet your Inner Critic, the pesky voice that whispers, "Everyone will judge you." Using her techniques to develop confidence, think through the buzz of anxiety, and feel comfortable in any situation, you can finally be your true, authentic self.

When we fail to achieve our goals, procrastination is often the culprit. But how exactly is procrastination to be understood? It has been described as imprudent, irrational, inconsistent, and even immoral, but there has been no sustained philosophical debate concerning the topic. This edited volume starts in on the task of integrating the problem of procrastination into philosophical inquiry. The focus is on exploring procrastination in relation to agency, rationality, and ethics-topics that philosophy is well-suited to address. Theoretically and empirically informed analyses are developed and applied with the aim of shedding light on a vexing practical problem that generates a great deal of frustration, regret, and harm. Some of the key questions that are addressed include the following: How can we analyze procrastination in a way that does justice to both its voluntary and its self-defeating dimensions? What kind of practical failing is procrastination? Is it a form of weakness of will? Is it the product of fragmented agency? Is it a vice? Given the nature of procrastination, what are the most promising coping strategies?

If you have ever found yourself wondering why you haven't reached the success that you want for yourself, or why your life isn't how you have imagined it, the problem just might lie in procrastination and putting things off. Do you have a heap of paperwork lying on your desk, and you haven't been able to finish it yet? Are you finding it difficult to figure out where to start and therefore you are constantly putting off things for later? Everyone has goals in their life but overcoming the hurdles that come along the way requires courage and determination and procrastination is just one such hurdle. Contrary to popular belief, there are ways in which you can overcome procrastination and start getting things done today! "How to Stop Procrastinating" will provide you with a catalog of ideas in a 7-step process that you can implement in your life and start reinstating the lost sense of self-discipline. The major reason behind procrastination is the feeling of becoming overwhelmed by all that is present in front of you, and this results from a lack of self-belief. The solution to your problem is not that difficult. You need to develop a mindset and make some changes in your lifestyle that will help you fight procrastination and complete those tasks which have been lying idle for months. YOU WILL LEARN: • To identify the real reasons behind your procrastination habits. • To organize your life so that you complete all your tasks on time. • How to say no to things that are not going to add any value. • To complete challenging projects with some simple strategies. • Effective time management techniques to incorporate some leisure time in your daily schedule. Many people have tried overcoming laziness, and in the end, they give up. This is because they were following the wrong strategies. You have to learn to remove your limiting beliefs and start telling yourself that you can achieve anything if you truly want it. To beat procrastination and become productive, these 7 easy steps will bring a sense of routine back in your life!

Are you punctual, productive, and conscientious? Now there's help. Because work expands to fit the time available, it's never been easier to do the minimum amount of work in the maximum

amount of time. Whether you're naturally organized, cursed with achievement, or simply obsessive-compulsive, we'll show you how to stop performing and start procrastinating today. Or tomorrow.

Do you want to reprogram your brain to be more productive and stop procrastinating? You have come to the right place! If you find it hard to stick to your timelines and always find yourself having to work under pressure because of deadlines due to procrastination, you are not alone! It's just a commonly unavoidable activity, which people just allow to take over their lives. Did you know that about twenty percent of the population admits that they procrastinate often? This lack of immediacy has also influenced the fast-paced environment you're now in. Some people procrastinate because they know technology can aid them in finishing certain things quickly. Instead of doing research for several hours in the library, they can just surf the Internet for half an hour. Procrastination won't and can't just be beaten in one day because it's a habit. You have to remember that the longer you don't procrastinate, the greater the probability is for you to break this unhealthy and unhelpful habit permanently. Procrastination can be defeated with the right mindset and with the will to finish something. If you want to learn how to think critically, you have to realize that we are responsible for our attitudes because the power to decide our perspective, our thoughts, and our mood is in our hands. Having an open mind to other interpretations can help us to identify the exact problem and analyzing it to come up with several possible solutions. Brainstorming is the key to achieve that, because helps you to avoid forming quick conclusions and when you come up with several possible solutions, makes it easier for you to find the ultimate one. Just by doing that you're one step forward in developing knowledge in critical thinking or problem-solving, but, as always, it takes time, practice, and perseverance. An individual is able to achieve anything they set their mind to in life if they are focused and determined. The majority of the times people tend to become distracted with negative thoughts that come from within. These negative thoughts are a manifestation of a lack of self-confidence they have in their credibility or their ideas. This is why it is imperative to first believe in yourself, as doing so can cause great feats to be manifested. It is important to note that this determination is not something that comes easily. If you want to achieve notable success in your life, then it is important to train your brain to focus more on your future objective and goal. As the general theme of this section states, without focus, there is no way one can achieve their goals or aspirations successfully. When one is motivated, they are able to remain focused on the path, regardless of any distractions or obstacles that they encounter. In this book we will discuss the following topics: What is Procrastination?
