**Ramadan in Java** André Möller,2005 The dissertation aims at reducing this gap in the literature on Islamic cultures, and provides its readers with ways of approaching and understanding Ramadan - and various different Islamic phenomena - in Indonesia and in other parts of the Muslim world. It is argued that we preferably may approach Islam from three different angles, that is, to discuss it from the normative, the written, and the lived perspectives respectively. In this study, thorough attention is thus directed not only to the classical and normative Islamic texts and the lived reality in Java, but also to the popular and contemporary Indonesian literature on Ramadan.

**ALLAH, LIBERTY AND LOVE** Irshad Manji,2012-12-11 Irshad Manji's message of moral courage, with stories about contemporary reformers such as Martin Luther King, Jr., Gandhi, and Islam's own Gandhi, inspire and show the way to practicing faith without fear. Irshad addresses all people, Muslim and non-Muslim alike, in this universal message about the importance of independent thought and internal strength, of love, liberty, free speech, and the pursuit of happiness. Allah, Liberty, and Love is about creating choices beyond conforming or leaving the faith, which is what Manji hears from young Muslims who write to her in frustration, whose emails, letters, and conversations are included in this book. Manji writes, I'll show struggling Muslims how to embrace a third option: reforming ourselves. And she recounts many affecting stories from young people who have contacted her for advice on how to step out of limiting views of Islam and the restrictions they put on life, love, family, and careers.

The Land of Five Towers (English Edition) A. Fuadi,2013-12-17 Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful

phrase man jadda wajada. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to build Komunitas Menara, a volunteer-based social organization which aims to provide free schools, libraries, clinics and soup kitchens for the less fortunate. **The Deception of Allah Volume 1** Christian Prince, 2011-07-12 The Deception of Allah is about The faith of Islam The name of this book is taken from Qur'an 3:54, which says, plus they deceived and Allah deceived and Allah is the best of deceivers. The book is made to be a powerful tool in your hand to prevent any kind of deception can come to you or your family. Muslims are trying to spread Islam all over USA and the rest of the world by deception, using the ignorance of the Western regarding Islam, and Arabic language, imagine your son or daughter coming back from school and telling you I became a Muslim, I'm sure you don't want this to happen to your house and your family, and the best way to prevent it is education, this book is nothing more than masterpiece of education, every page in this book come with the actual text and sources with real translation, with no Political Correctness and the Totalitarian Mentality, The Deception of Allah Volume I addresses the things you need to know about Islam, basing its information on citations and quotes from accepted Islamic sources. **Men in Groups** Lionel Tiger, 2017-07-12 When *Men in Groups* was first published in 1969, the New York Times daily critic titled his review *The Disturbing Rediscovery of the Obvious*. What was so obvious was male bonding, a phrase that entered the language. The links between males in groups Tiger describes extend through many other primate species, through our evolution as hunters/gatherers, and cross-culturally. Male bonding characterizes human groups as varied as the Vatican Council, the New York Yankees, the Elks and Masons the secret societies of Sierra Leone and Kenya. The power of Tiger's book is its identification of the powerful links between men and the impact of females and families on essentially male groups. While the world has changed much, the argument of the book and its new introduction by the author suggest that a species-specific pattern of female bonding continues to be part of the human default system. Perhaps one day concrete evidence of its location will emerge from the startling work on the human genome, just as the elaborate and consequential sex differences to which *Men in Groups* drew such pioneering attention have already become part of the common wisdom. Meanwhile, *Men in Groups* remains a measured and responsible but intrepid inspection of a major aspect of human social organization and personal behavior. The book was controversial when it first appeared, and often foolishly and unduly scorned. But it has remained a fundamental contribution to the emerging synthesis between the social and natural sciences.

Freedom of Expression in Islam Mohammad Hashim Kamali, 1997 *Freedom of Expression in Islam* is informative not only on the subject of the possibilities of freedom of expression within Islam, but also on the cultural tradition of Islam and its guidelines on social behaviour. Distinguished by its clarity and readability, this book is not only essential reading for anyone interested in Islamic law, in Muslim society or in issues of comparative jurisprudence, but is also an important contribution to the current debate concerning the definition and limits of the principle of free speech. Suitable for undergraduate and post-graduate courses in Islamic Studies, Comparative Jurisprudence and Political Theory.

*The Experience Economy* B. Joseph Pine, James H. Gilmore, 1999 This text seeks to raise the curtain on competitive pricing strategies and asserts that businesses often miss their best opportunity for providing consumers with what they want - an experience. It presents a strategy for companies to script and stage the experiences provided by their products.

Theories of Islamic Law Imran Ahsan Khan Nyazee, 2016-12-24 The main main purpose of the book was to counter the rather simplistic view of the discipline of *usul al-fiqh* that it represents a single uniform theory, called the classical theory. The view presented in this book was that there is no uniform single legal theory in Islam. The view of a uniform theory was held not only by the Orientalists, but many Muslim scholars as well. The view did not do justice to Islamic jurisprudence for it overlooked the rich diversity found in the Islamic legal system. Instead of one, the book shows, there are at least three legal theories, each of which has been explained by the author in some detail and with remarkable lucidity. Each of these theories

has played a useful role in the past and each can play even today a vital role in the development of Islamic law. Another purpose was to explain the paradox of the so-called rigidity of Islamic law at the theoretical level accompanied with a perceptible degree of laxity in practice. The author forcefully argued that the Islamic Legal system comprises two cooperating spheres. The first sphere is relatively fixed since it is focused on given texts. This sphere falls within the domain of the jurists. The other sphere, which draws upon the general principles of Islamic law, regulates the law made by the state. These are separate but complementary spheres. Neither is the relative fixity of the first sphere a manifestation of the Muslim jurists' mental rigidity. Nor is the flexibility of the second sphere the manifestation of any cynical disregard of the revealed texts on the part of the rulers. The book has been influential in many other ways, and has given rise to research in several new directions. First published in 1994, it is still used by teachers, researchers, university students and general readers.

*Fiqh Us-Sunnah* As-Sayyid Sabiq,2012-01-01 Every Fiqh ruling on Supererogatory Prayer in the book goes back to the Qur'an and Sunnah and Sabiq dealt with all four madhahib objectively, with no preferential treatment to any. The author presents and discusses a variety of viewpoints on the various matters of practice.
