

Hybrid Annuity Model Ham For Ppp Projects Circ Nppo

Expectations are high regarding the potential benefits of public-private partnerships (PPPs) for infrastructure development in low-income countries. The development community, led by the G20, the United Nations, and others, expects these partnerships between governments and private companies in infrastructure service provision to aid "transformational" mega-projects, as well as efforts to achieve the Sustainable Development Goals. Yet PPPs have been widely used only since the 1990s, and discussion of their efficacy is still dominated by best-practice guidance, academic studies that focus on developed countries, or ideological criticism.

Meanwhile, practitioners have quietly accumulated a large body of empirical evidence on the actual performance of PPPs. The purpose of this book is to summarize and consolidate what this critical mass of evidence-based research indicates about PPPs in low-income countries, and thereby develop a more realistic perspective on the practical value of these mechanisms. With a primary focus on Sub-Saharan Africa, though drawing on critical insights from other regions, it demonstrates that the benefits of such partnerships will only be realised if expectations remain modest and projects are subject to transparent evaluation and competition.

RBI is an acronym of Reserve Bank of India, the central bank of our country, RBI is responsible for issuing currency notes, credit control and framing of monetary policies. The Reserve Bank of India is the main institution that regulates and controls the whole banking system of India. RBI conducts various examinations to recruit officers for its various branches. RBI Grade B exam is a National Level Competitive test. This exam is one of the important examinations amongst all banking examinations conducted every year. RBI Grade B exam which comprises three different grades. These three different grades are DR (Direct Recruit), DEPR (Department of Economic Policy and Research) and DSIM (Department of Statistics and Information Management).

These guidelines describe how a project-level design and monitoring framework should be developed and used throughout the project cycle for Asian Development Bank (ADB) sovereign operations and technical assistance projects. The design and monitoring framework is a key tool for project design, implementation, and evaluation, and provides the basis for ADB's project performance management system. The guidelines are intended to help staff of ADB, government officers, consultants, project sponsors and borrowers, and other stakeholders prepare high-quality design and monitoring frameworks. They serve as an effective tool to ensure that ADB-financed projects contribute to achieving a prosperous, inclusive, resilient, and sustainable Asia and Pacific region as envisaged in ADB's Strategy 2030.

This is a comprehensive book on infrastructure development and construction management. It is written keeping in mind the curricula of construction management programmes in India and abroad. It covers infrastructure development, the construction industry in India, financial analysis of the real estate industry in India, economic analysis of projects, tendering and bidding, contracts and contract management, FIDIC conditions of contract, construction disputes and claims, arbitration, conciliation and dispute resolution, international construction project exports and identifying, analysing and managing construction project risk. Thus, this book covers most of the construction management activities that are carried out at different stages of a construction project. This is an essential book for students of construction management, construction professionals, academicians and researchers.

In recent years, many companies have realised customer experience (CX) is the new marketing battle ground. Substantial investments have been made to map customer journeys, identify pain points and improve CX to try and create cut-through. Using real world applications to introduce next generation design tools based on proven concepts from strategy, marketing,

psychology and creative problem solving, *Lean CX: How to Differentiate at Low Cost and Least Risk* discusses how to use Lean Management approaches to innovate your customer experience. This practical book describes how the tools from Lean Management can be applied to the CX innovation problem. The authors draw on hundreds of CX design and strategic innovation projects across a range of industries, both B2B and B2C, from primary research through client work and secondary case studies available in the public domain. The examples include many different vertical industry sectors, including those involving hybrid business models. The cases included share what worked really well and where CX failed. The content goes beyond what actually happened to present an idea of what might be possible with the right design approach and committed resources.

The book provides readers with a clear understanding of infrastructure challenges, how Public-Private Partnerships (PPP) can help, and their use in practice. Infrastructure bottlenecks are generally considered the most important constraint to growth in many countries worldwide. Historically, infrastructure projects have been financed and implemented by the state. However, owing to the fiscal resource crunch, time and cost overruns, and the general poor quality of publicly provided infrastructure, many emerging market governments, including India, have increasingly adopted PPPs with billions of dollars of investment riding on them. The results have been varied – from spectacular airports like the Delhi International Airport Limited with the associated controversy over land use, to the renegotiation of contracts as in the case of Tata Mundra Ultra Mega Power Project. Illustrating concepts with relevant case studies, the book makes the challenges of PPPs understandable to industry and management practitioners as well as students of management, public policy and economics. It is useful to practitioners wishing to avoid the pitfalls in the tricky terrain of PPPs and policymakers wanting guidance in crafting proper incentives. It also helps students gain a holistic and “applied” understanding of this increasingly important and popular model. “Public Private Partnerships (PPPs) in India are currently under stress. A comprehensive treatment of the subject by a long-time and erudite practitioner and a management academic, this book should be useful to students trying to learn the basics, while also being valuable to professionals and policy makers. The book suggests that the Government should hold bidders accountable to their submitted bids, thereby preserving sanctity of contract. This will discourage aggressive bidding which has become a serious and endemic problem. The book also suggests the use of better bidding criteria to mitigate traffic risk in transport projects. Policy makers should pay heed to these suggestions as they consider improvements in the PPP policy regime going forward.”—Arvind Subramanian, Chief Economic Adviser, India/div “For a fast-growing India, infrastructure creation and operation is a great challenge and opportunity. This excellent book combines theory and practice on PPPs, and is very useful for professionals and students alike. With case studies and current developments, the authors bring out issues in India with global experiences as well. A must-read for infrastructure practitioners.”—Shailesh Pathak, Chief Executive (Designate), L&T Infrastructure Development Projects Limited “India’s program of private participation in infrastructure attracted worldwide attention as it became one of the largest programs in emerging markets. As well as the volumes of finance mobilized, it garnered interest because of some of the innovative approaches developed, such as Viability Gap Funding. The Indian PPP story is well captured in this book, which also makes the point that India is seeing project cancellations and failures rise. The authors analyze the factors behind this and point the way to a more robust PPP market that learns from the experiences of the past.”—Clive Harris, Practice Manager, Public-Private Partnerships, World Bank/div is a monthly journal devoted to the socio-economic issues. It started its publication in 1957 with Mr. Khuswant Singh as the Chief Editor. The magazine is now published in 13 languages viz. English, Hindi, Urdu, Punjabi, Marathi, Gujarati, Bengali, Assamese, Telugu, Tamil, Kannada, Malayalam and Odia.

Project economic analysis is a tool used by the Asian Development Bank (ADB) to ensure that ADB operations comply with its Charter. The guidelines in this publication are a revised version of the 1997 edition. The revision responds to the changing development context and ADB operational priorities, and aims to address the recommendations of the ADB Quality-at-Entry Assessments for more methodological work on project economic analysis. The revised guidelines provide general principles for the conduct of project economic analysis, and should be read together with handbooks, technical reports, and other reference materials published by ADB dealing with sector-specific project economic analysis in detail.

This book provides a comprehensive introduction to actuarial mathematics, covering both deterministic and stochastic models of life contingencies, as well as more advanced topics such as risk theory, credibility theory and multi-state models. This new edition includes additional material on credibility theory, continuous time multi-state models, more complex types of contingent insurances, flexible contracts such as universal life, the risk measures VaR and TVaR. Key Features: Covers much of the syllabus material on the modeling examinations of the Society of Actuaries, Canadian Institute of Actuaries and the Casualty Actuarial Society. (SOA-CIA exams MLC and C, CSA exams 3L and 4.) Extensively revised and updated with new material. Orders the topics specifically to facilitate learning. Provides a streamlined approach to actuarial notation. Employs modern computational methods. Contains a variety of exercises, both computational and theoretical, together with answers, enabling use for self-study. An ideal text for students planning for a professional career as actuaries, providing a solid preparation for the modeling examinations of the major North American actuarial associations. Furthermore, this book is highly suitable reference for those wanting a sound introduction to the subject, and for those working in insurance, annuities and pensions.

The Economic Survey is the budget document of the Government of India, which is presented in parliament every year. It presents the state of affairs of the Indian economy. Economic Survey 2018-19 consists of two volumes, which analyse the performance of the Indian economy for the financial year 2018–19.

Aspirants preparing for various recruitment and competitive examinations require a deep insight into the domain of General Knowledge and this book has been designed accordingly so as to act as the most comprehensive book on General Knowledge. The book contains 6250+ General Knowledge Questions asked in latest competitive examinations such as UPSC, State PCS, CDS, NDA, Assistant Commandant, Bank PO/Clerk, SSC and many other examinations. General Knowledge 6250+ Q provides a comprehensive study of all the sections that are covered under the subject of General Knowledge. The book has been divided into 6 sections – Indian History & Culture, World Geography, Indian Polity, Indian Economy, General Science and General Knowledge each containing theory. Figures, Graphics and Tables have been given along with the theory wherever required. Important Notes & Tables are provided under the highlighted box for the revision of important points. The History section covers Ancient India, Medieval India, Modern India and Art & Culture, whereas the Geography section covers world geography, Indian geography and Environment & Ecology. The General Science section covers basics of Computer apart from Physics, Chemistry and Biology. Ample number of solved questions including previous years' questions asked in General Knowledge section have been provided in the book. The Current Question Bank contains ample collection of current affairs questions to update the aspirants about the latest events and happenings. This book will prove to be highly successful for SSC, Railway, Bank (PO & Clerk), Army, Airforce, Navy and various other competitive and recruitment examinations. Also the book contains ample number of solved questions including previous years GK questions asked in various competitive and recruitment examinations, it for sure will act the perfect book for studying General Knowledge.

The No.1 Magazine for IAS Aspirants Since 1990

The first edition of the Public–Private Partnership (PPP) Monitor tracks the development of the PPP business environment as well as the challenges of doing PPPs in nine of the developing member countries (DMCs) of the Asian Development Bank (ADB): Bangladesh, the People's Republic of China, India, Indonesia, Kazakhstan, Papua New Guinea, the Philippines, Thailand, and Viet Nam. It is divided into four main categories: Regulatory Framework, Institutional Capacity for Implementation, PPP Market Maturity, and Financial Facilities. The PPP Monitor aims to increase the level and quality of private sector participation in infrastructure in the ADB's DMCs by serving as an active platform for dialogue between the public and private sectors.

A monthly published in Hindi and English. The journal is devoted to all aspects of rural reconstruction and village democracy. The journal carries educative and informative articles on rural development and is useful for scholars, academicians and students preparing for civil services and other competitive examinations.

Central Warehousing Corporation (CWC) was established during 1957 to provide logistics support to the agricultural sector. It is a public Warehouse operator offering logistics services to diverse groups of clients. Central Warehousing Corporation (CWC) has invited applications for the Director (Finance) post. Interested persons can apply for Central Warehousing Corporation (CWC) Recruitment 2020

The Economic Survey is the budget document of the Government of India. It presents the state of affairs of the Indian economy. Economic Survey 2017-18 consists of two volumes. Volume I provides an analytical overview of the performance of the Indian economy during the financial year 2017-18. It highlights the long-term challenges facing the economy. Volume II is a descriptive review of the major sectors of the economy. It emphasizes economic reforms of contemporary relevance like GST, the investment-saving slowdown, fiscal federalism and accountability, gender inequality, climate change and agriculture, science and technology, among others.

Praise for How I Became a Quant "Led by two top-notch quants, Richard R. Lindsey and Barry Schachter, How I Became a Quant details the quirky world of quantitative analysis through stories told by some of today's most successful quants. For anyone who might have thought otherwise, there are engaging personalities behind all that number crunching!" --Ira Kawaller, Kawaller & Co. and the Kawaller Fund "A fun and fascinating read. This book tells the story of how academics, physicists, mathematicians, and other scientists became professional investors managing billions." --David A. Krell, President and CEO, International Securities Exchange "How I Became a Quant should be must reading for all students with a quantitative aptitude. It provides fascinating examples of the dynamic career opportunities potentially open to anyone with the skills and passion for quantitative analysis." --Roy D. Henriksson, Chief Investment Officer, Advanced Portfolio Management "Quants"--those who design and implement mathematical models for the pricing of derivatives, assessment of risk, or prediction of market movements--are the backbone of today's investment industry. As the greater volatility of current financial markets has driven investors to seek shelter from increasing uncertainty, the quant revolution has given people the opportunity to avoid unwanted financial risk by literally trading it away, or more specifically, paying someone else to take on the unwanted risk. How I Became a Quant reveals the faces behind the quant revolution, offering you the chance to learn firsthand what it's like to be a quant today. In this fascinating collection of Wall Street war stories, more than two dozen quants detail their roots, roles, and contributions, explaining what they do and how they do it, as well as outlining the sometimes unexpected paths they have followed from the halls of academia to the front lines of an investment revolution.

ProjectX India | 15th December 2020 edition provides you with power-packed information on 154 projects from 51 sectors of the Indian economy. In this issue we have covered 45 projects

in the Conceptual/Planning Stage, 24 Contract Awards, 32 Projects Under Implementation, 35 Tenders, and 18 other projects. The project information is provided along with the nearest contacts as available in the public domain to facilitate the B2B exchange.

KEY FEATURES 360 degree overview of the GST provisions on services Detailed HSN code (Activity) wise commentary on services in 28 chapters Exclusive chapters on exempt government, agriculture and employees' services Comprehensive discussion on important GST concepts on services Upto date notifications of Service Tax Rates and Exemptions Online chapters on CGST Act/Rules and IGST Act/Rules, Scheme of Classification of Services & Explanatory Notes at www.rgargsgarg.com **CONTENTS** Part A: Concepts of GST (Services) – Chapters A-1 to A-22 cover general provisions relating to services, such as, meaning & scope of supply, time, value & place of supply, levy & reverse charge, composition, input tax, export & refund, registration, accounts etc. Part B: HSN Code wise Guide on Services – Chapters B-1 to B-28 comprises of critical analysis of HSN Code wise services through illustrations and tables. Part C: Rates – Chapters containing upto date notifications of Service Tax Rates and Exemptions Part D: Online Chapters – Online chapters on CGST Act/Rules and IGST Act/Rules, Scheme of Classification of Services and Explanatory Notes available at www.rgargsgarg.com

Computer Aided Highway Engineering is aimed at developing professional knowledge in the field of highway engineering with adequate skills in planning, designing and implementation of the highway project with an exposure of hands on training of computer software in designing the worldwide road infrastructures. It discusses Digital Terrain Model (DTM) using satellite data including highway geometric, pavement and tunnel design, supported by relevant tutorials.

Quantity estimation, cost estimation and production of various types of construction drawings are described in detail with theory and tutorials backed by real project data. Recognizes the role of information and computer technology in various aspects of highway design. Reviews different tasks for feasibility studies and DPR with software applications. Explores topographic survey, Digital Terrain Model (DTM) and highway geometrics and, pavement and drainage design. Discusses project estimations for various revisions of the engineering work. Includes HEADS Pro along with chapter wise tutorials containing design and field data, tutorial guides and various tutorial videos. This volume is aimed at Professionals in Civil Engineering, Highway Engineering, Transport Planning and Town Planning and Traffic Engineering.

PPP (public–private partnership) is a buzzword, especially in growing economies like India where it takes a partnership between the government and a private entity to establish successful infrastructural projects. However, PPPs in India face many hurdles that lead to either long delays or surprisingly, sometimes early completion of PPP projects, but with quality getting compromised. This book will take readers inside the world of PPPs and show how the legal, regulatory and political environments have facilitated or obstructed the speedy enforcement of plans for the creation of requisite infrastructure in India. With the help of various case studies, the book discusses the legal and regulatory issues in different sectors of infrastructure in India such as power, telecom, rail, air, road and sea. In addition to discussing challenges faced by them, the book emphasizes that a proper legal framework with effective regulations is necessary to monitor and regulate the creation and management of public goods. From funding to legal issues, Infrastructure, PPP and Law for Executives shows what it takes for the safe sailing for PPPs in India. Written primarily from a managerial perspective, the book will be of interest to business managers, lawyers, government executives and anyone with serious interest in infrastructure development in India.

Water quantity—too much in the case of floods, or too little in the case of droughts—grabs public attention and the media spotlight. Water quality—being predominantly invisible and hard to detect—goes largely unnoticed. Quality Unknown: The Invisible Water Crisis presents new evidence and new data that call urgent attention to the hidden dangers lying beneath water's

surface. It shows how poor water quality stalls economic progress, stymies human potential, and reduces food production. Quality Unknown examines the effects of water quality on economic growth and finds upstream pollution lowers growth in downstream regions. It reveals that some of the most ubiquitous contaminants in water, such as nitrates and salt, have impacts that are larger, deeper, and wider than has been acknowledged. And it traces the damage to crop yields and the stark implications for food security in affected regions. An important step toward tackling the world's water quality challenge is recognizing its scale. The world needs reliable, accurate, and comprehensive information so that policy makers can have new insights, decision making can be evidence based, and citizens can call for action. The report calls for a paradigm shift that emphasizes safer, and often more cost-effective remedies that prevent pollution by combining smarter policies with newer technologies. A key message of Quality Unknown is that such solutions exist and change is possible.

The Government of Pakistan strongly supports public-private partnership (PPP) initiatives. From 1990 to 2019, Pakistan witnessed 108 financially closed PPP projects, with a total investment of approximately \$28.4 billion. About 88% of these projects are in the energy sector, attracting more than \$24.7 billion, followed by investments in the port sector. In early 2021, Parliament approved the amendments to the 2017 PPP Law, enacting the Public Private Partnership Authority (Amendment) Act 2021. This further strengthens the enabling legal and regulatory framework for developing and implementing PPPs, thereby promoting private sector investment in public infrastructure and related services.

Certificate Associate of Indian Institute of Bankers (CAIIB) is an examination conducted by Indian Institute of Banking and Finance (IIBF). and this exam is conducted twice a year. The purpose of conducting this exam is to check the advanced ways of decision making and general banking management ability of the candidates. Any JAIIB (Junior Associate of Indian Institute of Banking and Finance) passed as a banker is eligible for enrollment in CAIIB examination. JAIIB and CAIIB is a flagship course of Institute of Banking and Finance commonly known as IIBF, an Institute for professional excellence in the field of banking and finance. As per Indian Bank Association (IBA) settlement, bankers who have passed JAIIB and CAIIB exams are entitled to salary increments. Besides increments, they (JAIIB & CAIIB) help in getting department postings such as forex, treasury, corporate loans etc. And also these exams help in getting promotion and successful candidates are most likely to get good posts and higher salaries in private sector banks. In CAIIB Examination there are two compulsory Subjects Advanced Bank Management and Bank Financial Management and 11 Elective Subjects and these subjects are Corporate Banking, Rural Banking, International Banking, Retail Banking, Co-operative Banking, Financial Advising, Human Resources Management, Information Technology, Risk Management, Central banking and Treasury banking.

Adda247 brings to you 20+ SBI Clerk Prelims 2020 Mock Test Papers ENGLISH EDITION eBook that incorporates mock papers that you need to practice to crack SBI Clerk exam. Practicing with all the questions and mocks provided in the book ensures your success in the upcoming exams of SBI Clerk Examination because it covers everything from the basics to the highest level one can go to while preparing for these exams. The mocks in this ebook are different from Adda247 online test series for SBI Clerk 2020. What You will get in this Book: - 20+ Total Mocks - 2100 Questions - Previous year papers of 2016, 2018, & 2019 - 17 Full Length Mocks of SBI Clerk Prelims - 4 Memory Based Papers Salient Features: - 100% Solutions of all the questions - Detailed Solutions for better understanding Language: English Medium Edition: Year 2020

UPSC IAS Prelims Exam 2020: Mock Test Series UPSC IAS Preliminary Exam

2020: General Studies Paper-1 UPSC Civil Services Examination Prelims 2020 Mock Test for General Studies Paper-1, Practice Solved Test -20 2018 Prelims- 33+ questions asked from MYUPSC Test Series Programme 2019 Prelims- 40+ questions asked from MYUPSC Test Series Programme UPSC Civil Services Prelims Exam 2020 Test Series There are Full Length 60 Very High Quality Tests that match very UPSC standard (acknowledged by hundreds of toppers every year). 1. These 60 Tests are structured in such a way as to help you start from scratch and gradually gain advanced knowledge through self study using standard textbooks and multiple revisions. 2. First 10 Tests are based on all Important NCERT Textbooks (New NCERTs). 3. There will be full length REVISION TEST after every 5 Tests. This helps in timely revision of every important topic you have read, including current affairs, before you move on to new topics. 4. Every Test will cover Current Affairs comprehensively from May 1, 2019. This helps you read and revise current affairs from the beginning. 5. All tests will cover previous year question papers of UPSC civil services. NDA, CDS, IES, CAPF exams. This feature helps you understand the expectations of UPSC and prepare accordingly. 6. Every test will cover 10 percent of previous test's syllabus. This is to let you not forget what you have read for first test and thereafter. Helps you revise previous tests before the next test. 7. There will be section-wise analysis of your performance in each test. This helps you know where you need to put extra efforts to prepare well for your weakest areas. 8. Unlimited access to previous tests in the form of PDFs. This test series will seriously prepare you to tackle actual exam with full confidence. MYUPSC – UPSC CSP (2020) Test series will strategically provide its students with an in-depth coverage of the syllabus and scientifically designed revision plans covering the entire static and current portions (multiple times). With the help of guidance, we aim to make sure that our students are exam ready, with all the skills and tools needed to handle any surprise UPSC throws at them. UPSC IAS Prelims Exam 2020 Practice Solved Test Paper Unique Features of MYUPSC Prelims Test Series: 1. Comprehensive coverage of entire syllabus of UPSC CSP exam through UPSC standard MCQs 2. Sectional Tests have been designed in a manner that students can cover each subject comprehensively in sufficient time and can evaluate his/her performance through our tests 3. Strictly adhering to UPSC pattern, the nature of questions ranges from factual to conceptual, proportionally dividing in each of the Test Papers 4. Options of MCQs have also been arranged in such a manner that elimination tactics can be applied by students while solving questions 5. All tests will be conducted in same manner as in real examination hall which helps in better time management and prepare students to solve MCQs correctly under exam pressure Performance Analysis of aspirants, Section wise analysis, Difficulty Analysis, All India Rank, comparison with toppers, Integrated Score Card, Analysis of Mock Test papers based on difficulty level & nature of questions etc. will be provided to students. It will help in evaluating their performance and course correction.

This book gathers peer-reviewed contributions presented at the 1st International Conference on Structural Engineering and Construction Management (SECON'20), held in Angamaly, Kerala, India, on 14-15 May 2020. The meeting served as a fertile platform for discussion, sharing sound knowledge and introducing novel ideas on issues related to sustainable construction and design for the future. The respective contributions address various aspects of numerical modeling and simulation in structural engineering, structural dynamics and earthquake engineering, advanced analysis and design of foundations, BIM, building energy management, and technical project management. Accordingly, the book offers a valuable, up-to-date tool and essential overview of the subject for scientists and practitioners alike, and will inspire further investigations and research.

The book discusses contemporary issues such as global financial architecture and regulatory practices, trade, investment and the multilateral process, the future of work, the role of technology for adaptation and mitigation of climate change, and financing infrastructure for sustainable development. With increasing global connectivity, events in one part of the world immediately affect or spread to the other parts. In this context, G20 has proved to be an effective forum, particularly after the Asian financial crises. Furthermore, over recent decades, G20 has been instrumental in managing financial crises and international conflicts by deploying global cooperation as a functional tool. As a body responding to crises, the G20 has played a central role in providing the political momentum for the strong international cooperation that ensured greater policy coherence and helped ease situations that could otherwise have been decidedly worse. The G20's agendas have encompassed short-term but critical issues of economic recovery, the sovereign crisis of Europe, high unemployment and financial sector regulation. But since moderate stabilization in the global economic environment, the focus of the group has also embraced long-term areas of governance and development. For emerging economies, such as India, the G20 has been an important platform framework to promote an inclusive global economic architecture that seeks to achieve equitable outcomes. This book reviews the past 20 years of the G20, since it was conceptualized as a replacement for the G-7. While issues such as global financial order have been a constant area of discussion, one of the failures has been not recognizing and acknowledging the importance of issues like trade, climate change and future of work. Featuring academic papers by experts in the area, this book provides a platform for the necessary discourse on these issues.

Notes for GS 3 for UPSC IAS and STATE PCS Exams

Current Affairs July 2018 eBook is created by keeping the demands of recent pattern of various competitive exams in major view. It is brought to you by Jagranjosh.com. The topics for cover story and entire news section are selected on the basis of an analysis of general knowledge sections in all important exams including IAS, PCS, BANK, SSC, Insurance and others. And the time duration of

topics covered in magazine includes all exam oriented current affairs of June 2018. It presents the comprehensive coverage of the events of current affairs which are chosen on the basis of the requirements of all important exams. It covers all exam oriented current affairs of June 2018 with all required facts and analysis. The analysis of all the events related to National, International, Economy, Science & Technology, Environment & Ecology is done in a way that fulfills the demand of all the important exams including IAS. The language used in the magazine is lucid and easy-to-understand language. The major topics included in the magazine for cover story are: G-7 Summit, Trump-Kim Meeting, Us withdrawal from UNHRC among others. The eBook is expected to be handy for most of forthcoming exams like, Civil Services Examination, Various Insurance AO Exams, PCS exams, MAT and others.

Nitin Gadkari, Union Minister for Road Transport and Highways, Shipping, Water Resources and Ganga Rejuvenation, is among the most efficient ministers of the present government. From an average highways road construction pace of 3 km/day in May 2014 when he took over, under his tenure this figure now stands at 27 km/day. The National Highways, earlier a stretch of 96,000 km, is now in the process of being expanded to double the length. An unprecedented number of new expressways have been launched, whereas important highways whose construction had been stalled for years have now seen the light of the day. In the shipping sector, under the ambitious Sagarmala Project, the government is developing port infrastructure along the country's 7,500 km coastline. The project includes modernization of the ports and islands and the creation of coastal special economic zones. In his new ministries-Water Resources and Ganga Rejuvenation-Gadkari has infused new energy with path-breaking initiatives around the interlinking of rivers and expediting the cleaning of Ganga. If one takes into account the sheer magnitude of cumulative infrastructure development work undertaken by Gadkari's ministries over the last four years, it is nothing short of an infrastructure revolution. In this book Tuhin provides a rare insight into the working style of the maverick minister, besides telling us how these ministries are silently and crucially fuelling Prime Minister Narendra Modi's dream of New India.

This book highlights good practices and summarises what countries should consider before entering into public-private partnerships (PPPs).
