Smith, author, 20,000 Days and Counting "God doesn't need for us to be aware of the miracles He's performing, but they're happening every day! It's a God Thing, a new book from K-LOVE, is a powerful vehicle to tell the story of a number of those miracles."—Brandon Heath, 2008 New Artist of the Year Dove Award winner

The #1 bestselling author of Bonhoeffer and Martin Luther explores miracles in an inspiring response to the "New Atheists" Not since C. S. Lewis in 1947 has an author of Eric Metaxas's stature undertaken a major exploration of the phenomenon of miracles. In this groundbreaking work, Metaxas examines the compatibility between faith and science and provides well-documented anecdotal evidence of actual miracles. With compelling—sometimes electrifying—evidence that there is something real to be reckoned with, Metaxas offers a timely, civil, and thoughtful answer to recent books by Richard Dawkins, Christopher Hitchens, and Sam Harris. Already a New York Times bestseller, Miracles will be welcomed by both believers and skeptics—who will find their minds opening to the possibilities.

A true story of sacrificing everything for family, living with nothing but hope, then sharing generously all they received to discover the greatest riches of all. Tani Adewumi didn't know what Boko Haram was or why they had threatened his family. All he knew was that when his parents told the family was going to America, Tani thought it was the start of a great adventure rather than an escape. In truth, his family's journey to the United States was nothing short of miraculous—and the miracles were just beginning. Tani's father, Kayode, became a dishwasher and Uber driver while Tani's mother, Oluwatoyin, cleaned buildings, while the family lived in a homeless shelter. Eight-year-old Tani jumped into his new life with courage and perseverance—and an unusual mind for chess. After joining the chess club in his public school, Tani practiced his game for hours in the evenings at the shelter. And less than a year after he learned to play, Tani won the New York State chess championship. A young boy with an aptitude for chess? Absolutely. But if you ask Tani Adewumi, he will tell you he believes in miracles and one happened to him and his family. This story will inspire, delight, and challenge you to believe, too.

"The only edition that contains in one place all of the writings that Dr. Helen Schucman, its Scribe, authorized to be printed"--P. [4] of cover.

In May of 2009, my husband was severely injured at the geothermal plant where he worked. He suffered second and third-degree burns over 73 percent of his body after falling into a hole filled with 140-degree brine water. Miracles began happening right before our eyes. He was able to climb out of the hole by himself, run the length of a football field to wash off, and ended up being flown to a trauma hospital where a world-renowned doctor would begin the tedious task of stapling cadaver tissue onto all of his burns. I created a web page on CaringBridge and began journaling as a means of communication with family and friends who lived four or more hours away. The response was overwhelming as you will attest to when you start turning the pages. There is no doubt in my mind that all the prayers and words of comfort played a big part in Mark's healing process. I also believe the Holy Spirit comforted me and gave me the strength I needed to be there for my husband.

On January 6, 1975, Nottingham Forest were thirteenth in the old Second Division, five points above the relegation places and straying dangerously close to establishing a permanent place for themselves among football's nowhere men. Within five years Brian Clough had turned an unfashionable and depressed club into the kings of Europe, beating everyone in their way and knocking Liverpool off their perch long before Sir Alex Ferguson and Manchester United had the same idea. This is the story of the epic five-year journey that saw Forest complete a real football miracle and Clough brilliantly restore his reputation after his infamous 44-day spell at Leeds United. Forest won the First Division championship, two League Cups and back-to-back European Cups and they did it, incredibly, with five of the players Clough inherited at a club that was trying to avoid relegation to the third tier of English football. I Believe In Miracles accompanies the critically-acclaimed documentary and DVD of the same name. Based on exclusive interviews with virtually every member of the Forest team, it covers the greatest period in Clough's extraordinary life and brings together the stories of the unlikely assortment of free transfers, bargain buys, rogues, misfits and exceptionally gifted footballers who came together under the most charismatic manager there has ever been.

Leave 'em laughing. That's the classic credo of the funnyman. And that's just what Georgia's favorite son -- and one of America's best-loved humorists -- has done right here.

Whether he's taking pointed potshots at blood-stealing orderlies, guffawing in the face of mortality, or talking poignantly about family, friends, and lovers, Lewis Grizzard makes his exit with neither a bang nor a whimper, but a poke in the ribs, a slap on the back, and a promise that his irresistible sense of humor and humanity will always keep on tickin'.

When we're young, it's easy to believe in the supernatural. But as we grow older, even as Christians who believe in the resurrection, we live as if reality is merely what we can see. With thoughtful practices woven throughout, this book will feed your soul and help you recapture the wonder of your Christian walk.

New York Times bestselling author Lee Strobel trains his investigative sights on the hot-button issue of whether it's credible to believe God intervenes supernaturally in people's lives today. This provocative book starts with an unlikely interview in which America's foremost skeptic builds a seemingly persuasive case against the miraculous. But then Strobel travels the country to quiz scholars to see whether they can offer solid answers to atheist objections. Along the way, he encounters astounding accounts of healings and other phenomena that simply cannot be explained away by naturalistic causes. The book features the results of exclusive new scientific polling that shows miracle accounts are much more common than people think. What's more, Strobel delves into the most controversial question of all: what about miracles that don't happen? If God can intervene in the world, why doesn't he do it more often to relieve suffering? Many American Christians are embarrassed by the supernatural, not wanting to look odd or extreme to their neighbors. Yet, *The Case for Miracles* shows not only that the miraculous is possible, but that God still does intervene in our world in awe-inspiring ways. Here's a unique book that examines all sides of this issue and comes away with a passionate defense for God's divine action in lives today.

"For the great God who called me has given me, also, a glimpse of His glory." – Kathryn Kuhlman Kathryn Kuhlman introduced the Holy Spirit to a generation who knew Him not. Thousands were born again and healed by the power of God during her miracle services. While most people knew Kathryn Kuhlman only as a woman of miracles, her most lasting contribution to the kingdom is her teaching. Her daily radio broadcasts were gems of truth and wit. This book captures Kathryn's spoken wisdom while also telling the stories of the miracle healings she witnessed. Hundreds of thousands bought her only authorized biography, *Daughter of Destiny*, to know her better. Then before she died in 1976 she told her biographer, Jamie Buckingham, "Tell it all." He realized that what she taught was even more important than what she did. That realization birthed *A Glimpse Into Glory*. The short chapters that compose *A Glimpse Into Glory*—carefully transcribed and edited from Kathryn's radio teachings—represent some of the best messages she preached around the nation. Several are unpublished statements she gave to various magazines and newspapers, taken verbatim from interview tapes. What she had to say gives us not only insight into a woman God used as a prophetic leader, but also provides something far more important: glimpses into His glory.

In *What Did Jesus Ask?*, 65 of today's leading spiritual writers, thinkers, and artists offer modern meditations on the questions that Jesus posed in the Bible to teach his followers

how to think like a Christian and consider their personal faith.

As a teacher, Jesus Christ put many of his lessons in the form of questions. The gospels record more than 300 of them. Some are rhetorical, needing no answer, but most were real questions posed to real people. Many of Jesus' questions are familiar to readers today, yet the context and the potential interpretations of such phrases will offer enlightenment to many. Organized by Biblical verse, these 65 enigmatic questions include:

"You of little faith, why did you doubt?" - Matthew 14:31

"Do you have eyes but fail to see, and ears but fail to hear?" - Mark 8:18

And now, *What Did Jesus Ask?* poses those questions to many of today's prominent religious figures, scholars and thought leaders to contemplate and interpret. Contributors include bestselling singer/songwriters Amy Grant and Michael W. Smith, Christian leaders Barbara Taylor and Cardinal Wuerl of Washington, and bestselling authors James Martin and Sarah Young, and many more. Including a foreword by Nancy Gibbs, bestselling author and managing editor of TIME magazine, *What Did Jesus Ask?* is a thought-provoking volume for both readers interested in religious thought and understanding the teachings of Jesus better.

At eight years old, Tani Adewumi, a Nigerian refugee, won the 2019 New York State Chess Championship after playing the game for only a year--and while homeless. His story is full of miracles and hope. Tani and his family's amazing story began amid Boko Haram's reign of terror in their native country of Nigeria. They fled their home to the United States, where they lived in a New York City homeless shelter as they waited to be granted religious asylum. Tani began attending PS 116, where his classmates were unaware that he and his family had no home. So when Tani asked his parents if he could join the chess program at school, which required a fee, it seemed unlikely. But his mother wrote to the coach, who offered Tani a scholarship. This adaptation will focus on the portions of Tani's story that will most interest young readers. The struggle of leaving his comfortable home and moving to a new country with nothing. Living in America as a homeless family. Having no TV, no games, no money. Wanting a place for his mom to cook meals and a refrigerator where he could get a snack whenever he was hungry. Going to a new school. Meeting a teacher who taught him the game of chess, which allowed him to learn, compete, and experience the pressures of the game and the ultimate joy of winning. Tani's story will inspire you to believe in the power of the human spirit to triumph over the greatest adversities. And his family's faith will inspire you to believe in miracles.

In "I Believe in Miracles," author Deidre Spencer shares the knowledge she gained in her fight against cancer and she provides the tools necessary to discover how to heal. As a cancer survivor, Deidre has beaten the odds, conquering an aggressive form of cancer that had an additional genetic disorder component, making it difficult for the doctors to treat. Through it all, she demonstrates the strength of conviction to follow through on her beliefs--and through sheer determination, positive thinking, and with support from family

and friends, she pulled herself through those traumatic times. Initially, the doctors saved her from the brink of death when she had only two weeks left to live. She then survived a stem cell transplant, finding she was sensitive to the chemotherapy medicine and other drugs used in treating the side effects. She again came close to dying. When she pulled through the second time, she had to learn to eat and walk again. She realised then that she had to heal all of herself—not only physically, but also mentally, emotionally and spiritually; what she calls the "four bodies." Deidre is now in full remission. "I Believe in Miracles" is a journey of self-discovery, trauma, and self-healing; Deidre believes that if she can do it, so can others.

The Jefferson Bible, or The Life and Morals of Jesus of Nazareth as it is formally titled, was a book constructed by Thomas Jefferson in the latter years of his life by cutting and pasting numerous sections from various Bibles as extractions of the doctrine of Jesus. Jefferson's composition excluded sections of the New Testament containing supernatural aspects as well as perceived misinterpretations he believed had been added by the Four Evangelists. In 1895, the Smithsonian Institution under the leadership of librarian Cyrus Adler purchased the original Jefferson Bible from Jefferson's great-granddaughter Carolina Randolph for \$400. A conservation effort commencing in 2009, in partnership with the museum's Political History department, allowed for a public unveiling in an exhibit open from November 11, 2011, through May 28, 2012, at the National Museum of American History.
