I diritti umani oggi Antonio Cassese, 2015-09-01T00:00:00+02:00 Cosa sono i diritti umani? A che punto siamo con la loro tutela? Cosa possiamo fare noi, semplici cittadini, se non vogliamo restare sordi alle istanze di chi ne è privato? La problematica dei diritti umani, così importante sul piano politico, su quello delle ideologie e soprattutto del progresso civile degli Stati moderni, ha appassionato non solo uomini politici e organizzazioni intergovernative, ma anche associazioni religiose o sindacali, privati e organismi non governativi che si adoperano perché i governi si conformino sempre più alle norme internazionali a difesa di quei diritti. Questo volume entra nel vivo del tema, lo inquadra storicamente, chiarisce le origini e la ragion d'essere dell'attuale importanza dei diritti umani ma mostra anche i limiti della pretesa universalità di quei diritti. Un tema su cui dobbiamo tutti riflettere, essenziale sul piano politico quando su quello delle ideologie, del costume e soprattutto del progresso civile degli Stati moderni.

Le famiglie nello spazio europeo tra diritti fondamentali, libertà e giustizia Maria Grazia Zecca, Attolini Stefania, D'Elia Daniele, Martina Cutazzo, Francesco Indelli, Lucia Legati, 2023-03-26 Gli Autori, in un'ottica completamente innovativa, analizzano la libera circolazione e soggiorno delle persone, nel rispetto dei loro status familiari e dell'effettivo esercizio dei diritti che discendono dal libero movimento degli individui in Europa. Si esamina il sostegno che gli Stati membri devono garantire alle donne e ai minori, unitamente alla particolare attenzione che la giustizia deve assicurare ai soggetti deboli. L'opera è rivolta agli operatori del diritto e agli studiosi che, a vario titolo, dedicano la propria vita professionale all'applicazione dei diritti fondamentali della persona. Il testo è preceduto dalla prefazione di: Fernanda Vaglio, avvocatessa cassazionista del Foro di Lecce, cultore della materia di diritto privato presso il Dipartimento di Giurisprudenza - Università di Pisa e direttrice della collana di Keyeditore: "Diritto privato e dintorni".

Diritto sconfinato Maria Rosaria Ferrarese, 2015-01-01T00:00:00+01:00 Lo scenario giuridico è oggi affollato da nuove modalità di diritto, che superano o eludono i confini statali, reinventando il proprio spazio e le proprie funzioni, nonché il

rapporto con la politica e la tecnica. Diritto sovranazionale e diritto transnazionale sono le due principali incarnazioni di diritto 'sconfinato', che questo libro analizza. Emerge così l'identikit di un assetto giuridico globale mobile e interdipendente, dotato di inedite capacità comunicative.

Metaphysics of Human Rights 1948-2018 Luca Di Donato, Elisa Grimi, 2019-10-01 The 1948 Declaration of Human Rights demanded a collaboration among exponents from around the world. Embodying many different cultural perspectives, it was driven by a like-minded belief in the importance of finding common principles that would be essential for the very survival of civilization. Although an arduous and extensive process, the result was a much sought-after and collective endeavor that would be referenced for decades to come. Motivated by the seventieth anniversary of the 1948 Universal Declaration of Human Rights and enriched by the contributions of eminent scholars, this volume aims to be a reflection on human rights and their universality. The underlying question is whether or not, after seventy years, this document can be considered universal, or better yet, how to define the concept of "universality." We live in an age in which this notion seems to be guided not so much by the values that the subject intrinsically perceives as good, but rather by the demands of the subject. Universality is thus no longer deduced by something that is objectively given, within the shared praxis. Conversely, what seems to have to be universal is what we want to be valid for everyone. This volume will be of interest to those currently engaged in research or studying in a variety of fields including Philosophy, Politics and Law.

The Human Right to Water and International Economic Law Roberta Greco, 2022-05-05 This book discusses the international right to water and the liberalization of water services. It is concerned with the harmonization of the right to water with the legal systems under which liberalization of water services has taken or may take place. It assesses paths of harmonization between international human rights law and international economic law in this specific field. The issue of the compatibility between the fulfilment of the right to water and the liberalization of water services has been at the heart of a passionate public debate between opponents and advocates of the privatization of the utility. The book provides an unbiased analysis of different international legal regimes under which the liberalization of water services has occurred or is likely to occur, notably international investment law, international trade law and European Union law, in order to assess whether the main features of the right to water can be guaranteed under each of these systems of law and whether there is space for prospective harmonization. The work will be an invaluable resource for academics, researchers and policy-makers working in the areas of International Human Rights Law, International Economic Law, International Water Law, International Trade Law and EU Law.

Opere filosofiche Antonio Rosmini, 2021-01-28T00:00:00+01:00 Antonio Rosmini (1797-1855) ha subito cinque processi, con due condanne, due assoluzioni e una beatificazione (2007). Mentre è in corso la canonizzazione, si offre un'antologia

sistemica delle Opere Filosofiche dalle quali parecchi stanno lontano a causa della loro vastità e complessità; ostacoli però qui superati con una selezione dei brani più importanti versati in italiano corrente, introdotti e commentati. Non si vuole tuttavia ripetere scolasticamente Rosmini bensì imparare a filosofare con lui oltre a lui in “spirito di carità intellettuale” e facendo tesoro delle verità perenni scolpite nelle sue pagine. Studiare Rosmini conviene perché: 1) si recupera il meglio di quanto offerto dall’intera storia della filosofia (grazie a migliaia di citazioni); 2) se ne affrontano i temi principali (struttura del conoscere, forme dell’essere, metafisica della creazione, psicosomatica, principi logici, morali, sociali); 3) si percorrono varie discipline grazie al suo sapere enciclopedico che ne fanno il filosofo italiano più colto di sempre; 4) ci si arricchisce sul piano esistenziale e spirituale secondo un modello raramente offerto da altri. Completano e arricchiscono il volume, due “Tesori Filosofici” e ampie e aggiornate bibliografie. Le opere antologizzate sono: 1. Introduzione alla filosofia. 2. Nuovo saggio sull’origine delle idee. 3. Logica. 4. Teosofia. 5. Antropologia. 6. Psicologia. 7. Principi della scienza morale. 8. Trattato della coscienza morale. 9. Scritti pedagogici. 10. Filosofia della politica. 11. Filosofia del diritto.

Corruption Marco Arnone, Leonardo S. Borlini, 2014-05-30 Economic analysis is also the key to measuring the efficacy of current anti-corruption instruments, and in the light of this the book finds many existing legal counter-measures lacking. On the other hand, its assessment of new international instruments

Di cosa parliamo quando parliamo di famiglia Maria Rosaria Marella, Giovanni Marini, 2014-04-01T00:00:00+02:00 Che cos’è la famiglia? Come e perché diventa un’istituzione giuridica? E quale tipo di comunità familiare è ‘famiglia’ per il diritto? Nel libro, uno sguardo critico sulla famiglia quale prodotto del diritto positivo degli Stati, e sul ruolo che svolge nella disciplina dei rapporti interpersonali, sessuali e intergenerazionali, strutturando precise relazioni di potere fra i generi e costruendo identità e ruoli sociali che coinvolgono gli individui e i gruppi fino a incidere sulla fisionomia delle comunità nazionali.

Diritto e religione Pierluigi Consorti, 2023-07-07T00:00:00+02:00 Pierluigi Consorti ha promosso il rinnovamento del tradizionale 'diritto ecclesiastico' verso lo studio a tutto campo delle relazioni fra diritto e religione. In questo libro ne chiarisce le basi storico-giuridiche e ne propone alcune prospettive di sviluppo nella società contemporanea, caratterizzata dalla convivenza di una pluralità di fedi e dalla gestione di emergenze che sembrano non finire mai. In questa nuova edizione sviluppa le prospettive della libertà religiosa guardando ai sempre più difficili equilibri geopolitici in un contesto di sfide globali che impongono scelte politiche eticamente condivise.

Oltre la democrazia Massimiliano Di Paolo, 2020-03-01 Una critica implacabile della democrazia liberale e dei movimenti politici, il comunismo ed il fascismo, che hanno cercato di superarla. Tuttavia occorre andare oltre, verso una società senza

Stato che sia veramente libera. Massimiliano Di Paolo è nato a Teramo nel 1967. Laureato in giurisprudenza con lode ha svolto attività didattica e di ricerca nelle università di Teramo e di Padova dal 1991 al 2000. Ha pubblicato 2 romanzi (Samizdat, Nel segno della P38), 2 raccolte di racconti (Il Tempio di Hendrix, Sofòs) e un libro sulle sue esperienze di lavoro (Strisce blu).

The Immutable Laws of Mankind Alastair Davidson, 2012-05-02 The key question for the history of universal human rights is why it took so long for them to become established as law. The main theme of this book is that the attainment of universal human rights required heroic struggle, first by individuals and then by ever-increasing numbers of people who supported those views against the major historical trends. Universal human rights are won from a hostile majority by outsiders. The chapters in the book describe the milestones in that struggle. The history presented in this book shows that, in most places at most times, even today, for concrete material reasons a great many people oppose the notion that all individuals have equal rights. The dominant history since the 1600s has been that of a mass struggle for the national-democratic state. This book argues that this struggle for national rights has been practically and logically contradictory with the struggle for universal rights. It would only be otherwise if there were free migration and access to citizenship on demand by anybody. This has never been the case. Rather than drawing only on European sources and being limited to major literary figures, this book is written from the Gramscian perspective that ideas mean little until they are taken up as mass ideologies. It draws on sources from Asia and America and on knowledge about mass attitudes, globally and throughout history.
