The convergence of rock music, counterculture politics and avant-garde aesthetics in the late 1960s underscored the careers of the Beatles, Frank Zappa and the Mothers of Invention, and the Velvet Underground. This book examines these artists' relationships to the historical avant-garde (Artaud, Brecht, Dada) and neo-avant-garde (Warhol, Pop Art, minimalism), considering their work in light of debates about modernism versus postmodernism. The author analyzes the performers' use of dissonance and noise within popular music, the role of social commentary and controversial topics in songs, and the experiments with concert and studio performance. Albums discussed include Sgt. Pepper's Lonely Hearts Club Band, The White Album, Freak Out!, We're Only in It for the Money, The Velvet Underground and Nico and White Light/White Heat, as well as John Lennon's collaborations with Yoko Ono, the Zappa-produced Trout Mask Replica by Captain Beefheart and the Magic Band, and Nico's The Marble Index. From its earliest days to the present, the onscreen image of the librarian has remained largely the same. A silent 1921 film set the precedent for two female librarian characters: a dowdy spinster wears glasses and a bun hairstyle, and an attractive young woman is overworked and underpaid. Silent films, however, employed a variety of characteristics for librarians, showed them at work on many different tasks, and featured them in a range of dramatic, romantic, and comedic situations. The sound era (during which librarians appeared in more than 200 films) frequently exaggerated these characteristics and situations, strongly influencing the general image of librarians. This chronologically arranged work analyzes the stereotypical image of librarians, male and female, in primarily American and British motion pictures from the silent era to the 21st century. The work briefly describes each film, offering some critical commentary, and then examines its librarian, considering every aspect of the total character from socio-economic conditions and motivations for leaving or not leaving the library, to personal attributes (such as clothing, hair, and age) and entanglements with the opposite sex, to commonly used props, plot situations and lines ("Shush!"). The work comments on whether librarians and library work are depicted accurately and analyzes the development of the public's image of a librarian. The accompanying filmography lists librarian characters and notes stereotypes such as buns and eyeglasses. With bibliography and index.

Argues that novelists graft aging onto narrative duration and reveals the politics of senescence in nineteenth and early-twentieth century plots.

This book offers a new, interdisciplinary model for understanding audience engagement as a type of behaviour, a form of response and a cost to audiences that, combined, offer value to the screen industries. Audience 'engagement' has become the key priority of the screen industries. *Understanding Engagement in Transmedia Culture* explicitly asks what audiences and screen practitioners mean when they say content is 'engaging' and uses audience focus groups and practitioner interviews to offer a model for understanding the relationship between the screen industry, the content it produces and its audiences. In particular, the model addresses engagement within transmedia culture. As digital screen technologies proliferate, audiences move seamlessly across and between different devices, content formats and distribution platforms, blurring the boundaries between film, television and videogames. This book offers a way of understanding audience engagement that is not restricted to a single media but instead accounts for and adapts to the various ways in which screen content is experienced. Offering a unique approach by presenting practitioner and audience perspectives, it is perfect for students and scholars working in film and television studies, as well as media industries and audience studies.

This original and highly readable study challenges previous assumptions about the relationship between medicine and the novel. A major addition to nineteenth-century studies, it will be of interest to students and scholars of literature, feminism, social history, and the history of medicine.

This work examines the unique and ever-changing relationship between politics and comedy through an analysis of several popular American television programs. Focusing on close readings of the work of Ernie Kovacs, Soupy Sales, and Andy Kaufman, as well as *Green Acres* and *The Gong Show*, the author provides a unique glimpse at the often subversive nature of avant-garde television comedy. The crisis in American television during the political unrest of the late 1960s is also studied, as represented by

individual analyses of The Monkees, The Smothers Brothers Comedy Hour, Rowan and Martin's Laugh-In, and All in the Family. The author also focuses on more contemporary American television, drawing a comparative analysis between the referential postmodernism of The Simpsons and the confrontational absurdity of South Park.

Examining novels, critical editions, gift books, translations, and illustrated books, as well as the communities who made them, *Dreaming in Books* tells a wide-ranging story of the book's identity at the turn of the nineteenth century. In so doing, it shows how many of the most pressing modern communicative concerns are not unique to the digital age but emerged with a particular sense of urgency during the bookish upheavals of the romantic era. In revisiting the book's rise through the prism of romantic literature, Piper aims to revise our assumptions about romanticism, the medium of the printed book, and, ultimately, the future of the book in our so-called digital age."--Pub. desc.

Her bridezilla is about to be unleashed. Elizabeth Fanning's life looks pretty perfect, judging by the diamond ring on her finger. Her fiancé, Landon, is sweet, handsome, and hilarious. The trouble is, before they've even tied the knot, their sex life has gone from mind-blowing to "meh"—and Liz isn't ready to be part of an old married couple. After a cathartic call to her best friend, Liz comes up with a brilliant idea. She and Landon may never be able to re-create the magic of their first time, but how amazing would their wedding night be if everything below the neck was off-limits until then? Liz thinks it'll bring them closer together. Landon's convinced she'll cave first. So they raise the stakes: Whoever lasts longer gets to pick their honeymoon destination. With her heart set on the Bahamas and Landon fighting for snowbound Utah, Liz simply has to win. But pretty soon, her body is screaming for attention, and Landon's never seemed so far away. Has Liz's experiment backfired? Losing their little competition would be frustrating—but the one thing she can't afford to lose is him.

One woman is about to discover everything she believes—knows—to be true about her life...isn't. After hitting her head, Lucy Sparks awakens in the hospital to a shocking revelation: the man she's known and loved for years—the man she recently married—is not actually her husband. In fact, they haven't even spoken since their breakup four years earlier. The happily-ever-after she remembers in vivid detail—right down to the dress she wore to their wedding—is only one example of what her doctors call a false memory: recollections Lucy's mind made up to fill in the blanks from the coma. Her psychologist explains the condition as honest lying, because while Lucy's memories are false, they still feel incredibly real. Now she has no idea which memories she can trust—a devastating experience not only for Lucy, but also for her family, friends and especially her devoted boyfriend, Matt, whom Lucy remembers merely as a work colleague. When the life Lucy believes she had slams against the reality she's been living for the past four years, she must make a difficult choice about which life she wants to lead, and who she really is.

An analysis of the under-studied sitcom Gilligan's Island that addresses key questions about American social life in the 1960s.

"Marriage is okay, but adultery is more fun. Just ask Lucy." --Desi Arnaz Starkly at odds with the utopian fantasies of Classic TV, Desi Arnaz defined his real-life marriage to Lucille Ball like this: "We were anything but Lucy and Ricky Ricardo. They had nothing to do with us. We dreamed of success, fame, and fortune. And guess what? It all led to hell." Here from the most prolific biographers in show biz comes an unvarnished overview of the tormented married couple who transformed the manic eccentricities of LUCY into one of the most profitable icons of the Atomic Age.

Three pasts. Three criminals. One night to steal it all. I'm known as the Scarlett Thief. Truly fitting since Scarlett is my name. No one has seen

me or ever even gotten close. It's not bragging, I'm just that good. If I see something and I want it, the fact is, come hell or high thievery, it will be mine. There's just one rule: I work alone. A team comes with complications-dangerous complications that can get a girl killed or, even worse, caught. When a mysterious billionaire known as Mr. Black not only gets close enough to catch me but leaves me an intriguing message offering me the chance of a lifetime, what's a world-renowned criminal to do? Track the man down and kill him, of course. Only, instead of Mr. Black, I find two other criminals -a hacker and a mercenary-who are gunning for the mysterious man in the shadows who seems to know everything about us. The only way to keep our secrets from ever seeing the light of day is to pull off the biggest heist the world's ever seen. If we fail, we lose everything, but if we succeed ... we could go down in history.\*\*\*This title is a MFM menage\*\*\*

Are Jane Austen and Charles Darwin the two great English empiricists of the nineteenth century? Peter W. Graham poses this question as he brings these two icons of nineteenth-century British culture into intellectual conversation in his provocative new book. Graham shows that while the one is generally termed a naturalist (Darwin's preferred term for himself) and the other a novelist, these characterizations are at least partially interchangeable, as each author possessed skills that would serve well in either arena. Both Austen and Darwin are naturalists who look with a sharp, cold eye at the concrete particulars of the world around them. Both are in certain senses novelists who weave densely particularized and convincingly grounded narratives that convey their personal observations and perceptions to wide readerships. When taken seriously, the words and works of Austen and Darwin encourage their readers to look closely at the social and natural worlds around them and form opinions based on individual judgment rather than on transmitted opinion. Graham's four interlocked essays begin by situating Austen and Darwin in the English empirical tradition and focusing on the uncanny similarities in the two writers' respective circumstances and preoccupations. Both Austen and Darwin were fascinated by sibling relations. Both were acute observers and analysts of courtship rituals. Both understood constant change as the way of the world, whether the microcosm under consideration is geological, biological, social, or literary. Both grasped the importance of scale in making observations. Both discerned the connection between minute, particular causes and vast, general effects. Employing the trenchant analytical talents associated with his subjects and informed by a wealth of historical and biographical detail and the best of recent work by historians of science, Graham has given us a new entree into Austen's and Darwin's writings.

Lady Susan is a short epistolary novel, possibly written in 1794, but not published until 1871. Sense and Sensibility was the first of Jane Austen's novels to be published. She began to write it sometime around 1797, and she worked on it for many years before its publication in 1811. The title page said that it was written "By a Lady", and only her immediate family knew that Jane Austen was the author. Impetuous Marianne Dashwood tumbles into a fairytale romance that goes sour, and her practical older sister Elinor copes with the family's financial problems while hiding her own frustrated romantic hopes. Northanger Abbey was written in 1798-99. It is a comic love story set in Bath about a young reader who must learn how to separate fantasy from reality. Miss Austen sold the novel to a publisher in 1803, and the work was advertised but never published. She bought it back many years later, and her brother Henry Austen published the novel as Northanger Abbey after her death in 1817. Persuasion was written in 1815-1816, while Jane Austen was suffering from her fatal illness. She was still working on some revisions at the time of her death in 1817. The novel was published posthumously by her brother, Henry Austen. Persuasion is a novel of second chances, expectations of society, and the constancy of love. Jane Austen (1775–1817) was an English novelist known primarily for her six major novels, which interpret, critique and comment upon the British landed gentry at the end of the 18th century. Austen's plots often explore the dependence of women on marriage in the pursuit of favourable social standing and economic security.

This book views late Victorian femininity, the New Woman, and gender through literary representations of the figure of the monster, an appendage to the New Woman. The monster, an aberrant occurrence, performs Brecht's "alienation effect," making strange the world that she inhabits, thereby drawing veiled conclusions about the New Woman and gender at the end of the fin-de-siècle. The monster reveals that New Women loved one another complexly, not just as "friend" or "lover," but both "friend" and "lover." The monster, like the fin-de-siècle British populace, mocked the New Woman's modernity. She was paradoxically viewed as a threat to society and as a role model for women to follow. The tragic suicides of "monstrous" New Women of color suggest that many fin-de-siècle authors, especially female authors, thought that these women should be included in society, not banished to its limits. This book, the first on the relationship between the figure of the monster and the New Woman, argues that there is hidden complexity to the New Woman. Her sexuality was complicated and could move between categories of sexuality and friendship for late Victorian women, and the way that the fin-de-siècle populace viewed her was just as multifarious. Further, the narratives of her tragedies ironically became narratives that advocated for her survival.
