An important, hopeful book that looks at the urgent problem of childhood malnutrition worldwide and the revolutionary progress being made to end it. A healthy Earth requires healthy children. Yet nearly one-fourth of the world's children are stunted physically and mentally due to a lack of food or nutrients. These children do not die but endure a lifetime of diminished potential. During the past thirty years, says Sharman Russell, we have seen a revolution in how we treat these sick children and in how—with a new understanding of the human body and approach to nutrition, and new ways to reach out to hungry mothers and babies—we have gone from unwittingly killing severely malnourished children to bringing them back to health through the “miracle” of ready-to-eat therapeutic food. Intertwined with stories of scientists and nutrition experts on the front lines of finding ways to end malnutrition for good, Russell writes of her travels to Malawi, one of the poorest and least-developed countries in the world and also the site of pathbreaking, cutting-edge research into childhood malnutrition. (Eighty percent of Malawians are farmers subsisting on less than an acre of land and coping with erratic weather patterns due to global warming; fifty percent live below the poverty line; and forty-two percent of Malawi's children are affected by a lack of food or nutrients.) As she writes of her personal exploration of new friendships and insights in a country known as “the warm heart of Africa,” Russell describes the programs that are working best to reduce childhood stunting and explores how malnutrition in children is connected to climate change, how vitamins and minerals are preventing these harmful effects, why the empowerment of women is the single most effective factor in eliminating childhood malnutrition, and what the costs of ending childhood malnutrition are. Sharman Russell, much-admired writer of luminous prose and humane heart, whose writing has been called, “elegant” (*The Economist*) and “extraordinarily well-crafted, far-reaching, and heart-wrenching” (*Booklist*), winner of the John Burroughs Medal for distinguished natural history writing, has written an illuminating, inspiring book that makes clear the promise of what is today, gratefully, within our grasp.

From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—*Booklist* (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—*Library Journal* (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace,

confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide*
“Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Sarah incorporates her mindful, sustainable and economical practices to ditch the guilt and show how to quit sugar without also quitting chocolate. Here, she's compiled fructose-free recipes for the family, individuals and our little people. From the New York Times bestselling author of *I Quit Sugar* and *First, We Make the Beast Beautiful* comes this proven 2-week plan for reducing anxiety and beating one of its leading causes—sugar addiction—using 8 simple, sustainable dietary shifts. Eating more than 6 teaspoons of sugar a day? No wonder you're anxious. Anxiety has a lot to do with lifestyle choices, including what you put in your mouth. Sarah Wilson is an expert on sugar addiction and its connection to the most widespread mental health concern—chronic anxiety—affecting millions worldwide today. One in six people in the West alone suffer from an anxiety-related illness. While scientists know that anxiety is a chemical imbalance in the brain, recent studies have linked this condition to sugar consumption and inflammation in the gut. In *The Anti-Anxiety Diet*, Wilson unravels the cutting-edge science linking sugar addiction, inflammation, and gut health to mental health. “If you have fire in the gut,” Sarah advises, “you have fire in the brain.” And sugar is the primary culprit. The *Anti-Anxiety Diet* is her simple, 2-week jumpstart plan for eliminating sugar from your diet. Packed with delicious, easy-to-prepare recipes, 4-color photos, and detailed meal plans, it shows you how to replace the bad stuff (sugar) with the good stuff (whole, unprocessed foods), to soothe—and ultimately tame—the anxious beast. From New York Times bestselling author of *I Quit Sugar*, comes a cookbook with more than 300 satisfying recipes that make giving up sugar simple, sustainable, and delicious. Sarah Wilson's sugar-free promise is more than just a way of eating. The benefits to overall wellbeing—fewer mood swings, improved sleep patterns, and maintaining weight control—have transformed the idea into a way of life. With her new cookbook filled with one-pan wonders, grain-free breakfasts, leftover makeovers, smoothie bowls, and more, Sarah shows us that eliminating sugar is not only doable, but is also so delicious. Recipes include: Bacon 'N' Egg Quinoa Oatmeal, Caramelized Leek, Apple and Rosemary Socca, Two-Minute Desk Noodles, Red Velvet Crunch Bowl, and Chocolate Peanut Butter Crackles.

David Gillespie was 40kg overweight, lethargic, sleep-deprived and the father of four, with twins on the way. He knew he needed to lose weight fast, but he had run out of diets - all had failed. After doing some reading on evolution (why weren't our forebears fat?), David cut sugar - specifically fructose - from his diet. He immediately started to lose weight, and kept it off. Slim, trim and fired up, David set out to look at the connection between sugar, our soaring obesity rates and some of the more worrying diseases of the twenty-first century, and discovered some startling facts in the process. Sugar was once such a rare resource that nature decided we didn't need an off-switch - in other words, we can keep eating sugar without feeling full. In the space of 150 years, we have gone from eating no added sugar to more than a kilogram a week. You would need to run 7km every day of your life just to not put on weight as a result of eating that much sugar. Two decades ago 1 in 14 adult Australians were obese; that figure is now 1 in 5. The 'natural' sugar in one glass of unsweetened fruit juice per day for a year is enough to add just over 2.5kg your waistline. The more sugar we eat, the more we want. Food manufacturers exploit our sugar addiction by lacing it through 'non-sweet' products, such as bread, sauces, soups and cereals. *Sweet Poison* exposes one of the great health

scourges of our time and offers a wealth of practical and accessible information on how to avoid fructose, increase your enjoyment of food and lose weight.

'Quitting sugar is not a diet. Quitting sugar is a way of living without processed food and eating like our great-grandparents used to.' With her internationally bestselling book, *I Quit Sugar*, Sarah Wilson helped tens of thousands of people around the world to kick the habit. Drawing on extensive research and her own tried and tested methods, Sarah has designed a programme to help families and individuals: *banish cravings by eating good fats and protein *deal with lapses *maximize nutrition with vegetables *exercise less for better results *detox safely *make sustainable food choices *cook sugar-free: one hundred and forty-eight desserts, cakes, kids' stuff, comfort dinners, breakfasts and easy packed lunches *I Quit Sugar for Life* is not just about kicking a habit; it's a complete wellness philosophy for your healthiest, calmest, happiest self.

"I know so many people who have turned their lives around after reading Allen Carr's books." -Sir Richard Branson People are now so hooked on sugar that it's become the number one threat to health in the modern world. This book helps explain the truth about bad sugar and introduces a proven method to cut it out of your diet entirely. Once you free yourself from addiction, you'll feel happier and healthier, and you'll be able to choose the weight you want to be for the rest of your life. Allen Carr's *Easyway* is the most successful stop smoking method of all time. It works by unravelling the brainwashing that leads us to desire the very thing that is harming us, and it has now been applied to other areas. *The Easy Way to Quit Sugar* tackles the biggest dietary threat to the modern world: addiction to refined sugar and processed carbohydrates. With the brilliant additional writing skills and illustrations of Bev Aisbett, you'll free yourself of addiction and enjoy better health, higher levels of energy, dramatically improved body shape and a happier, healthier lifestyle.

Top New York chef and restaurateur Matthew Kenney and his partner, Sarma Melngailis, had been thinking of opening a Moroccan restaurant. But one night they were invited to a raw food restaurant -- and it changed their lives. They instead opened *Pure Food and Wine*, a restaurant devoted to creative, tasty raw food, and it has been drawing rave reviews. Dishes such as Zucchini and Green Zebra Tomato Lasagne, Golden Squash Pasta with Black Summer Truffles, and Dark Chocolate Ganache Tart with Vanilla Cream have given raw food a sexy new appeal. The decision to go raw was shocking at first for these two ex-carnivorous chefs, but they soon found that preparing and eating raw food made them and their guests feel their physical best. Melngailis noticed a difference almost immediately -- "Light, clean, natural, and alive foods make you feel light, clean, and more alive. And sexy." This new way of life has changed their outlook on eating and cooking and connects them to the world around them. As Kenney says, "Raw foods and the lifestyle associated with it are so compelling and complex that we will be forever learning and growing. Already it seems that we have discovered some of the magic that life offers." In this lushly photographed book, Kenney and Melngailis share some of that magic -- and show that preparing and eating raw does not mean bland, unsatisfying, or impossibly time-consuming meals. Using dehydrating, Vita-Mix blending, a nuanced understanding of spices, and unprecedented creativity, they explore a whole new outlook on raw food that transfers beautifully and easily from their kitchen to yours -- no matter what your present diet. And you'll immediately begin to reap the benefits of healthful, delicious, life-giving raw food.

As seen in USA Today's hottest releases and The Washington Post's 10 New Books Spotlight "Sarah Wilson is a force of nature – quite literally. She has taken her pain and grief about our sick and troubled world and alchemized it into action, advocacy, adventure, poetry, and true love." — ELIZABETH GILBERT Wake up and reclaim your one wild and precious life. New York Times bestselling author Sarah Wilson shows you how in this radical spiritual guidebook, the book we need NOW. Many of us are living with the sense that things are not right with

the world and are in a state of spiritual PTSD. We have retreated, morally and psychologically; we are experiencing a crisis of disconnection—from one another, from our true values, from joy, and from life as we feel we are meant to be living it. Sarah Wilson argues that this sense of despair and disconnection is ironically what unites us—that deep down, we are all feeling that same itch for a new way of living. Drawing on science, literature, philosophy and the wisdom of some of the world's leading experts, and her personal journey, Wilson offers a hopeful path forward to the life we love. En route, she shows us how to wake up and reconnect with life using “wild practices” that include:

- Hike. Embrace the “walking cure” as great minds throughout history have.
- Go to your edge. Do what scares you and embrace discomfort daily.
- #Buylesslivemore. Break the cycle of mindless consumption and get light with your life.
- Become a soul nerd. Light up your intellect with the arts.
- Get “full-fat spiritual”. Have an active practice and use it to change the world.
- Practice wild activism. Through sustained, non-violent protest we can create our better world. The time has come to boldly, wildly imagine better. We are being called upon, individually and as a society, to forge a new path and to find a new way of living. Will you join the journey?

A companion to *Add More ~Ing to Your Life* chronicles the author's spiritual journey through low self-esteem and drug abuse to counsel readers on how to overcome personal fears and achieve greater fulfillment, providing a range of positive affirmations, physical activities and meditations.

She found sugar was also triggering her frequent headaches, mood swings, and energy slumps. Now she is inspiring others to eat healthier and apply her approach to cut the sugar, not quit sugar entirely! The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed. Zelie Adebola remembers when the soil of Or sha hummed with magic. Burners ignited flames, Tiders beckoned waves, and Zelie s Reaper mother summoned forth souls. But everything changed the night magic disappeared. Under the orders of a ruthless king, maji were killed, leaving Zelie without a mother and her people without hope.

opus: a philosophical revolution told in the form of an action thriller—nominated as one of America’s best-loved novels by PBS’s The Great American Read. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand’s most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century’s leading artists.

Sarah Wilson is a New York Times and Amazon #1 bestselling author, entrepreneur and philanthropist. She's the founder of IQuitSugar.com, whose 8-Week Program has been completed by 1.5 million people in 133 countries. A former news journalist and editor of *Cosmopolitan*, she was the host of the first series of *MasterChef Australia* and is the author of the international bestsellers *First, We Make the Beast Beautiful*, *I Quit Sugar: Simplicious*, *I Quit Sugar* and *I Quit Sugar For Life*. Her latest book is *I Quit Sugar: Simplicious Flow*. She is ranked as one of the top 200 most influential authors in the world. Sarah blogs in an intimate fashion - on philosophy, anxiety, minimalism and anti-consumerism - at sarahwilson.com, lives in Sydney, Australia, rides a bike everywhere, is a compulsive hiker and is eternally curious. In *First, We Make the Beast Beautiful*, Sarah directs her intense focus and fierce investigatory skills onto this lifetime companion of hers, looking at the triggers and treatments, the fashions and fads. She reads widely and interviews fellow sufferers, mental health experts, philosophers, and even the Dalai Lama, processing all she learns through the prism her own experiences. Sarah pulls at the thread of accepted definitions of anxiety, and unravels the notion that it is a difficult, dangerous disease that must be medicated into submission. Ultimately, she re-frames anxiety as a spiritual quest rather than a burdensome affliction, a state of yearning that will lead us closer to what really matters. Practical and poetic, wise and funny, this is a small book with a big heart. It will encourage the myriad sufferers of the world's most common mental illness to feel not just better about their condition, but delighted by the possibilities it offers for a richer, fuller life. After changing your everyday eating habits, you will begin to gain a new understanding of how food works in your body—and just how much nutrition affects your entire life. There's no reason to wait! SUGAR IS TAKING OVER OUR LIVES. But why? And is it only those sweet, refined white crystals that are causing us problems, or could there be more to the story? Let's be honest: The problem isn't just sugar itself. It's the refined, nutrient-poor carbohydrates that carry tons of calories, but no real nutrition. In our world, these are the easiest foods to grab on the go, but they leave us fat, sick, tired, and downright unhappy. The effect that sugar, "hidden" carbs, and refined, processed foods have on our bodies goes far beyond our waistlines. We can't focus, we can't sleep, we have irrational mid-afternoon cravings, and we can't even make it through the day without wanting—or needing—to prop up our energy levels with caffeine or even more sugar! What can we do to break free from this cycle? The 21-Day Sugar Detox is here to help.

For fans of the New York Times bestseller *I Quit Sugar* or Katie Couric's controversial food industry documentary *Fed Up, A Year of No Sugar* is a "delightfully readable account of how [one family] survived a yearlong sugar-free diet and lived to tell the tale...A funny, intelligent, and informative memoir." —Kirkus It's dinnertime. Do you know where your sugar is coming from? Most likely everywhere. Sure, it's in ice cream and cookies, but what scared Eve O. Schaub was the secret world of sugar—hidden in bacon, crackers, salad dressing, pasta sauce, chicken broth, and baby food. With her eyes opened by the work of obesity expert Dr. Robert Lustig and others, Eve challenged her husband and two school-age daughters to join her on a quest to quit sugar for an entire year. Along the way, Eve uncovered the real costs of our sugar-heavy American diet—including diabetes, obesity, and increased incidences of health problems such as heart disease and cancer. The stories, tips, and recipes she shares throw fresh light on questionable nutritional advice we've been following for years and show that it is possible to eat at restaurants and go grocery shopping—with less and even no added sugar. *Year of No Sugar* is what the conversation about "kicking the sugar addiction" looks like for a real American family—a roller coaster of unexpected discoveries and challenges. "As an outspoken advocate for healthy eating, I found Schaub's book to shine a much-needed spotlight on an aspect of American culture that is making us sick, fat, and unhappy, and it does so with wit and warmth."—Suvir Sara, author of *Indian Home Cooking* "Delicious and compelling, her book is just about the best sugar substitute I've ever encountered."—Pulitzer Prize-winning author Ron Powers
