President Truman famously said, "If you want a friend in Washington, get a dog." And a dog is what many presidents got. From James Garfield to Calvin Coolidge to Richard Nixon, presidents often found a friend in Fido (in fact, Abe Lincoln's pup was actually named Fido). Others preferred cats, horses, small critters, or even big, ferocious animals like bears and alligators. With a catchy refrain ("If you want a friend in Washington . . . ,"), this is a funny, educational book about the animals that have passed through the White House. Whether it's favorite dogs like Barbara Bush's Millie or the Obamas' Bo; Abraham Lincoln's cat, Dixie; Calvin Coolidge's hippo, Billy; or Andrew Jackson's foul-mouthed parrot, Poll, Erin McGill brings to life a menagerie of presidential pets in this entertaining, whimsical, and carefully researched picture book that's perfect for animal lovers and history buffs alike.

Once my mother could understand all that I was trying to explain to her about the accident, my mother and I went back to the Cook House to see what had happened with regard to this accident. However, when we got to the Cook House, where I had seen the accident happened, we found that everything was okay everything was in place - and there were no sign of an accident, nor had anyone died.

This book is premised on the conviction that being a successful principal is more than being a good manager. Becoming an effective school leader means understanding the culture as well as acquiring the technical skills. The book

discusses the personalities and value systems that school leaders need to succeed. It is designed for first-year administrators and graduate students who will find it a gauge in determining what it takes to become a successful principal. In the textbook world, schools and school districts are described as a culture that places high value on, and supports and enhances, openness, high trust, caring, and sharing. It is a culture that strives for consensus but supports and values differences, and that advocates human growth and development. However, in the real world of schools and school districts, principals may eventually achieve the textbook definition, but they will have to earn and maintain that right. This book is designed to help the reader find the starting line to becoming an effective principal. It is designed to teach prospective and current administrators how to lead rather than just apply technical skills. Key issues include matching one's personality with the role of principal; navigating the school culture successfully; changing the organization without alienating the culture; and marketing oneself as well as the school.
