Based on thorough and extensive research, this book examines in detail traditional status signals in the translation profession. It provides case studies of eight European and non-European countries, with further chapters on sociological and economic modelling, and goes on to identify a number of policy options and make recommendations on rectifying problem areas.

The purpose of this handbook is to provide a text and reference material in System Analysis and Cost-Effectiveness. It is intended for those technical, scientific, management, and administrative personnel who are responsible for preparing information, making decisions or reviewing decisions made by others regarding life-cycle cost, system effectiveness (availability, dependability, capability), or technical feasibility of a system or equipment at any phase in its life cycle. The handbook consists of four chapters: (1) an introduction to the concept of system analysis and cost-effectiveness; (2) a basic framework, or general methodological approach, for conducting and reviewing cost-effectiveness or system analysis studies; (3) a set of techniques (linear programming, queueing theory, simulation, etc.) that can be used for performing cost-effectiveness and system analysis studies; and (4) a review of the basic mathematical and statistical concepts that underlie the scientific approach in the system analysis/cost-effectiveness process.

Peritoneal Surgery addresses the response of the peritoneum to injury and the prevention of post-surgical adhesions resulting from general and gynecologic surgery. Adhesions, or scar tissue binding two normally separate surfaces, form when the peritoneum, the membrane covering the abdominal wall and protecting the inner organs, is damaged during surgery, inflammation, or injury. Negative complications from adhesions include pelvic pain, infertility, intestinal obstruction, multiple surgical complications resulting from surgery to remove or pull them apart, and therefore a greater surgical workload and economic burden to the healthcare system. In this book, experts in the field address peritoneal repair, the role of surgical technique to prevent adhesions, adhesion formation, complications of adhesions, and developing technology in the prevention of adhesions.

Course: Principles of Management is the introductory course taken by most undergraduate business majors. Almost every text/course is organized around the four functions of management: planning, leading, organizing, and controlling (PLOC). What makes the texts different are their approach to the subject (principles vs. OB focused) and their strengths of coverage (high/strategic vs. low level/applied/skills). The aim of this text is to show how the four functions interact.

A study, focusing on Italy, of the actual features of men's and women's work in the light of the determinants of occupational sex-typing proposed from various perspectives, including feminism.

Ontologies are viewed as the silver bullet for many applications, but in open or evolving systems, different parties can adopt different ontologies. This increases heterogeneity problems rather than reducing heterogeneity. This book proposes ontology matching as a solution to the problem of semantic heterogeneity, offering researchers and practitioners a uniform framework of reference to currently available work. The techniques presented apply to database schema matching, catalog integration, XML schema matching and more.

A history of Camp Travis and its part in the action of World War 1. Contains photographs of the various Companies that passed through the Camp.

Gathered together by Tanja Backe, this book presents 1500 ticket stubs from all over the world. Two-decades in the making, this collection originates from every imaginable source (including tickets from airplanes, trains, ferries, buses, the metro, cloakrooms and parking lots, bank slips, taxi receipts, inspection labels, as well as admission tickets to museums, zoos, reptile exhibits, theatres, cinemas, circuses, operas, concerts and ballets). With the tickets printed actual-size, one-to-one, non-scaled and arranged according to colour graphics, the non-linear and non-chronological quality of the book allows reading in any order, according to individual tastes and interests.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

For courses in Probability and Random Processes. An accessible, yet mathematically solid, treatment of probability and random processes.

Detailed yet accessible, Translation and Localization brings together the research and insights of veteran practicing translators to offer comprehensive guidance for technical communicators.

The volume begins with the fundamentals of translation before leading readers through the process of preparing technical documents for translation. It then presents the broader area of localization, again beginning with its key competencies. Concluding chapters examine the state of the field as computers take on more translation and localization work. Featuring real-life scenarios and a broad range of experienced voices, this is an invaluable resource for technical and professional communicators looking to expand into international markets. This book will be

of interest to students of ethnic conflict, Asian politics, and security studies.

Originally published in 1979, *Chicanos in a Changing Society* was among the first studies to focus on the history of Mexican Americans, specifically the development of Mexican American society from the Mexican War to the Great Depression. Camarillo's book underscored the diversity of the Chicano experience and its relationship to the wider society. A quarter century later, Chicano history has become a dynamic field of American history with a rich and diverse literature.

This book provides an up-to-date and comprehensive primer on image-guided interventions for cancer. Image-guided interventional oncology is gaining popularity as it is a minimally invasive and more precisely targeted approach that both proves more effective and results in fewer side effects. This book's aim is to provide a clinical guide to interventional oncology for the entire oncology team. Chapters are approached with the same interdisciplinary perspective that is used in the care itself, with each chapter written by an interventional radiologist with contributions from medical, surgical and/or radiation oncologists. Chapters cover the major cancers that can benefit from interventional oncology treatment (including lung, liver, kidney, and bone), as well as some of the physics and physiology behind these interventional modalities. This is an ideal guide for interventional radiologists, medical oncologists, surgical oncologists, radiation oncologists, as well as relevant trainees.

Between 2006 and 2011, the Institute for the Study of Global Antisemitism and Policy (ISGAP) established and sponsored the Yale Initiative for the Interdisciplinary Study of Antisemitism (YIISA), the first academic research center dedicated to the study of antisemitism based at a North American university. During its mandate, YIISA hosted a successful graduate and post-graduate fellowship program, research projects, and a high-level interdisciplinary seminar series at Yale University. The present volume - *The Yale Papers: Antisemitism in Comparative Perspective* - includes a selection of the papers presented in the framework of this seminar series, as well as several other working papers, conference papers, and lectures commissioned by or submitted to YIISA by eminent scholars and researchers from around the world. In addition to providing a fascinating overview and scholarly analysis of some of the many facets of historical and contemporary antisemitism around the globe, this volume stands as a solid and incontrovertible testament to the abundant - and, above all, productive - academic activity that characterized YIISA's truncated tenure at Yale University. Table of contents: Introduction, Charles Asher Small; Anti-Israel Sentiment Predicts Antisemitism in Europe, Edward H. Kaplan and Charles A. Small; The Road to an Internationally Accepted Definition of Antisemitism, Dina Porat; Hitler's Legacy: Islamic Antisemitism in the Middle East, Matthias Küntzel; Continuities, Discontinuities, and Contingencies: Anti-Alienism, Antisemitism, and Anti-Zionism in Twentieth-Century South Africa, Milton Shain; Anti-Zionism and Antisemitism: Cosmopolitan Reflections, David Hirsh; This Green and Pleasant Land: Britain and the Jews, Shalom Lappin; Never Again? When Holocaust Memory Becomes Empty Rhetoric, a Diplomatic Tool, and a Weapon against Israel, Walter Reich; Leo Strauss as a Jewish Thinker, Steven Smith; The Academic and Public Debate over the Meaning of the "New Antisemitism," Roni Stauber; Western Culture, the Holocaust, and the Persistence of Antisemitism, Catherine Chatterley; Demonizing Israel: Political and Religious Consequences among Israelis, Yossi Klein Halevi; Uncivil Society: Ideology, the Durban Strategy, and Antisemitism, Gerald Steinberg; Victims of Success: How Envious Antisemitism Fosters Genocidal Intent and Undermines Moral Outrage, Peter Glick; Why Well-Intentioned Westerners Fail to Grasp the Dangers Associated with Islamic Antisemitism: Some Arguments Considered, Neil Kressel; Trauma in Disguise: The Effects of Antisemitism, Hadar Lubin; Mixed Emotional Needs of Israeli-Jews as a Potential Source of Ambivalence in their Response to the Iranian Challenge, Nurit Shnabel and John F. Dovidio; Global Antisemitism: Assault on Human Rights, Irwin Cotler; The Principles and Practice of Iran's Post-Revolutionary Foreign Policy, Brandon Friedman; Missing from the Map: Feminist Theory and the Omission of Jewish Women, Jennifer Roskies; 1948 as Jihad, Benny Morris; Jews in China: Legends, History, and New Perspectives, Pan Guang; Our World of Contradictions: Antisemitism, Anti-Tutism, and Never Again, Berthe Kayitesi; Two Steps Forward, One Step Back: Diplomatic Progress in Combating Antisemitism, Michael Whine; Memetics and the Viral Spread of Antisemitism through "Coded Images" in Political Cartoons, Yaakov Kirschen; From Sayyid Qutb to Hamas: The Middle East Conflict and the Islamization of Antisemitism, Bassam Tibi; Israel, Jordan, and Palestine: One State, Two States, or Three?, Asher Susser; A "Paradise of Parasites": Hannah Arendt, Antisemitism, and the Legacies of Empire, Dorian Bell; "I Don't Know Why They Hate Us - I Don't Think We Did Anything Bad to Hurt Them," Nora Gold.

The poems attributed to Omar Khayyam have a universal and timeless philosophical theme: life is a meaningful journey even if brief and uncertain. They inspire an unconstrained free-thinking mindset and a wise realization that guides thinking persons: it is impossible to see the absolute truth, as the universe has its own reality that remains largely hidden, and that one must think and act accordingly. This book presents a selection of Khayyam's poems in their original Persian language along with their English translations in a faithful and modern version. By relying only on the original Persian version of Khayyam's poems, and using the author's own body of literary and linguistic knowledge, this book presents a modern translation of Omar Khayyam's poems since Edward Fitzgerald's *Rubaiyat* in 1859.
