Mathematics is an integral part of scientific study, and one that students often find a barrier to progression in science. Students can find it difficult to apply maths knowledge to science scenarios, even if they have encountered the maths concept previously. The Maths Skills for Cambridge IGCSE Biology write-in workbook allows students to practise their maths skills in science contexts. This resource has been written in collaboration with the Association for Science Education (ASE), based on research carried out with the Nuffield Foundation. The accompanying teacher's guide provides support for teachers to teach mathematical concepts in science lessons.

This book includes extensive use of annotated illustrations and activities to actively teach Biology. It is extremely clearly written with concepts made relevant to student experience. There is a wealth of examination questions and the structure of the book closely follows the CIE IGCSE syllabus. It is written by an authoritative and experienced author with many years experience in teaching and writing. It has been designed with a 2 page layout allowing students to quickly understand and access particular content. This revision tool is a must for all Cambridge IGCSE Maths students. It can be used as an ongoing reference book or as an aid for final exam preparation. All areas of the CIE syllabus are covered and examples are used that are typical of past-paper questions with each step fully explained, answers provided and grade descriptions available.

This highly respected and valued textbook has been the book of choice for Cambridge IGCSE students since its publication. This second edition, complete with CD-ROM, continues to provide comprehensive, up-to-date coverage of the core and extended curriculum topics specified in the Cambridge IGCSE Biology syllabus.
