They bring out the worst in each other until they're running for their lives... Morgan Taylor, D.C. socialite and wildlife biologist, leads a charmed life until everything changes with a phone call. Her research team has been found dead—slaughtered—in backcountry Montana. As the case grows cold, Morgan is determined to unravel the mystery behind her friends' gruesome deaths. Despite the dangers of a murderer still free, nothing will stand in her way, not even the bodyguard her father hires, L.A.'s top Close Protection Agent, Hunter Phillips. Sparks fly from the start when no-nonsense Hunter clashes with Morgan's strong-willed independence. Their endless search for answers proves hopeless—until Hunter discovers the truth.

First published as a special issue of Policy & Politics, this updated volume explores the intersections between governance and media in western democracies, which have

undergone profound recent changes. Many governmental powers have been shifted toward a host of network parties such as NGOs, state enterprises, international organizations, autonomous agencies, and local governments. Governments have developed complex networks for service delivery and they have a strategic interest in the news media as an arena where their interests can be served and threatened. How do the media relate to and report on complex systems of government? How do the various governance actors respond to the media and what are the effects on their policies? This book considers the impact of media-related factors on governance, policy, public accountability and the attribution of blame for failures.

The twenty stimulating and original essays in this volume provide a comprehensive analysis of the main strands of modern Indian political thought. The thinkers discussed are Rammohun Roy, Dayananda Saraswati, Bankimchandra Chattopadhyay, Ranade, Phule, Tilak, B R Ambedkar, Tagore, Sri Aurobindo, M N Roy, Jawaharlal Nehru and Gandhi. Separate essays are devoted to the Hindu and Muslim traditions in Indian political thought, Hindu nationalism, and the ideologies of the Communist and Sarvodaya movements. A significant feature of these essays is that they study each thinker or movement in the relevant socio-historical context as also examine the consequences and impact of modern Indian political theories, These are analysed from a world-historical and, to some extent, a political economy perspective. The essays in this collection highlight two major streams in modern Indian political thought--one which

favoured the adoption or adaptation of western political traditions and the other which sought to evolve indigenous or alternative formulations. The overall conclusion that emerges from this volume is that in order to formulate an adequate political philosophy for the modern age, both the western and Indian traditions have to be taken into account. In this context, some of the essays highlight the contemporary global relevance of Gandhi's socio-political ideas. This book is a major contribution to modern political philosophy. It will be of great value to students and teacher of political science.
