Farmall 100 Years Randy Leffingwell,2022-10-04 In *Farmall 100 Years*, award-winning tractor author, photographer, and historian Randy Leffingwell offers a richly illustrated and detailed book that captures the full story of the iconic tractors. Farmall tractors are among the most influential and iconic farm machines in history. From the first model in 1923 to their final model year in 1973, International Harvester revolutionized the tractor world by conceiving the Farmall brand, revolutionary all-purpose tractors designed for small- to medium-sized farms. Beautiful, contemporary photos and rare historical images accompany in-depth analyses of milestone tractors. The engaging text examines engineering developments, their historical context, and key figures. Notably, the story is told through the lens of the three dozen most influential Farmalls across the brand's history. From the Farmalls to the legendary and best-selling Letter Series unveiled in the 1930s, the entry-market Cub launched in 1947, the Hundred Series introduced in 1954, and beyond, Leffingwell provides a unique, unprecedented perspective on a farming giant. By 1947, Farmall had built over 1 million tractors. Amazingly, many are still in use today as collector vehicles as well as working farm tractors. *Farmall 100 Years* brings the story to life in the ultimate tribute to these enduring machines.

The Modernist Papers Fredric Jameson,2016-03-08 Cultural critic Fredric Jameson, renowned for his incisive studies of the passage of modernism to postmodernism, returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed *A Singular Modernity* . *The Modernist Papers* is a tour de force of analysis and criticism, in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries. Jameson discusses modernist poetics, including intensive discussions of the work of Baudelaire, Rimbaud, Mallarmé, Wallace Stevens, Joyce, Proust, and Thomas Mann. He explores the peculiarities of the American literary

field, taking in William Carlos Williams and the American epic, and examines the language theories of Gertrude Stein. Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression; while the complexities of a late modernist representation of twentieth-century politics are articulated in a concluding section on Peter Weiss's novel *The Aesthetics of Resistance*. Challenging our previous understanding of the literature of this period, this monumental work will come to be regarded as the classic study of modernism.
