Commentary of Hikam al-Ata'iyah by ibn 'Abdullah ibn Ibrahim ibn 'Abba al-Nafazi al-Rundi known as Ibn Abbad al-Rundi. English Translation by Guiding Helper Foundation.

Witchcraft for Tomorrow answers many frequently asked questions about witchcraft including: 'How can I find a witches' coven?' and 'How can I become a witch?' Doreen Valiente tells you what the old religion of witchcraft has to offer the new age of Aquarius; how the age-old Craft of the Wise can be practised in the modern world; how to initiate yourself as a witch and found your own coven. The author, who was the leading figure in the establishment of the modern Wiccan movement, includes a new Book of Shadows (the witches' handbook of rituals and instructions) based upon ancient magical tradition but geared to the age of the future. There are witch songs, spells, incantations and practical advice on how to run a coven and how to acquire your own collection of magical implements; as well as methods of divination and other witch lore. The author shows how the oral traditions of witchcraft throw light not only upon the origins of the present-day witch cult and the activities of the witch leader George Pickingill and his covens, but also upon the mystery of the founding of the famous magical order, the Golden Dawn. Also discussed is the relationship between the witchcraft of Britain and Europe and the magical belief of the Far East. Do both traditions hark back to the legendary city of Shamballah and to the shamanistic practices of Asia? And why do the secret circles of the witches resemble those of the Tantric sex-magic of India?

Many books have been written about the life of the Prophet Muhammad (SAW). In writing this book, the author had a specific objective. He used the life of the Prophet (SAW) to go onto depth about the Prophet (SAW) many historians only touched on the various aspects of his life. This book goes into detail and provides reasons and explanations for whatever took place. It is a blend of modern analysis and ancient detail. Its objective is to nurture faith, purify characters and fan the struggle to embrace the truth and be faithful to it. Indeed, the life of the Prophet (SAW) has been documented as a message for practical implementation, not intellectual entertainment. You may think that you have studied the life of Muhammad by following his history from birth to death but this is a grave mistake. You will never really understand the Sirah unless you study the noble Qur'an and the purified Sunnah. The amount that you derive from these will tell the strength of your connection with the prophet of Islam, sallallahu `alaihi wa sallam' From the Epilogue An important work of the Egyptian scholar Sheikh Muhammad al-Ghazali. Drawing upon his profound classical Islamic learning and an extensive knowledge of modern science, Sheikh al-Ghazali has broken new ground in the study of Seerah, bringing to bear a fresh but wholly authentic approach. This is a work which all serious students should have, to complement the Seerah of the Prophet Muhammad (SAW)

Includes a chapter on the character of the prophet Muhammad, and one on lives of the saints, including women saints. The study of Islamic education has hitherto remained a tangential inquiry in the broader focus of Islamic Studies. In the wake of this neglect, a renaissance of sorts has occurred in recent years, reconfiguring the importance of Islam's attitudes to knowledge, learning and education as paramount in the study and appreciation of Islamic civilization. Philosophies of Islamic Education, stands in tandem to this call and takes a pioneering step in establishing the importance of its study for the educationalist, academic and student alike. Broken into four sections, it deals with theological, pedagogic, institutional and contemporary issues reflecting the diverse and often competing notions and practices of Islamic education. As a unique international collaboration bringing into conversation theologians, historians, philosophers, teachers and sociologists of education Philosophies of Islamic Education intends to provide fresh means for conversing with contemporary debates in ethics, secularization theory, child psychology, multiculturalism, interfaith dialogue and moral education. In doing so, it hopes to offer an important and timely contribution to educational studies as well as give new insight for academia in terms of conceiving learning and education.

Grimassi has written extensively about Wicca, and Llewellyn specializes in books sympathetic to occult ways, so the

combination is pretty predictable. He describes not only the usual magic practices, but also the religious and spiritual aspects of what believers say is inherited ancient European wisdom and scoffers say is made-up, new-age nonsense.

Does history matter? This book argues not that history matters, but that Islamic history does. This Very Short Introduction introduces the story of Islamic history; the controversies surrounding its study; and the significance that it holds - for Muslims and for non-Muslims alike. Opening with a lucid overview of the rise and spread of Islam, from the seventh to twenty first century, the book charts the evolution of what was originally a small, localised community of believers into an international religion with over a billion adherents. Chapters are also dedicated to the peoples - Arabs, Persians, and Turks - who shaped Islamic history, and to three representative institutions - the mosque, jihad, and the caliphate - that highlight Islam's diversity over time. Finally, the roles that Islamic history has played in both religious and political contexts are analysed, while stressing the unique status that history enjoys amongst Muslims, especially compared to its lowly place in Western societies where history is often seen as little more than something that is not to be repeated. Some of the questions that will be answered are: - How did Islam arise from the obscurity of seventh century Arabia to the headlines of twenty first century media? - How do we know what we claim to know about Islam's rise and development? - Why does any of this matter, either to Muslims or to non-Muslims? "In this stunningly written book, a Western trained Muslim doctor brings alive what it means for a woman to live in the Saudi Kingdom. I've rarely experienced so vividly the shunning and shaming, racism and anti-Semitism, but the surprise is how Dr. Ahmed also finds tenderness at the tattered edges of extremism, and a life-changing pilgrimage back to her Muslim faith." - Gail Sheehy The decisions that change your life are often the most impulsive ones. Unexpectedly denied a visa to remain in the United States, Qanta Ahmed, a young British Muslim doctor, becomes an outcast in motion. On a whim, she accepts an exciting position in Saudi Arabia. This is not just a new job; this is a chance at adventure in an exotic land she thinks she understands, a place she hopes she will belong. What she discovers is vastly different. The Kingdom is a world apart, a land of unparalleled contrast. She finds rejection and scorn in the places she believed would most embrace her, but also humor, honesty, loyalty and love. And for Qanta, more than anything, it is a land of opportunity. A place where she discovers what it takes for one woman to recreate herself in the land of invisible women.

This book takes on the task of determining the challenges and problems of the Muslim Umma in the recent past, the present and, more importantly, in the future and suggest practical solutions for them. Obviously, one short book can hardly address all these issues and suggest solutions without certain simplifications and potentially controversial assertions.

Islamic Thought is a fresh and contemporary introduction to the philosophies and doctrines of Islam. Abdullah Saeed, a distinguished Muslim scholar, traces the development of religious knowledge in Islam, from the pre-modern to the modern period. The book focuses on Muslim thought, as well as the development, production and transmission of religious knowledge, and the trends, schools and movements that have contributed to the production of this knowledge. Key topics in Islamic culture are explored, including the development of the Islamic intellectual tradition, the two foundation texts, the Qur'an and Hadith, legal thought, theological thought, mystical thought, Islamic Art, philosophical thought, political thought, and renewal, reform and rethinking today. Through this rich and varied discussion, Saeed presents a fascinating depiction of how Islam was lived in the past and how its adherents practise it in the present. Islamic Thought is essential reading for students beginning the study of Islam but will also interest anyone seeking to learn more about one of the world's great religions.

This is the only book of its kind on witchcraft that has been written by a practising witch. It is intended to be not merely a history, but a guide to the many strange byways of a vast and fascinating subject. Witchcraft is as old as the human race, and it is actively practised today, by people of all classes. To its devotees, witchcraft is more than spells and charms, or even secret meetings and rituals; it is a philosophy and a way of life. It claims to be the oldest form of religion, that of nature-worship and magic. Since the last Witchcraft Act was repealed in 1951, the revival of public interest in witchcraft has been the subject of continuous controversy. This book is a serious contribution to the study of a subject too long obscured by prejudice and sensationalism.

All of us wonder about the way the Messenger (PBUH) was with his wives. How he dealt with them? How he treated them equally? How was the Prophet Treating his Wives? What was the Prophet's way in treating his wives? How could he treat them equally? The Prophet (PBUH) accomplished the happiness to every one of them; that is because he knew how to deal with women and he penetrated deeply into her sensitive soul and went on apostrophizing her with the warmth of passion and assisted her to work for her religion and her life. And what about his wives-the Mothers of all believers -? If we searched to know about their lives, we will find that most of the books describe the Prophet's wives with a common quality; fasting a lot and spending their nights praying.

Dalam keadaan apa pun, di manapun kita merasakan kehadiran Allah. Bila ini yang kita lakukan, maka tidak ada lagi yang perlu ditakutkan dan dikhawatirkan. Kita terjaga dari perbuatan-perbuatan yang melanggar, karena kita tahu ada yang mengawasi. Pada saat inilah, kita merasakan adanya energi cahaya illahi. [Mizan, Hikmah, Cerita, Remaja, Indonesia]
