

Il Dottor Prottor E La Superpolvere Per Petonauti

A mysterious postcard leads Lisa and Nilly from Oslo to Paris in search of Doctor Proctor but, once there, all they find of their friend is a time-traveling bathtub powered by a special soap and several sinister individuals looking for him.

La rapina del secolo ha messo la Norvegia in ginocchio. Solo Tina, Bulle e il dottor Prottor possono recuperare la refurtiva e salvare la nazione. Ma non sarà facile, dovranno trasformarsi nel trio di spie più esperto del mondo: altro che James Bond! Inseguimenti, adrenalina, partite di knock poker e tante nuove e strampalate invenzioni del dottor Prottor, per l'intrigo internazionale più pazzo di sempre!

"Large helpings of whimsy, humorous black-and-white illustrations, and the occasional fart joke provide plenty of silliness" (Booklist) in the third Doctor Proctor adventure from New York Times bestselling author Jo Nesbø. Nilly, Lisa, and Doctor Proctor are too busy inventing things to watch TV, and everyone says they're missing out on the hot singing competition. But then Nilly and Lisa notice that their friends and family are acting really weird. And the only people acting weird...are the ones watching TV. What's going on is WAY bigger than a singing competition. It could mean the end of the world. Or a silent but deadly could save everything! Let 'er rip.

Phillips and Ruth Lee Thygeson were pioneers in medical research on external diseases of the human eye. Together, this husband-and-wife team shared a mutual story of extraordinary accomplishment including, among other things, the discovery of the cause of trachoma, a potentially blinding disease that affects millions of people worldwide. This comprehensive biography tells the story of their personal lives and careers. Beginning with their family backgrounds, the story continues through their meeting on the campus of Stanford University, their years of practicing "frontier medicine" in rural Colorado (where they built a log cabin with their own hands), their world travels in search of a cure for trachoma, and their considerable roles in establishing the Francis I. Proctor Foundation for Research in Ophthalmology. The story of this couple is one of a lifelong collaboration in medicine, a 70-year love affair, and an unending quest to conquer preventable blindness around the world.

Considers status of DOD food irradiation research programs. Focuses on Army Dept cancellation of plans to construct an Ionizing Radiation Center at Stockton, Calif. b. "Logistic and Economic Feasibility Study on Radiation Sterilization of Foods," Quartermaster and Container Inst for the Armed Forces, June 28, 1955 - Aug. 28, 1956 (p. 475-569). c. "Evaluation of Size of USAIRC and Logistics of Irradiated Meat," Rpt to Quartermaster Radiation Planning Agency, Quartermaster RPD Command, Dec. 11, 1959 (p. 571-627). a. "Food Preservation by Ionizing Energy," Army Dept, Office of the Quartermaster Gen, Dec. 1959 (p. 147-235). Includes following reports. Continuation of hearings on the Army's revised national food irradiation programs, "Medical Nutrition Laboratory: "An assessment of the possible effects to human beings of short-term consumption of food sterilized with gamma rays" p. 771-804; An evaluation in human beings of the acceptability, disestibility, and toxicity of port sterilized by gamma radiation and storied at room temperature" p. 805-822; Short-term human feed in studies of foods sterilized by gamma radiation and stored at room temperature," p. 823-850.

S.N.O.W. Everyday is a guide for reflecting on scripture. It is a journal for expressing your unique thoughts. It is a tool that will help you to see yourself as God created you to be; unique in your own way. As you use S.N.O.W. Everyday, you will become more aware of the unique you. Dr. Patricia Evonne Coker-Bell is an educator, a minister and workshop presenter. She served as a teacher in the Chesapeake Public City Schools. Dr. Coker-Bell is a graduate of the Samuel DeWitt Proctor School of Theology at Virginia Union University. She is the Assistant Christian Education Director for Training and Development, an Associate Minister and a member of Grove Church in Portsmouth, VA. She lives with her husband Alex and their son, Isaac, in Chesapeake, Virginia.

Up to 1988, the December issue contains a cumulative list of decisions reported for the year, by act, docket numbers arranged in consecutive order, and cumulative subject-index, by act.

Considers (82) S.J. Res. 20, (82) S. 940.

When a Russian billionaire robs the Norwegian Gold Reserve and melts the last remaining gold bar into the Premier Soccer League trophy, it's up to Doctor Proctor, Nilly and Lisa to get the trophy and save Norway. But with a failed break-in attempt into the billionaire's subterranean gold-melting lab and the Norwegian Gold Reserve Inspection only three days away, the only way to retrieve the trophy is to win it back. Hoping to prevent national panic and uproar, Nilly and Lisa join the Rotten Ham soccer team and use the Fartonaut Powder, along with a handful of Doctor Proctor's other wacky inventions, to try and lead the hopeless underdog team to victory before time runs out.

This book discusses the role of human personality in the study of behavioral cybersecurity for non-specialists. Since the introduction and proliferation of the Internet, cybersecurity maintenance issues have grown exponentially. The importance of behavioral cybersecurity has recently been amplified by current events, such as misinformation and cyber-attacks related to election interference in the United States and internationally. More recently, similar issues have occurred in the context of the COVID-19 pandemic. The book presents profiling approaches, offers case studies of major cybersecurity events and provides analysis of password attacks and defenses. Discussing psychological methods used to assess behavioral cybersecurity, alongside risk management, the book also describes game theory and its applications, explores the role of cryptology and steganography in attack and defense scenarios and brings the reader up to date with current research into motivation and attacker/defender personality traits. Written for practitioners in the field, alongside nonspecialists with little prior knowledge of cybersecurity, computer science, or psychology, the book will be of interest to all who need to protect their computing environment from cyber-attacks. The book also provides source materials for courses in this growing area of behavioral cybersecurity.

"When a Russian billionaire robs the Norwegian Gold Reserve and melts the last remaining gold bar into the Premier Soccer League trophy, it's up to Doctor Proctor, Nilly and Lisa to recapture it"--

Dr. Proctor, Nilly, and Lisa set out to find Santa and save Christmas after the king of Norway sells the rights to the holiday to money-hungry Mr. Thrane.

The Fart Powder was such a successful invention that Doctor Proctor couldn't stop there. Next up: a Time-travel Bath Bomb. Throw the Bath Bomb in the tub, lather up and imagine where you'd like to visit. The battle of Waterloo? No problem. The French Revolution? Let's go! Doctor Proctor has plans for this new invention. Years ago he lost his true love, Juliette Margarine, and now he wants to change the past and win her back. But when his plan goes awry, it's up to Nilly and Llsa to travel in time and save the day. Includes proceedings of the Association, papers read at the annual sessions, and list of current medical literature.
