She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

A new edition of Bulgakov's fantastical precursor to *The Master and Margarita*, part of Melville House's reissue of the Bulgakov backlist in Michael Glenny's celebrated translations. A key work of early modernism, this is the superbly comic story of a Soviet scientist and a scroungy Moscow mongrel named Sharik. Attempting a medical first, the scientist transplants the glands of a petty criminal into the dog and, with that, turns a distinctly worryingly human animal loose on the city. The new, lecherous, vulgar, Engels-spouting Sharik soon finds his niche in governmental bureaucracy as the official in charge of purging the city of cats. A Frankenstein fable that's as funny as it is terrifying, *Heart of a Dog* has also been read as a fierce parable of the Russian Revolution. It was rejected for publication by the censors in 1925, and circulated in samizdat for years until Michael Glenny translated it into English in 1968—long before it was allowed to be officially published in the Soviet Union. That happened only in 1987, although till this day the book remains one of Mikhail Bulgakov's most controversial novels in his native country.

Explains how to analyze the meaning of physical traits that indicate the horse's true personality -- his inborn character. Teaches you to determine if the horse's personality has been affected adversely by stress or pain caused by poor health, inadequate living conditions, or a riding discipline not suited to the horse's conformation. Explains how you can develop a deeper understanding in order to bond with your horse and influence his personality in the positive way.

Una vita intensa e complicata quella di Stella, pastore tedesco, quasi come quella dell'autrice, diventata a un certo punto la sua proprietaria. Stella nonostante le molte difficoltà che ha incontrato nella sua esistenza, peraltro quasi tutte dovute alla cattiveria o all'incuria umana, ce l'ha fatta. Nel libro, nonostante ormai per forza di cose lei non ci sia più, non si parla della sua morte quindi si può leggere tranquillamente. Non ci saranno, alla fine della storia, peraltro autentica, singhiozzi e sospiri perché quel cane che per tante pagine ci ha fatto ridere e suscitato tenerezza, muore. Nel libro ci si commuove e si ride, del resto chi ha avuto a che fare con gli animali sa bene che questo succede con loro. Ma si riflette anche, e ci si appassiona alla sua non comune storia, allo sviluppo delle indagini della polizia, alle ipotesi sull'identità del colpevole. Con lei l'autrice ha potuto e dovuto intraprendere un lungo percorso, spesso difficile ma sempre appagante, per rendere entrambe esseri viventi educati e consapevoli. Attraverso

questa storia, l'autrice vuole sensibilizzare le persone al rispetto vero per gli animali, a far loro posto nella propria vita e non solo nel proprio giardino, a rispettarli e a non cercare sempre e solo di cambiare il loro comportamento senza mai mettere in discussione il proprio.

"I thought life was pretty much over." Paul Herman "I was afraid people wouldn't see me for who I still was." Cathy Green "I didn't need this to be a better person." Susan Douglas "I wasn't sure I wanted to live 'this way.'" Kevin Wolitzky The above four people and 49 more just like them went on to find high levels of success and lead satisfying lives. Together they tell 53 stories of moving forward to meet all the challenges, fears, obstacles, and problems common to the life-altering circumstances after spinal cord injury, and doing it without benefit of wealth, large settlements or solid health coverage. Ranging in age from 21 to 67, disabled from three to 48 years they share 931 years of disability experience. Roll Models is a valuable new resource for recently injured people and their families, and for nurses, therapists, psychologists and all other professionals who treat, work with and care for people with spinal cord injury. Straight from the horse's mouth, survivors explore their experiences with disability and answer many questions those in rehab are asking: Early Thoughts What were your thoughts immediately following injury? What were your initial thoughts and reactions regarding SCI and the future? The First Years What were your biggest fears during that first year or so? How did you get past those early fears? Changes, Obstacles and Solutions How much different are you now, compared to how you were before injury? What's been the biggest obstacle? How did you address these obstacles? Finding What Works What have been the most difficult things for you to deal with since injury? What's the worst thing about having an SCI and using a chair? What's been your biggest loss due to injury? Is SCI the worst thing that ever happened to you? Tell me something about your problem solving skills. How do you deal with stress? What do you do to relieve stress? Salvations, Turning Points and More Was there any one thing that was your "salvation" or key to your success? Was there a turning point for you when you began to feel things were going to get better? What personal factors, habits and beliefs have helped you the most? SCI and Meaning Do you find any meaning, purpose or lessons in your disability? Did any positive opportunities come your way because of your injury? What's your greatest accomplishment? What are you most proud of? "A wonderful roadmap with many alternate routes to living and thriving with SCI." Minna Hong, SCI survivor and Peer Support Coordinator/Vocational Liaison, Shepherd Center "Avoids the trap of providing a 'one size fits all mentality' and provides solutions as varied as the individuals used as examples. Accentuates the positives while not sugar coating the difficulties. Essential reading." Jeff Cressy SCI survivor and Director of Consumer and Community Affairs, SCI Project, Rancho Los Amigos "A great resource for people as they venture out into the world, or search for meaning and a deeper, richer life. Filled with examples of real people and their real experiences." Terry Chase, ND, RN; SCI survivor; Patient & Family Education Program Coordinator, Craig Hospital "A wonderful tool for the newly spinal cord injured individual, as well as the therapists and counselors working with them. This certainly hits the mark in capturing important survival strategies." Jack Dahlberg, SCI survivor, Past President of the National Spinal Cord Injury Association "Artfully crafted and organized, Roll Models sensitively portrays life

following spinal cord injury. Informative, creative, sensitive, as well as infused with humor and a kind heart. Recommended with my highest accolades." Lester Butt, Ph.D., ABPP, Director of the Department of Psychology, Craig Hospital

L'edizione si propone di approfondire la vita del reverendo John Russell e della sua passione per uno sport che a quel tempo annoverava molte nobili persone, passione che lo spinse nella selezione di una razza che oggi viene riconosciuta col nome di Jack Russell Terrier e voluta da un pubblico vasto, da professionisti a semplici amatori per l'espressione e l'energia che questo piccolo amico offre. Ci inoltreremo dalle origini all'evoluzione della razza, descriveremo gli standard che hanno portato all'attuale per poi addentrarci nell'interpretazione dettagliando lo stesso. Toccheremo aspetti esteriori legati alla morfologia del cane, al suo movimento, aspetti interiori con accenni al carattere focalizzandoci sempre sulla particolarità della razza Jack Russell terrier. Con 30 pagine dedicate alla storia del reverendo John, 10 sulla storia dello standard, 20 di premessa all'interpretazione dello standard, 50 di analisi dello standard, 15 pagine dedicate al comportamento, più di 100 immagini, 23 tabelle ed approfondimenti penso sia il primo libro in italiano che dia qualche nozione in più che al lettore farà piacere avere. I proventi del libro verranno unicamente investiti per migliorare, proseguire nella selezione oltre ad estendere la conoscenza della razza tramite la pubblicazione di ulteriori future edizioni.

L'uomo che pisciava seduto ? (Edward mani di forbice, Tim Burton) ... eran giovani e forti... e sono morti ? (300, Zack Snyder) Di mamma ce ne è una sola ? (Psycho, Alfred Hitchcock) Esilarante... Unico... L'antidoto ai grandi dizionari di cinema!! Liquidando positivamente o negativamente autori e film in meno di una frase... sfogliando anche distrattamente questo ebook ne ricaviamo il piacere di sfogliare una infinita videoteca. Così comincia un gioco di rimandi, superandosi in arguzia (anche cattiveria a volte) usando il cinema non per quello che raccontano i singoli film ma per i collegamenti che questo forzatamente succinto vademecum suggerisce. Forse, al giorno d'oggi, è l'unico vero modo per scrivere un dizionario di cinema o, quantomeno, di servirsene. Buon divertimento. Lo spettacolo comincia...

Is walking your dog a tug-of-war? At last, a simple way to teach your dog to walk on a leash without pulling your arm off! Norwegian dog trainer, Turid Rugaas, internationally known for her ground-breaking work on canine body language and author of On Talking Terms with Dogs: Calming Signals, turns her attention to the common problem of dogs that pull while on a leash. In My Dog Pulls. What Do I Do? you will learn Turids quick and easy method to train any age, size or breed of dog to walk calmly and quietly on a loose leash. Her approach is humane and based on a solid understanding of why dogs pull and how to work with the dogs nature and the environment to overcome the problem. City, town or country walking will become more relaxed, reducing stress for dog and owner. My Dog Pulls explains: Why dogs develop pulling problems. Simple steps to retraining even a vigorous puller. How to rehabilitate the puller with clear, helpful photographs. Correct use of leashes, collars and harnesses. What works, what doesnt. Troubleshooting problems that arise in training.

Barking is natural and almost all dogs bark. It is one of the many ways dogs communicate with each other as well as with humans. In this book, author Turid Rugaas, well known for her work on identifying and utilizing canine "calming signals," turns her attention to understanding and managing barking behavior.

Reverend Graeme Sims's faithful pack follow his every command as if they can read his mind. But their willingness is down to an enlightened training method using his technique of dog whispering, which is based on the idea of treating the dogs as partners, not as servants, and human and dog learning to understand each other. This detailed, step-by-step instruction book shows you how to communicate properly with your dog, including guidelines on: how to choose the right breed of dog for you (or whether you're the right owner for a dog); how and when to use different commands; how to build a bond of trust; how to overcome problems with specific sections on the problem dog, the rescue dog, the nervous dog and the aggressive dog. THE DOG WHISPERER is a definitive guide to effective dog training for dog-owners and dog-lovers everywhere.

A man who learned to read when he was ninety-eight recalls the early hardships of his life, shares his memories of segregation, and discusses his philosophical observations.
