Through her childhood, teenage, and adult years, she wandered and hid, avoiding violent, unknown men driven to finish what they originally failed to do. What unknown secret drew these men to her? How did the ordinary ? an unopened letter, a homeless couple, tennis, swimming, horses, a corrupt friend, and a deck of cards ? change the unknown to the known, the hunted to ...? A recluse retired from the rodeo circuit, P.I. Rodeo Grace Garnet comes face-to-face with true hatred when he is hired by an elderly woman to discover who murdered her grandson, even though she seems strangely uninterested in the results. By a Tony Hillerman Prize-winning author.

Tidy categories may suit the media, but people are more complex up close. News outlets, historians, and sociologists can (and do) tell us all about the statistics, but they don't (and can't) tell us about what it's really like in a given place—how the squish of creek water between your toes or the crunch of autumn leaves on a city sidewalk shape your sense of normal and good and right. To understand that—to understand the people in the places—we need stories. We need to listen, get to know the nuance of people, and have empathy for their way of seeing things. Brandon O'Brien is, in many ways, a man torn between places. Raised in the rural South, educated in the suburbs, and now living and doing ministry in Manhattan, he's seen these places, and their complexity, up close. With the knack of a natural storyteller, he shares what he learned about himself, faith, and the people who make up America on his own journey through it. Sërafinn, the goddess of the moon, sat upon her silvery throne, watching silently at all the happenings in the world below. The Ancient Law prohibited the gods from interacting too much with the trivialities of mankind. In the twilight of a dying day, her thoughts were suddenly interrupted when a feast was being held in one of the northern kingdoms. Looking down from her throne, she saw someone she hardly took notice of before. However, on this particular evening, she looked at his handsome features and found her heart begin to quicken. Remembering the Ancient Laws, she tried to hide these feelings for fear of what the other gods and goddesses might say. Although in her mind, she knew it was impossible to be with a human, she could not deny her heart, nor the new feelings she was experiencing. She came to realise she could no longer be silent. Her decision would shatter both realms of gods and men alike.

The time is June 1942, the beginning of America's first summer at war. Somewhere off the coast of Massachusetts a German U-boat surfaces under cover of darkness. Aboard the U-boat are two agents of the Abwehr, Germany's military intelligence service, whom the ship's commander has been ordered to drop safely on American soil. The agents have as their mission to conduct sabotage against military and industrial installations. Hitler's intention in devising such an operation is to remind Americans he has the capability and the will to bring the war to their backyard. As the two agents are bringing their equipment ashore, they are surprised by a patrolling US Coastguardsman, who is quickly killed by one of the crewmen from the U-boat but an attack dog accompanying him badly mauls one of the agents. Desperately in need of medical attention, the wounded agent must be returned to the U-boat for treatment. As the crewmen disappear into the night Erich Stinnes, alias Karl Stoner, is left with the sudden realization he will be carrying out this operation on his own. Stoner is fortunate in not only finding a job at the local shipyard but he is able to rent an apartment from an attractive woman, who is recently widowed. It is not long before the two of them begin an affair that causes Karl, already ambivalent about the war, to question the wisdom of his mission. Before he can resolve his dilemma, an incident at the shipyard exposes him for what he is. Having no choice he is forced to flee leaving Anne to suffer the consequences of her affair with a Nazi spy.

This is a funny, moving story about life in a small town, from the point of view of a pregnant lesbian. Louise A. Blum, author of the critically acclaimed novel *Amnesty*, now tells the story of her own life and her decision to be out, loud, and pregnant. Mixing humor with memorable prose, Blum recounts how a quiet, conservative town in an impoverished stretch of Appalachia reacts as she and a local woman, Connie, fall in love, move in together, and determine to live their life together openly and truthfully. The town responds in radically different ways to the couple's presence, from prayer vigils on the village green to a feature article in the family section of the local newspaper. This is a cautionary, wise, and celebratory tale about what it's like to be different in America—both the good and the bad. A depiction of small town life with all its comforts and its terrors, this memoir speaks to anyone who has ever felt like an outsider in America. Blum tells her story with a razor wit and deft precision, a story about two "girls with grit," and the child they decide to raise, right where they are, in small town America.

She left me. Married another man and ripped my heart out. Now she's back and begging for my help. No way am I getting involved. Except I already am. Savannah. Her name still makes my head buzz. We were in love, or so I thought. But she broke my heart. I made the army my home and tried to forget her fresh floral scent. Her heart-pounding beauty. The fool who stole her from me. I thought I'd succeeded. Until I got the call. "Jayden, I need your help." What could I say? It's been years since Savannah begged me for anything. Her child is missing. The cops think he's dead. Her husband thinks she's depressed. Crazy. Maybe she is. I won't stop until I find out the truth. The man who stole her son will pay. And just maybe Savannah and I can fix what we used to have.

Imagine being forced to move to a new planet where YOU are the alien! From the creator of the Tapper Twins, New York Times bestselling author Geoff Rodkey delivers a topical, sci-fi middle-grade novel that proves friendship and laughter can transcend even a galaxy of differences. The first time I heard about Planet Choom, we'd been on Mars for almost a year. But life on the Mars station was grim, and since Earth was no longer an option (we may have blown it up), it was time to find a new home. That's how we ended up on Choom with the Zhuri. They're very smart. They also look like giant mosquitos. But that's not why it's so hard to live here. There's a lot that the Zhuri don't like: singing (just ask my sister, Ila), comedy (one joke got me sent to the principal's office), or any kind of emotion. The biggest problem, though? The Zhuri don't like us. And if humankind is going to survive, it's up to my family to change their minds. No pressure.

With *I'm Not from Here*, popular writer Will Willimon returns to fiction with a story of spiritual discovery set in a Southern town. Will takes us on a Don Quixote-like journey during which young Felix Goforth Luckie learns a great deal about the world, about other people, and about a God who shows up in the oddest places, in the strangest times, and among the unlikeliest people. On a quest to discover himself, Felix is discovered by the grace of God. In homage to Dostoevsky, Cervantes, and the Bible, Willimon creates a world that is thoroughly believable, realistic, and ordinary, yet at the same time fantastic, strange, and funny. In Galilee, Georgia, young Felix finds that things are not as they first appear, people are wonderfully mysterious, and God is unavoidable. At times odd, frequently very funny, both satirical and poignant, *I'm Not from Here* is a rollicking tale, a light-hearted parable with serious intent. Willimon's first novel, *Incorporation*, was widely acclaimed for its satire, honesty, and theological depth. While this his second novel differs considerably, *I'm Not from Here* is equally surprising and entertaining, showing Willimon's gifts as a masterful storyteller. Even as the parables of Jesus reveal things to us that could not be seen except through fiction, so this novel is not only engaging but also revealing.

MANHATTAN IS UNDER NEW MANAGEMENT. THEY'RE NOT FROM AROUND HERE. Welcome to the Big Apple, son. Welcome to the city that never sleeps: invaded by monstrous fusions of meat and machinery, defended by a private army that makes Blackwater look like the Red Cross, ravaged by a disfiguring plague that gifts its victims with religious rapture while it eats them alive. You've been thrown into this meat grinder without warning, without preparation, without a clue. Your whole squad was mowed down the moment they stepped onto the battlefield. And the chorus of voices whispering in your head keeps saying that all of this is on you: that you and you alone might be able to turn the whole thing around if you only knew what the hell was going on. You'd like to help. Really you would. But it's not just the aliens that are gunning for you. Your own kind hunts you as a traitor, and your job might be a bit easier if you didn't have the sneaking suspicion they could be right. . . .
