A collection of aerial photographs of landforms, people, and buildings, each of which is accompanied by a brief paragraph outlining the history, social influences, or geographical information relating to the picture.

The #1 international bestseller: An astronaut's tour of our planet from the heavens, featuring 150 mesmerizing photographs (with commentary) from the International Space Station. During his six-month mission to the International Space Station, astronaut Tim Peake became the first British astronaut to complete a spacewalk -- and, perhaps more astonishingly, the first to run an entire marathon in space. During his historic mission, he captured hundreds of dazzling photographs, the very best of which are collected here. Tim captures the majesty of the cosmos and of the planet we call home: breath-taking aerial photos of the world's cities illuminated at night, the natural beauty of the northern lights, and unforgettable views of oceans, mountains, and deserts. Tim's lively stories about life in space appear alongside these photographs, including the tale from which the title is taken: his famous wrong number dialed from space, when he accidentally called a stranger and asked: "Hello, is this planet Earth?" With this truly unique perspective on the incredible sights of our planet, Tim demonstrates that while in space, hundreds of miles above his friends and family, he never felt closer to home.

A compilation of both low- and high-level aerial images, including nearly two hundred new photographs, provides captions that explain the background of each image as well as essays on such topics as biodiversity and global warming.

In *You Are Here*, celebrated astronaut Chris Hadfield gives us the really big picture: this is our home, as seen from space. The millions of us who followed Hadfield's news-making Twitter feed from the International Space Station thought we knew what we were looking at when we first saw his photos. But we may have caught the beauty and missed the full meaning. Now, through photographs – many of which have never been shared – Hadfield unveils a fresh and insightful look at our planet. He sees astonishing detail and importance in these images, not just because he's spent months in space but because his in-depth knowledge of geology, geography and meteorology allows him to reveal the photos' mysteries. Featuring Hadfield's favourite images, *You Are Here* is divided by continent and represents one (idealized) orbit of the ISS. Surprising, thought-provoking and visually delightful, it opens a singular window on our planet, using remarkable photographs to illuminate the history and consequences of human settlement, the magnificence of never-before-noticed landscapes, and the power of the natural forces shaping our world and the future of our species.

Reproducing one of the most advanced satellite surveys of Earth in its entirety, *The Complete Earth* explores our planet, explaining the how and when of its mountain ranges, deserts, ice-sheets, volcanoes and oceans. From pole to pole. *The Complete Earth* presents one of the most advanced portraits of our planet ever created. Within these pages, data from NASA's most advanced Earth observing satellites has been combined to produce a cloud-free, digital atlas of the entire planet—a mappamundi for the Information Age. At a scale of 53 kilometres to every centimetre (93 miles to an inch), we can trace the Amazon from

Andean headwaters to Atlantic mouth, explore the trackless sand seas of the Sahara, and follow the corrugated ridges of hills and mountains that mark the front-line of India's continental collision with Eurasia. We can track the ebb and flow of seasons across the globe, watching snows fall in the North as they melt in the South and desert lands bloom and fade as rains come and go. Combining NASA's digital portrait of the planet with high resolution satellite imagery that zooms in on noteworthy features—from volcanoes to asteroid craters, river deltas to glaciers—The Complete Earth creates an unprecedented view of our planet's face. Social and political boundaries are invisible and irrelevant, what we see instead is the landscape of the whole Earth - the mountains and deserts, seas and oceans that have shaped human history. Yet this configuration of rock and water represents a fleeting geological moment, having existed for no more than 4 million years—a mere 0.01 percent of the planet's lifetime. But look closer and a deeper past emerges. Earth's 4.5 billion year history can be reconstructed from the layered, twisted and folded rocks that adorn its surface. To understand how to read the planet's deep history, The Complete Earth descends far beneath the continents and oceans to reveal the tectonic plates they rest on. It explains how the ceaseless jostling of these plates has sculpted Earth's ever-changing face and tracks their movements over millennia to reconstruct global views of not only the planet's past, but also its future.

“Fascinating . . . memorable . . . revealing . . . perhaps the best of Carl Sagan’s books.”—The Washington Post Book World (front page review) In *Cosmos*, the late astronomer Carl Sagan cast his gaze over the magnificent mystery of the Universe and made it accessible to millions of people around the world. Now in this stunning sequel, Carl Sagan completes his revolutionary journey through space and time. Future generations will look back on our epoch as the time when the human race finally broke into a radically new frontier—space. In *Pale Blue Dot*, Sagan traces the spellbinding history of our launch into the cosmos and assesses the future that looms before us as we move out into our own solar system and on to distant galaxies beyond. The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race. “Takes readers far beyond *Cosmos* . . . Sagan sees humanity’s future in the stars.”—Chicago Tribune

Do you believe in miracles? This story is about a great accidental miracle, about faith in yourself, and about love. It is a story about a star that gave a little girl a great deal of hope and faith that dreams are being fulfilled and miracles happen quite unexpectedly. You only need to believe. In fact, faith, hope, and love are the three main laws of life.

**BONUS:** Black and white coloring book page. This story is great for a quick bedtime story and to be read aloud with friends and family.

A young pirate with a chaotic home life learns how to express his emotions in a healthy way and with safe individuals.

Presents more than three hundred photographs showing how the world has changed over the past century from industrialization, urbanization, natural disasters, war, and travel and tourism.

Tanya Martin was a young woman when she was diagnosed with Rheumatoid Disease, formerly known as Rheumatoid Arthritis. An avid photographer, the disease eventually took its toll on Tanya preventing her from doing even simple things; like bringing a camera up to her eye. In search of relief from the chronic pain and fatigue she was in, Tanya started "playing with her food" when

she would prepare her daily juices. She would make faces and flower designs from the fruits and vegetables she was preparing to juice; then Tanya would take a photo of her creation with her smart phone and publish it on Facebook. It was not long before there was a Facebook group of juicers and photos came from all. One day it was suggested that Tanya had enough photos to put together a book and Faces of Juicing was born. This book, Faces of Juicing, contains Visual Juicing Recipes with 50 faces and six additional photos with recipes. Start juicing easily without any measuring cups and make juicing fun for everyone. With this book you will learn how to create a fun work of art before juicing the fruits and vegetables to make a meal. This will inspire you and make juicing fun and tasty.

The Earth's True Children is a mythical tragedy featuring an element of science fiction/fantasy. Founded by a group of separatists who had become disenchanted with the decadence rife in the other six great northern city-states of the world, the city of Anaxagorus and its citizens pride themselves on their crusade for knowledge and moral adherence. Hylax, the son of Heracon – the late but still revered pioneer of the city – has grown tired of government and seeks a simple life. Struggling to deal with his obligation to his father's legacy and his own feelings of disillusionment with mankind, he tries to find a way of satisfying himself and his people. But when his old confidant, Abenader, returns half-dead from the desert and a person dear to him is murdered, a conspiracy threatens to usurp his authority. Meanwhile, an age-old species has emerged from the confines of the earth. They have seen the future and know where man's corrupting and insatiable desire to plunder its resources will lead. A great conflict looms that could reshape the world entirely. At once an intimate and epic study of power, set in a time akin to the ancient Greek era, 'The Earth's True Children' examines humanity at its best and at its worst. Warning: This is NOT a book for children.

Elegant, suggestive, and clarifying, Lewis Thomas's profoundly humane vision explores the world around us and examines the complex interdependence of all things. Extending beyond the usual limitations of biological science and into a vast and wondrous world of hidden relationships, this provocative book explores in personal, poetic essays to topics such as computers, germs,

language, music, death, insects, and medicine. Lewis Thomas writes, "Once you have become permanently startled, as I am, by the realization that we are a social species, you tend to keep an eye out for the pieces of evidence that this is, by and large, good for us."

Divided by continent, YOU ARE HERE represents one (idealized) orbit of the ISS. This planetary photo tour -- surprising, playful, thought-provoking, and visually delightful -- is also punctuated with fun, fascinating commentary on life in zero gravity. In the spirit of his bestselling *An Astronaut's Guide to Life on Earth*, YOU ARE HERE opens a singular window on our planet, using remarkable photographs to illuminate the history and consequences of human settlement, the magnificence (and wit) of never-before-noticed landscapes, and the power of the natural forces shaping our world and the future of our species.

A stunning and unique collection of satellite images of Earth that offer an unexpected look at humanity, derived from the wildly popular Daily Overview Instagram account. Inspired by the 'Overview Effect' - a sensation that astronauts experience when given the opportunity to look down and view the Earth as a whole - the breathtaking, high-definition satellite photographs in OVERVIEW offer a new way to look at the landscape that we have shaped. More than 200 images of industry, agriculture, architecture, and nature highlight incredible patterns while also revealing a deeper story about human impact. This extraordinary photographic journey around our planet captures the sense of wonder gained from a new, aerial vantage point and creates a perspective of Earth as it has never been seen before. 'Stunning, surprising and intriguing photographs of Earth from the skies.' Guardian 'Absolutely gorgeous, yet absolutely gut-wrenching' Wired

250 stunning, all-new images documenting our impact on the planet--and how the planet reacts--from the creators of Overview and the Instagram sensation Daily Overview. Change is Earth's most important and influential constant. From the regular shifting of the seasons to the increasingly dramatic (and increasingly common) weather events sparked by the warming climate, life on our planet is constantly impacted by change. When viewed over various periods of time--days, months, and years--these changes become especially apparent, as does the scale and scope of our impact on Earth. Overview Timelapse is a compelling photographic survey--consisting of satellite and aerial images--of the state of change on Earth today. Paired sets of before-and-after images as well as larger groups of time lapse photos offer a fresh perspective of how these changes look from a larger-than-life scale. From devastating human-created change such as the shrinking polar ice caps, to fascinating change like two islands becoming one after a volcanic eruption, Overview Timelapse showcases more than 250 dazzling images.

Beneath dense gray clouds through which no sun shone lay a forgotten planet. It was a nightmare world of grotesque and terrifying animal-plant life. Gigantic beetles, spiders, bugs and ants filled the putrid, musty earth - ready to kill and devour anything in sight. There were men

amidst this horror - men who cringed and ran from the ravening monsters and huddled in the mushroom forests at night. Burl was one of these creatures. But one day inspiration hit Burl. He would find a weapon - he would fight back. And with this idea the first step was taken in man's most desperate flight for freedom in this most horrible of all worlds. But it was only a first step.

NALI By Esther Henry In an era of darkness, mystery, tropical jungles and cannibalism, Nali tries to buck the ancient traditions, only to find herself deeply entrenched in them. As a young girl full of dreams, she is given to a tribal elder in marriage and quickly learns that her girlhood dreams could be shattered overnight. The rain forest held a secret refuge that only Nali knew, where she took her dreams and her delusions. Will she be forced to succumb to a subservient role the rest of her life, or can she overcome the hopelessness that comes with isolation, ignorance and tradition? Deep in the heart of New Guinea lies the village of Mendoka, beautifully camouflaged from the rest of the world. Although the village has yet to be discovered, the outside world would soon have an influence on their lives. An interruption to their peaceful simplicity would both terrify them and cause them to search for answers. Readers will be able to follow the lives of those who lived in a much simpler time and become immersed in the culture that controlled their everyday existence.

NEW AGE | VISIONARY FICTION | ALLEGORY | INSPIRATIONAL | SPIRIT. Tormented by the never-ending voices of his inner critic and the 'thought storms' in his mind, a disheartened man travels West on the brink of despair, stopping overnight in a small Nebraska prairie town, where he experiences a surprising inner awakening...Through this allegory, discover and explore a key tool of self-awareness --'The Watcher' (witness consciousness)-- for finding peace on your own inner journey and spiritual path. Inspired by the profound wisdom of Michael Singer's The Untethered Soul, the author here shares the process of one person's internal struggle to understand--and escape from--the incessant voices of their inner self-critic. Then --moving well beyond the entry point of self-criticism--this simple story delves deeply to explore the very nature of thinking and emotions themselves and our relationship to them as human beings. What is real? What is illusion? Who ARE you? Is it possible to be freed from the "thought maze" that typically entangles a person in their everyday life? Through the protagonist's journey the larger picture of personal identity and its relationship to thoughts and feelings is revealed, as he unknowingly discovers a key tool of self-awareness that the reader will also be able take away for everyday use on their own spiritual path. This transformation evolves over the course of only 24 hours...yet magically, time stretches as the mind of the main character opens and his heart begins to truly flow for the first time. This New Age work falls into the more recently developing genre of Metaphysical & Visionary Fiction. Like James Redfield's The Celestine Prophecy and Paulo Coelho's The Alchemist, the subtle--yet powerful--unfolding of this allegorical journey will both captivate and inspire you!

Earth and SpacePhotographs from the Archives of NASACHronicle Books

From the very moment the man had seen the old fella - serving behind the counter, that bright afternoon - he had returned to that

time, some 30 years ago. Something had taken over him; propelling him forward, carrying him through, and he had not come back to his full self until the deed had been completed. A deed that would open deep, septic wounds, that had been inflicted so many decades ago. Francesca Dreighton is bright, pretty, and (aside from her boyfriend: Ford) only too content to keep to her own company. But when a letter, containing private documents and photographs, is slid under the door of her room at Rose-Mount Halls of Residence, the two university students begin on a path that will lead them into a murky, dangerous underworld. Conspiracy and cover-ups are only part of the horrifying events that will come to light, and if she is to survive, Francesca will have to confront the monsters who are, not only coming out of the shadows to hunt her down, but who dwell within the very civility of our everyday lives. True evil is real, and it exists, not only within men, but within society itself.

Visions of Earth raises a curtain on the wonders of the world and thrills us with nature's opulence and humanity's splendor. Each image alone exposes a nugget of our planet's magnificence; the totality of the collection goes beyond our imagination. Turning the pages, viewers are struck by the richness of life on Earth. One photograph is more awe-inspiring than the next--chosen by veteran National Geographic Magazine photo editors to present what is visually incredible. The photographs are drawn from the popular "Visions of Earth" feature in the magazine, (rated #1 by readers), from our own storied Image Collection, and from renowned photographers throughout the world, many never-before published. Enthralling images fill the book in a gallery of stunning landscapes, fascinating people, amazing animals, and unexpected glimpses of the usual and unusual. Puffins' beaks signal breeding time in Norway and a speckled emperor moth in South Africa diverts predators with an illusion. An elephant takes a morning dip in India's Andaman Sea while Siamese crocodiles race in Thailand and surfers in Australia relish a perfect day. Monks in Bhutan run to dinner and a little girl in red stands out among white-robed women in an Indonesian mosque. Spanish youth decked in colorful, oversize papier-mâché heads celebrate a festival in Catalonia and a flower of flame blooms from a man's kerosene-filled mouth in a Sikh celebration in India. Around the globe, amazing moments are captured in time, from a spray of flash frozen petal fragments in California to a truck show of chrome-covered and gleaming neon rigs half the world away in Japan. Visions of Earth is a welcome escape from the news of natural disasters, conflict, political upheaval, and social unrest that fills our lives. The book delights our senses, ignites our emotions, and renews our optimism, showcasing the many ways that our world is a marvel to behold and a privilege to call home.

The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp. Environmentalists worry about too much carbon dioxide, but what's too little? What if global financiers manipulated the global warming crisis to gain control over humanity's resources, freedoms, and population? What if someone with the financial and technical abilities decided mankind was a virus and used carbon dioxide trapping technology to plunge population levels by crashing life-essential CO<sub>2</sub> to new lows? These are questions Anna Picard must face in *The Carbon Trap*, the first book in *The Carbon Series*. At the height of the global warming crisis, the United Nations attempts to control all carbon emissions, and authorizes a series of programs it deems necessary to save humanity. A progressive US government enthusiastically endorses the UN Carbon Trapping program, and to help pay for it, will impose carbon taxes, draconian regulations, and... it will secretly sell Alaska. Anna Picard is an amoral fixer, an employee of Agenda 21 member and global financier Alexis Swanson had trained to help recruit his corporate army and neutralize his enemies. It is her job to unleash a global hacker network to help destroy the carbon based industries and funnel insider-trading profits to Swanson. One of her recruits is Dr. Sven Johansson, a brilliant geneticist and President of Snath Biotechnology, who designs life forms to trap CO<sub>2</sub>. But Sven has more ambitious plans. At a UN conference in the Maldives held to impose draconian carbon regulations, not everyone is happy, some industrial executives realize data has been falsified. To protect her scheme, Anna frames one of the execs for murder. Her plans are complicated when she falls in love with Dr. Pete Heyward, the son of the man she framed for murder. Pete is a US Marine amputee who sees past her malevolent deeds and tries to rejuvenate the morality of her youth. After a series of genetically modified carbon trapping life forms is unleashed upon the Earth, Anna must confront the evils she helped unleash, and prevent an even bigger disaster from unfolding that would destroy most life on Earth. This is a high-tech ecological thriller that takes the reader from the Maldives, to the French Riviera, and the heartland of Texas. It introduces cutting edge technologies and concepts, used for the first time in a novel, that reveal striking implications for society.

Take a tour of the universe with this breathtaking collection of photographs from the archives of NASA. Astonishing images of Earth from above, the phenomena of our solar system, and the celestial bodies of deep space will captivate readers and photography lovers with an interest in science, astronomy, and the great beyond. Each extraordinary photograph from the legendary space agency is paired with explanatory text that contextualizes its place in the cosmic ballet of planets, stars, dust, and matter—from Earth's limb to solar flares, the Jellyfish Nebula to Pandora's Cluster.

Featuring a preface by Bill Nye, this engaging volume offers up-close views of our remarkable cosmos, and sparks wonder at the marvels of Earth and space.

Gulliver of Mars is the tale of Lieutenant Gulliver Jones of the United States Navy who magically appears on Mars. In a fortunate incident, he manages to save the life of Martian Princess Heru who sticks with him, as his quick return to Earth is not possible. Gulliver learns a lot about the culture of Martian society as they get through many adventures, going down a River of Death.

Presents a humorous summation of the history of humanity and our achievements in society, government, religion, science, and culture.

She emerged as innocent as any newborn. The party of starbursts and sparkles came to a standstill. In awe, millions of heavenly beings paused. Shine Star, Princess of the Universe, was the most precious and rare of all creations. As an expression of perfect happiness, thus was the king's daughter born. A magical love story unfolds in Vikrant Malhotra's wondrous debut, *The Stories of Goom'pa: Book One*. Meet Goom'pa. He is a Poofy, a small furry creature who resides on Earth in a place called Palidon, on the edge of the Miron National Forest. His world is a quiet one-until he spies Shine Star, a glorious star in the sky and the daughter of Prime Ray, the king of the universe. Enchanted by her elegance, Goom'pa knows he is willing to do anything to win the love of this celestial beauty. As the two meet and fall in love, Shine Star's father worries about his only daughter. Exploiting that concern is the Star Lord, Rath, who wants nothing more than to wrestle control of the universe away from Prime Ray. Will Goom'pa and Shine Star find a way to be together? Or will Rath's evil plan doom them all?
