Primary Teachers Talking Professor Jennifer Nias, Jennifer Nias, 2002-06-01 What is it like to be a primary teacher? The first detailed study of the personal and professional experience of primary teachers in England and Wales, Primary Teachers Talking makes extensive use of verbatim evidence supplied by teachers during interviews in their first decade of work and again ten years later. In Part I Jennifer Nias discusses the importance attached to the ways in which primary teachers see themselves and the main dimensions of that self-image. In Part II, she examines the subjective experience of 'being a primary teacher', looking at the main factors which contribute to job satisfaction and dissatisfaction, and at teachers' relationships with their colleagues. She shows that to 'feel like a teacher' is to learn to live with dilemma, contradiction and paradox and - at its best - to experience in their resolution the creative satisfactions of the artist.

Mindfulness J. Mark G. Williams, Mark Williams, Danny Penman, 2011 THE LIFE-CHANGING BESTSELLER.

MINDFULNESS reveals a set of simple yet powerful practices that can be incorporated into daily life to help break the cycle of unhappiness, stress, anxiety and mental exhaustion and promote genuine joie de vivre. It's the kind of happiness that gets

into your bones. It seeps into everything you do and helps you meet the worst that life can throw at you with new courage. The book is based on Mindfulness-Based Cognitive Therapy (MBCT). MBCT revolves around a straightforward form of mindfulness meditation which takes just a few minutes a day for the full benefits to be revealed. MBCT has been clinically proven to be at least as effective as drugs for depression and it is recommended by the UK's National Institute of Clinical Excellence - in other words, it works. More importantly it also works for people who are not depressed but who are struggling to keep up with the constant demands of the modern world. MINDFULNESS focuses on promoting joy and peace rather than banishing unhappiness. It's precisely focused to help ordinary people boost their happiness and confidence levels whilst also reducing anxiety, stress and irritability.

**The Night of Rome** Carlo Bonini,Giancarlo de Cataldo,2019-07-09 When an Italian kingpin falls, a battle of successors begins in this “razor-sharp political thriller set in Berlusconi’s Rome” (The New Statesman). Things are changing in Rome. The new Pope, determined to reform the Vatican, proclaims an extraordinary Jubilee year, one “of Mercy.” A new center-left government replaces its disgraced predecessor. And with the underworld kingpin Samurai in jail, his protégé Sebastiano Laurenti plans to establish himself as his designated successor. But to do it, he must reckon with a new generation of gangsters and racketeers edging in on the corrupt profits to be made off the Jubilee’s public works. Meanwhile, Laurenti must also keep an eye on the ambitious newly elected politician Chiara Visone. As the sharks circle and the street-dogs fight, a tenuous hope endures. An incorruptible politician of the old left is about to forge an unlikely alliance with a young bishop who refuses to play the Vatican’s power games. Sharp, dark, and taut, *The Night of Rome* is fiction that sails dangerously close to the wind of current events.

*Mamma in Her Village* Maristella de Panizza Lorch,2019-08

Barcelona Joan Busquets,2005 Barcelona is regarded as a prototype of a European Mediterranean city with a long urban tradition. It has undergone a specific process of historic formation: density and compactness of urban form, evolution by extension rather than by reform. A history of urban planning necessarily includes a summary of the territorial and urban experience, the physical dimensions of the city that condition its cultural and economic development. This book centers on the construction of Barcelona, taking as its basis the most important planning operations and city projects, and drawing from diverse sources and phases. The local scale of many of the projects contrasts with the cosmopolitan aspirations that have made these interventions so innovative; including major projects for special events, such as the 1888 (World Exhibition), 1929 (Electrical Industries Exhibition) and 1992 (Olympic Games). New prospects are emerging from the recent European institutional framework, particularly changes in the economic system to a post-industrial phase. The urban planning history

of Barcelona shows how the city has overcome major contradictions.
