Dr Pyrhönen's innovative study is the first comprehensive overview and analysis of the academic reception of the eternally popular detective story; the discussion, using both a chronological and thematic approach, considers the changing views, and methods of analysis, of this fascinating genre. The author begins by tracing the development of detective fiction criticism from its beginnings, often written by its best authors, such as Dorothy L. Sayers; goes on to examine the structuralists' and narratologists' interest in the genre as a test case for various theories of reading; and finally outlines the current debates about the ideological underpinnings of detective fiction and its relationship to 'serious' literature. This book will be of interest not only to students and scholars of literature, but also to the countless devotees of the detective story. DR PYRHÖNEN teaches literature at the University of Helsinki in the Department of Comparative Literature and Theatre Research.

In the spring of 1974, Second Lieutenant Hiroo Onoda of the Japanese army made world headlines when he emerged from the Philippine jungle after a thirty-year ordeal. Hunted in turn by American troops, the Philippine police, hostile islanders, and successive Japanese search parties, Onoda had skillfully outmaneuvered all his pursuers, convinced that World War II was still being fought and that one day his fellow soldiers would return victorious. This account of those years is an epic tale of the will to survive that offers a rare glimpse of man's invincible spirit, resourcefulness, and ingenuity. A hero to his people,

Onoda wrote down his experiences soon after his return to civilization. This book was translated into English the following year and has enjoyed an approving audience ever since.

As the Second World War enters its final stages, millions in Germany are forced from their homes by bombing, compelled to seek shelter in the countryside where there are barely the resources to feed them. Twelve-year-old Luisa, her mother, and her older sister Billie have escaped the devastation of the city for the relative safety of a dairy farm. But even here the power struggles of the war play out: the family depend on the goodwill of Luisa's brother-in-law, an SS officer, who in expectation of payment turns his attention away from his wife and towards Billie. Luisa immerses herself in books, but even she notices the Allied bombers flying east above them, the gauntness of the prisoners at the camp nearby, the disappearance of fresh-faced boys from the milk shed – hastily shipped off to a war that's already lost. Living on the farm teaches Luisa about life and death, but it's man's capacity for violence that provides the ultimate lesson, that robs her of her innocent ignorance. When, at a birthday celebration, her worst fears are realized, Luisa collapses under the weight of the inexplicable. Ralf Rothmann's previous novel, *To Die in Spring*, described the horror of war and the damage done on the battlefield. *The God of that Summer* tells the devastating story of civilians caught up in the chaos of defeat, of events that might lead a twelve-year-old child to justifiably say: 'I have experienced everything.'

A phenomenally unusual three-way murder mystery. With a murder at its heart, Roberto Bolano's *The Skating Rink* is, among other things, a crime novel. Murder seems to have exerted a fascination for the endlessly talented Bolano, who in his last interview, according to *The Observer*, "declared, in all apparent seriousness, that what he would most like to have been was a homicide detective." Set in the seaside town of Z, north of Barcelona, *The Skating Rink* is

told in short, suspenseful chapters by three male narrators, and revolves around a beautiful figure skating champion, Nuria Martí. A ruined mansion, knife-wielding women, political corruption, sex, and jealousy all appear in this atmospheric chronicle of a single summer season in a seaside town, with its vacationers, businessmen, immigrants, bureaucrats, social workers, and drifters.

"Great writers by definition are outriders, raiders of a sort, sweeping down from wilderness territories to disturb the peace, overrun the status quo and throw into question everything we know to be true. . . . On its face, the novel is a murder mystery, and at the book's heart, always, is a deep love of Mexico and its people." —Los Angeles Times Subcomandante Marcos is a spokesperson and strategist for the Zapatistas, an indigenous insurgency movement based in Mexico. Paco Ignacio Taibo II is the author of numerous works of award-winning fiction and nonfiction, which have been published in many languages around the world. He lives in Mexico City.

Now a major motion picture directed by Clint Eastwood, in theaters February 2018. An ISIS terrorist planned to kill more than 500 people. He would have succeeded except for three American friends who refused to give in to fear. On August 21, 2015, Ayoub El-Khazzani boarded train #9364 in Brussels, bound for Paris. There could be no doubt about his mission: he had an AK-47, a pistol, a box cutter, and enough ammunition to obliterate every passenger on board. Slipping into the bathroom in secret, he armed his weapons. Another major ISIS attack was about to begin. Khazzani wasn't expecting Anthony Sadler, Alek Skarlatos, and Spencer Stone. Stone was a martial arts enthusiast and airman first class in the US Air Force, Skarlatos was a member of the Oregon National Guard, and all three were fearless. But their decision-to charge the gunman, then overpower him even as he turned first his gun, then his knife, on Stone—depended on a lifetime of loyalty, support, and faith. Their friendship was forged as they came of age together in California: going to church, playing paintball, teaching each other to swear, and sticking together when they got in trouble at school. Years later, that friendship would give all of them the courage to stand in the path of one of the world's deadliest terrorist organizations. The 15:17 to Paris is an amazing true story of friendship and bravery, of near tragedy averted by three young men who found the heroic unity and strength inside themselves at the moment when they, and 500 other innocent travelers, needed it most.

This book examines Cuban society through a study of its detective fiction and more particularly contemporary Cuban society through the novels of the author and critic, Leonardo Padura Fuentes. The author traces the development of Cuban detective writing in the light of the work of twentieth century Western European literary critics and philosophers including Raymond Williams, Antonio Gramsci, Terry Eagleton, Roland Barthes, Jean Paul Sartre, Michel Foucault, Jean François Lyotard and Jean Baudrillard in order to gain a better understanding of the social and historical context in which this genre emerged. The analysis includes discussion of the broader philosophical, political and

historical issues raised by the Cuban revolution. The book concludes that the study of this popular genre in Cuba is of crucial importance to the scholar who wishes to reach as full an understanding of the social dynamics within that society as possible.

Video games are becoming culturally dominant. But what does their popularity say about our contemporary society? This book explores video game culture, but in doing so, utilizes video games as a lens through which to understand contemporary social life. Video games are becoming an increasingly central part of our cultural lives, impacting on various aspects of everyday life such as our consumption, communities, and identity formation. Drawing on new and original empirical data – including interviews with gamers, as well as key representatives from the video game industry, media, education, and cultural sector – *Video Games as Culture* not only considers contemporary video game culture, but also explores how video games provide important insights into the modern nature of digital and participatory culture, patterns of consumption and identity formation, late modernity, and contemporary political rationalities. This book will appeal to undergraduate and postgraduate students, as well as postdoctoral researchers, interested in fields such as Video Games, Sociology, and Media and Cultural Studies. It will also be useful for those interested in the wider role of culture, technology, and consumption in the transformation of society, identities, and communities.

An intellectual tour de force from one of today's leading critics of Latin American literature and culture, *"The Corpus Delicti" (The Body of Crime)* is a manual of crime, a compendium of crime tales, and an extended meditation on the central role of crime in literature, in life, and in the life of the nation. Drawing her examples from canonical texts, popular novels, newspaper serials, and more, Josefina Ludmer captures the wide range of Argentine crime stories and detective fiction from the late nineteenth and early twentieth centuries. She offers more than a mere genre study, examining the relationship of crime and punishment to the formation of law, the body, and the modern state, exposing the ways in which literature--both high art and mass culture--can help construct, not just represent, social reality. Covering a dazzling array of primary sources, social history, and cultural theory, this provocative work is also a structural masterpiece, challenging readers as it charts new roles for text and notes. In this redefined dialogue, the notes variously offer alternate views, additional insights, and, often, parallel commentaries. Glen Close's stylish translation captures the energy of Ludmer's prose--simultaneously subtle and daring--for English-language readers.

Praise for Ben Pastor's *Lumen*: "Pastor's plot is well crafted, her prose sharp. . . . A disturbing mix of detection and reflection."—*Publishers Weekly* "Rivets the reader with its twist of historical realities. A historical piece, it faithfully reproduces the grim canvas of war. A character study, it captures the thoughts and actions of real people, not stereotypes."—*The Free Lance-Star* "And don't miss *Lumen* by Ben Pastor. . . . An interesting, original, and melancholy tale."—*Literary Review Italy*, September 1943. The Italian government switches sides and declares war on Germany. The north of Italy is controlled by the fascist puppets of Germany; the south liberated by Allied forces fighting their way up the peninsula. Having survived hell on the Russian front,

Against the backdrop of relentless anti-partisan warfare and the tragedy of the Holocaust, a breathless chase begins. There are four distinct types of managers. One performs much worse than the rest, and one performs far better. Which type are you? Based on a first-of-its-kind, wide-ranging global study of over 9,000 people, analysts at the global research and advisory firm Gartner were able to classify all managers into one of four types: • Teacher managers, who develop employees' skills based on their own expertise and direct their development along a similar track to their own. • Cheerleader managers, who give positive feedback while taking a general hands-off approach to employee development. • Always-on managers, who provide constant, frequent feedback and coaching on all aspects of the employee's performance. • Connector managers, who provide feedback in their area of expertise while connecting employees to others in the team or organization who are better suited to address specific needs. Although the four types of managers are more or less evenly distributed, the Connector manager consistently outperforms the others by a significant margin. Meanwhile, Always-on managers tend to see their employees struggle to grow within the organization. Why is that? Drawing on their groundbreaking data-driven research, as well as in-depth case studies and extensive interviews with managers and employees at companies like IBM, Accenture, and eBay, the authors show what behaviors define a Connector manager, and why they are able to build powerhouse teams. They also show why other types of managers fail to be equally effective, and how they can incorporate behaviors of Connector managers in order to be more effective at building teams.

In his famous seminar on ethics, Jacques Lacan uses this question as his departure point for a re-examination of Freud's work and the experience of psychoanalysis in relation to ethics. Delving into the psychoanalyst's inevitable involvement with ethical questions, Lacan clarifies many of his key concepts. During the seminar he discusses the problem of sublimation, the paradox of *jouissance*, the essence of tragedy, and the tragic dimension of analytical experience. One of the most influential French intellectuals of this century, Lacan is seen here at the height of his powers.

Imprevisto a Barcellona. Agatha Mistery De Agostini

In the hands of many of the great writers, the unravelling of mystery is only one strand within a complex project. Other things get unravelled, too - the belief in a rationally explicable world, in the beneficent, ordering force of culture and civilization. Constantly the detective story delights in muddying the waters, in acknowledging the omnipresent possibilities of anarchy and carnage. As a genre, it is supremely able to combine popular appeal with the ability to disturb, provoke and challenge the reader. The essays in this volume all pay tribute to, and seek to account for, the astonishing durability of the detective story as a narrative genre. They range generously, taking a variety of theoretical approaches and including detective fiction in

languages other than English, but particular attention is paid to the 'Golden Age' of English detective story-writing and to the 'hard-boiled' American version of the genre. This is a collection that will appeal to the scholar and to the devotee alike; to all those, in fact, who cannot resist the lure of finding out whodunit.

First published more than three decades ago, this reissue of Rachel Carson's award-winning classic brings her unique vision to a new generation of readers. Stunning new photographs by Nick Kelsh beautifully complement Carson's intimate account of adventures with her young nephew, Roger, as they enjoy walks along the rocky coast of Maine and through dense forests and open fields, observing wildlife, strange plants, moonlight and storm clouds, and listening to the "living music" of insects in the underbrush. "If a child is to keep alive his inborn sense of wonder." Writes Carson, "he needs the companionship of at least one adult who can share it, rediscovering with him the joy, excitement and mystery of the world we live in." The Sense of Wonder is a refreshing antidote to indifference and a guide to capturing the simple power of discovery that Carson views as essential to life. In her insightful new introduction, Linda Lear remembers Rachel Carson's groundbreaking achievements in the context of the legendary environmentalist's personal commitment to introducing young and old to the miracles of nature. Kelsh's lush photographs inspire sensual, tactile reactions: masses of leaves floating in a puddle are just waiting to be scooped up and examined more closely. An image of a narrow path through the trees evokes the earthy scent of the woods after a summer rain. Close-ups of mosses and miniature lichen fantasy-lands will spark innocent as well as more jaded imaginations. Like a curious child studying things underfoot and within reach, Kelsh's camera is drawn to patterns in nature that too often elude hurried adults: a stand of beech trees in the springtime, patches of melting snow and the ripples from a pebble tossed into a slow-moving stream. The Sense of Wonder is a timeless volume that will be passed on from children to grandchildren, as treasured as the memory of an early-morning walk when the song of a whippoorwill was heard as if for the first time.

Dana Simpson's Phoebe and Her Unicorn is back with more sparkles than ever! 'People should not leave looking-glasses hanging in their rooms any more than they should leave open cheque books or letters confessing some hideous crime.' 'If she concealed so much and knew so much one must prize her open with the first tool that came to hand - the imagination.' Virginia Woolf's writing tested the boundaries of modern fiction, exploring the

depths of human consciousness and creating a new language of sensation and thought. Sometimes impressionistic, sometimes experimental, sometimes brutally cruel, sometimes surprisingly warm and funny, these five stories describe love lost, friendships formed and lives questioned. This book includes *The Lady in the Looking Glass*, *A Society*, *The Mark on the Wall*, *Solid Objects* and *Lappin and Lapinova*.

Metallica have sold in excess of 100 million albums and won seven Grammys. Their journey from scuzzy Los Angeles garages to the stages of the world's biggest stadia has been an epic and often traumatic one, and one of the few truly great rock 'n' roll sagas. No music writers have been afforded greater access to Metallica over the years than Paul Brannigan and Ian Winwood, two former editors of *Kerrang*. Having conducted hundreds of hours of interviews with the band, they have between them gained an unparalleled knowledge of the group's history and an insiders' view of how their story has developed: they have ridden in the band's limos, flown on their private jet, joined them in the studio, been invited to the quartet's 'HQ' outside San Francisco and shared beers and stories with them in venues across the globe. There are countless memorable stories about the band never before seen in print, tales of bed-hopping and drug-taking and car-crashes and fist-fights and back-stabbing that occur when you mix testosterone and adrenaline, alcohol and egomania, talent and raw ambition. Perceptive, emotionally attached, and intellectually rigorous, *Birth, School, Metallica, Death* will be the essential and definitive story of this extraordinary band. Volume I takes us from the band's inception through to the recording and eve of release of their seminal, self-titled, 1991 album.
