From the author of the bestselling *Anam Cara* comes a beautiful collection of blessings to help readers through both the everyday and the extraordinary events of their lives. John O'Donohue, Irish teacher and poet, has been widely praised for his gift of drawing on Celtic spiritual traditions to create words of inspiration and wisdom for today. In *To Bless the Space Between Us*, his compelling blend of elegant, poetic language and spiritual insight offers readers comfort and encouragement on their journeys through life. O'Donohue looks at life's thresholds—getting married, having children, starting a new job—and offers invaluable guidelines for making the transition from a known, familiar world into a new, unmapped territory. Most profoundly, however, O'Donohue explains “blessing” as a way of life, as a lens through which the whole world is transformed. O'Donohue awakens readers to timeless truths and shows the power they have to answer contemporary dilemmas and ease us through periods of change.

'An astonishing love story, beautifully told' *Time Out* 'I am sixteen. I am as old as the century' It is 1916. Vincent is sixteen, on the brink of manhood. Vincent is aristocratic and privileged, frequenting the salons of Paris while France is at war and the city almost deserted of men. In that brutal summer, Vincent's beauty and precocity captivate two men: Marcel, thirty years his senior, a writer and celebrated socialite; and Arthur, the twenty-one year old son of one of the servants, who is now a soldier at the

front. As both relationships develop Vincent intuitively tries to keep his passions separate, but over the weeks of indolent Parisian summer and far-off war, confidences are made, absences endured, secrets revealed. All of these men will suffer, and Vincent will lose the last vestiges of his childhood innocence. In the Absence of Men is a stunning first novel to discover this pride season: in its daring in representation and celebration of gay sexuality, in the beauty of its prose and in its delicacy of feeling. “A moving, earnest, and deeply-felt exploration of a unique family in all its joys and disappointments . . . an utter delight.” —Claire Lombardo, New York Times bestselling author of *The Most Fun We Ever Had* Ae-ran Kim's *My Brilliant Life* explores family bonds and out-of-the-ordinary friendships, interweaving the past and present of a tight-knit family, finding joy and happiness in even the most difficult times. Areum lives life to its fullest, vicariously through the stories of his parents, conversations with Little Grandpa Jang—his sixty-year-old neighbor and best friend—and through the books he reads to visit the places he would otherwise never see. For several months, Areum has been working on a manuscript, piecing together his parents’ often embellished stories about his family and childhood. He hopes to present it on his birthday, as a final gift to his mom and dad; their own falling-in-love story. Through it all, Areum and his family will have you laughing and crying, for all the right reasons. “This novel snuck up on me and captured my heart.” —Margarita Montimore, USA Today bestselling author of *Oona Out of Order* At the Publisher's request, this title is being sold without Digital Rights

A breathtaking true story of a rescue mission undertaken by a young woman and her family in one of the most repressive countries in the world. Helie Lee often had heard her grandmother speak of an uncle, lost decades ago when he was a child during the family's daring escape from North Korea. As an adult, he was still living there under horrid conditions. When her grandmother began to ail, Helie became determined to reunite her with her eldest son, despite tremendous odds. Helie's mission became even more urgent when she realized that her first book, the bestselling novel *Still Life with Rice*, about the family's escape, might have angered the North Korean government and put her uncle in danger. Pushing through rivers and forests, fighting the cold, bribing and manipulating border guards, gangsters, and secret service agents, Helie and her father finally achieve their goal. But there are many hurdles. Her uncle is forced to make a harrowing choice: leave his North Korean family behind or continue to live in oppression and starvation away from his beloved mother. And Helie has to face her deep, sometimes ambivalent, emotions about her identity in the family and as a Korean American woman. Unmarried and outspoken, she struggles in Korea, where women marry early and keep silent, and writes eloquently about the landscape there, both literal and cultural. She comes through a heartbreaking love affair only to face an intense and confusing relationship with the Guide—the man who, despite being crude and macho, ultimately helps to save her uncle and eventually his extended family

through several daring acts of heroism. In the Absence of Sun is a riveting adventure story and a powerful tale of family bonds and reunion. “An eerie fear crawled through my flesh as I stood on the Chinese side of the Yalu River, gazing across the murky water into one of the most closed-off and isolated countries in the world. I couldn’t believe it. Even as my boots sank into the doughy mud, I had trouble coming to terms with the fact that I was actually standing there. . . . I was not prepared for the kind of despair and insane fear I felt that day. My wizened old uncle looked nothing like the sweet-faced teenager in the faded photograph that Halmoni kept pressed between the pages of her Bible. That day, at the Yalu River, staring helplessly into his terrorized face, I hadn’t fully realized what a dangerous thing I had done the year before. I had placed him and his family in danger. By including details of my uncle’s life in a book, I had alerted North Korea’s enigmatic leadership to the identity of my relatives in a nation where it was better to remain invisible.” —From In the Absence of Sun

Soon enough, nobody will remember life before the Internet. What does this unavoidable fact mean? Those of us who have lived both with and without the crowded connectivity of online life have a rare opportunity. We can still recognize the difference between Before and After. We catch ourselves idly reaching for our phones at the bus stop. Or we notice how, midconversation, a fumbling friend dives into the perfect recall of Google. Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of *Hiroshima*.

This classic work proves the truth of the Copernican system over the Ptolemaic one, that the Earth revolves around the Sun.

In his sequel to the best-selling *Into the Silent Land*, Martin Laird guides the reader more deeply into the sanctuary of Christian meditation. He focuses here on negotiating key moments of difficulty on the contemplative path, showing how the struggles we resist become vehicles of the healing silence we seek. With clarity and grace Laird shows how we can move away from identifying with our turbulent, ever-changing thoughts and emotions to the cultivation of a "sunlit absence"--the luminous awareness in which God's presence can most profoundly be felt.

"An original fantasy filled with magic and culture, the story of a character torn between two names, two loyalties, and two definitions of good and evil."—Kevin J. Anderson, New York Times bestselling author of *Spine of the Dragon* Wen Alder was born into two worlds. On his father's side, a legacy of proud loyalty and service to the god-like Sienese Emperor spanning generations. And it is expected that Alder, too, will follow this tradition by passing the Imperial exams, learning the accepted ways of magic and, if he serves with honor, enhancing his family's prominence by rising to take a most powerful position in Sien—the Hand of the Emperor. But from his mother he has inherited defiance from the Empire, a history of wild gods and magic unlike anything the Imperial sorcerers could yet control. It began when his spirited, rebellious grandmother took Alder into the woods and introduced him to her ways—ways he has never been able to forget. Now, on the verge of taking the steps that will forge the path of his life, Alder discovers that the conflict between the Empire and the resistance is only the beginning of a war that will engulf both heaven and earth, gods and man—and he may be the key to final victory for whichever side can claim him as their own... "Sublime prose and pin-sharp characterisation combine to produce a captivating epic of conflicted loyalties and dangerous ambition." —Anthony Ryan, New York Times bestselling author "The Hand of the Sun King is not the gentle story of a boy's rise to power; instead, it digs its fingernails into the layers of an empire that would consume and erase half that boy's identity. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

And while the text is aimed at adults—including fascinating new scientific research on the myriad ways birds have adapted to environmental changes—it is nontechnical, making it the perfect occasion for parents and grandparents to share their love of birds with young children, who will delight in the big, full-color illustrations of birds in action. Unlike any other book he has written, *What It's Like to Be a Bird* is poised to bring a whole new audience to David Sibley's world of birds.

pandemic raged around the world, and kept Adichie and her family members separated from one another, her father succumbed unexpectedly to complications of kidney failure. Expanding on her original New Yorker piece, Adichie shares how this loss shook her to her core. She writes about being one of the millions of people grieving this year; about the familial and cultural dimensions of grief and also about the loneliness and anger that are unavoidable in it. With signature precision of language, and glittering, devastating detail on the page—and never without touches of rich, honest humor—Adichie weaves together her own experience of her father's death with threads of his life story, from his remarkable survival during the Biafran war, through a long career as a statistics professor, into the days of the pandemic in which he'd stay connected with his children and grandchildren over video chat from the family home in Abba, Nigeria. In the compact format of *We Should All Be Feminists* and *Dear Ijeawele*, Adichie delivers a gem of a book—a book that fundamentally connects us to one another as it probes one of the most universal human experiences. *Notes on Grief* is a book for this moment—a work readers will treasure and share now more than ever—and yet will prove durable and timeless, an indispensable addition to Adichie's canon.

Christopher Knowlton, author of *Cattle Kingdom* and former *Fortune* writer, takes an in-depth look at the spectacular Florida land boom of the 1920s and shows how it led directly to the Great Depression. The 1920s in Florida was a time of incredible excess, immense wealth, and precipitous collapse. The decade there produced the largest human migration in American history, far exceeding the settlement of the West, as millions flocked to the grand hotels and

the new cities that rose rapidly from the teeming wetlands. The boom spawned a new subdivision civilization—and the most egregious large-scale assault on the environment in the name of “progress.” Nowhere was the glitz and froth of the Roaring Twenties more excessive than in Florida. Here was Vegas before there was a Vegas: gambling was condoned and so was drinking, since prohibition was not enforced. Tycoons, crooks, and celebrities arrived en masse to promote or exploit this new and dazzling American frontier in the sunshine. Yet, the import and deep impact of these historical events have never been explored thoroughly until now. In *Bubble in the Sun* Christopher Knowlton examines the grand artistic and entrepreneurial visions behind Coral Gables, Boca Raton, Miami Beach, and other storied sites, as well as the darker side of the frenzy. For while giant fortunes were being made and lost and the nightlife raged more raucously than anywhere else, the pure beauty of the Everglades suffered wanton ruination and the workers, mostly black, who built and maintained the boom, endured grievous abuses. Knowlton breathes dynamic life into the forces that made and wrecked Florida during the decade: the real estate moguls Carl Fisher, George Merrick, and Addison Mizner, and the once-in-a-century hurricane whose aftermath triggered the stock market crash. This essential account is a revelatory—and riveting—history of an era that still affects our country today.

often fails the American public. From the financial crisis to rising student debt to collapsing public infrastructure, she found a common root problem: racism. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world's advanced economies, has thwarted universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: gains that come when people come together across race, to accomplish what we simply can't do on our own. *The Sum of Us* is a brilliant analysis of how we arrived here: divided and self-destructing, materially rich but spiritually starved and vastly unequal. McGhee marshals economic and sociological research to paint an irrefutable story of racism's costs, but at the heart of the book are the humble stories of people yearning to be part of a better America, including white supremacy's collateral victims: white people themselves. With startling empathy, this heartfelt message from a Black woman to a multiracial America leaves us with a new vision for a future in which we finally realize that life can be more than a zero-

The author of *Straw Dogs*, famous for his provocative critiques of scientific hubris and the delusions of progress and humanism, turns his attention to cats—and what they reveal about humans' torturous relationship to the world and to themselves. The history of philosophy has been a predictably tragic or comical succession of palliatives for human disquiet. Thinkers from Spinoza to Berdyaev have pursued the perennial questions of how to be happy, how to be good, how to be loved, and how to live in a world of change and loss. But perhaps we can learn more from cats--the animal that has most captured our imagination--than from the great thinkers of the world. of living that is unburdened by anxiety and self-consciousness, showing how they embody answers to the big questions of love and attachment, mortality, morality, and the Self: Montaigne's house cat, whose un-examined life may have been the one worth living; Meo, the Vietnam War survivor with an unshakable capacity for "fearless joy"; and Colette's Saha, the feline heroine of her subversive short story "The Cat", a parable about the pitfalls of human jealousy. Exploring the nature of cats, and what we can learn from it, Gray offers a profound, thought-provoking meditation on the follies of human exceptionalism and our fundamentally vulnerable and lonely condition. He charts a path toward a life without illusions and delusions, revealing how we can endure both crisis and transformation, and adapt to a changed scene, as cats have always done.

Based on a true story, this gorgeous new novel follows the fortunes of three Berliners caught up in an art scandal--involving newly discovered van Goghs--that rocks Germany amidst the Nazis' rise to power. Hedonistic and politically turbulent, Berlin in the 1920s is a city of seedy night clubs and sumptuous art galleries. It is home to millionaires and mobs storming bakeries for rationed bread. These disparate Berlins collide when Emmeline, a young art student; Julius, an art expert; and a mysterious dealer named Rachmann all find themselves caught up in the astonishing discovery of thirty-two previously unknown paintings by Vincent van Gogh. In *The Full Light of the Sun* explores the trio's complex relationships and motivations, their hopes, their vanities, and their self-delusions--for the paintings are fakes and they are in their own ways complicit. Theirs is a cautionary tale about the aspirations of the new Germany and a generation determined to put the humiliations of the past behind them. With her signature impeccable and evocative historical detail, Clare Clark has written a gripping novel about beauty and justice, and the truth that may be found when our most treasured beliefs are revealed as illusions.

Exuberance and dread, attachment and estrangement: in this novel, Jhumpa Lahiri stretches her themes to the limit. In the arc of one year, an unnamed narrator in an unnamed city, in the middle of her life's journey, realizes that she's lost her way. The city she calls home acts as a companion and interlocutor: traversing the streets around her house, and in parks, piazzas, museums, stores, and coffee bars, she feels less alone. We follow her to the pool she frequents, and to the train station that leads to her mother, who is mired in her own solitude after her husband's untimely death.
