An absorbing and touching read, this collection of true stories is the first book by a Canadian doctor on the topic of refugee health. *Your Heart Is the Size of Your Fist* draws readers into the complicated, poignant, and often-overlooked daily happenings of a busy urban medical clinic for refugees. An Iraqi journalist whose son has been murdered develops post-traumatic stress disorder and mourns his loss of vocation. A Congolese woman refuses antiretroviral treatment for her new HIV diagnosis, and instead places her trust in Jesus. Two conservative Muslim Iraqi women are inadvertently exposed to pornography when a doctor uses Google Images to supplement a medical discussion. By turns humorous, distressing, and moving, these stories offer insight into the people seeking a new life while navigating poverty, language barriers, and neighbours who aren't always friendly. This riveting collection of true stories from Dr. Martina Scholtens is filled with hope and humour, and together make up a deeply moving portrait of how one doctor attempts to provide quality care and advocacy for patients while remaining culturally sensitive, even as she wrestles with guilt, awareness of her own privilege, the faith she was raised with, and vicarious trauma after hearing countless stories of brutality and suffering. In the spirit of Louise Aronson and Atul Gawande, Scholtens' writing is based on her personal experiences and explores the transformative moments in which a clinical doctor-patient relationship becomes a profound

human-human connection.

Based on dozens of shocking interviews with some of the most influential names in sports, this is the urgent and revelatory examination of racial inequality in professional athletics America has been waiting for. Commentators, coaches, and fans alike have long touted the diverse rosters of leagues like the NFL and MLB as sterling examples of a post-racial America. Yet decades after Tommie Smith and John Carlos raised their fists in a display of Black power and pride, and years after Colin Kaepernick shocked the world by kneeling for the national anthem, the role black athletes and coaches are asked to perform--both on and off the field--still can be determined as much by stereotype and old-fashion ideology as ability and performance. Whether it's the pre-game moments of resistance, the lack of diversity among coaching and managerial staff, or the consistent undervaluation of black quarterbacks, racial politics impact every aspect of every sport being played. Yet, the gigantic salaries and glitzy lifestyles of pro athletes tend to disguise the ugly truths of how minorities are treated and discarded by their white bosses. Promising to finally expose the structural prejudices underpinning this pillar of modern society, John Feinstein has crisscrossed the country to not only get the stories none of us have heard but all of us should know but also constructed those harrowing tales into a larger narrative that will be the definitive book on race and sports for a generation to come. Seventy-five years after Jackie Robinson broke baseball's color line, race is still a central and defining factor of America's professional sports leagues. With an encyclopedic knowledge of professional sports, and shrew cultural criticism, John Feinstein uncovers not just why, but how, pro sports continue to perpetuate racial inequality.

Stalinism, that particularly brutal phase of the Communist experience, came to an end in most of Europe with the death of Stalin in 1953. However, in one country - Albania - Stalinism survived virtually unscathed until 1990. The regime that the Albanian dictator Enver Hoxha led from 1944 until his death in 1985 was incomparably severe. Such was the reign of terror that no audible voice of opposition or dissent ever arose in the Balkan state and Albania became isolated from the rest of the world and utterly inward-looking. Three decades after his death, the spectre of Hoxha still lingers over the country, yet many people - inside and outside Albania - know little about the man who ruled the country with an iron fist for so many decades. This book provides the first biography of Hoxha available in English. Using unseen documents and first-hand interviews, journalist Blendi Fevziu pieces together the life of a tyrannical ruler in a biography which will be essential reading for anyone interested in Balkan history and communist studies.

The first biography of Dorothy Pitman Hughes, a trailblazing Black feminist activist whose work made children, race, and welfare rights central to the women's movement. Historian Laura Lovett weaves together a biography of an activist who was intersectional to the core revealing a remarkable legacy that few have known until now and will appeal to readers interested in urban studies, activism, and Black women's history. Dorothy Pitman Hughes was a transformative community organizer in New York City in the 1970s, who shared the stage with Gloria Steinem for five years, captivating audiences around the country. After leaving rural Georgia in the 1950s, she moved to New York, determined to fight for civil rights and equality. Lovett traces Pitman Hughes' transformation into a powerhouse activist determined to take on the needs of her community and build a platform for empowerment. She created lasting change by revitalizing her West Side neighborhood, a community subjected to racial discrimination, with nonexistent childcare and sub-standard housing, in which poverty, drug use, lack of job training, and the effects of the Vietnam War were evident She imagined and then created a high quality child care center which also offered job training, adult education classes, a Youth Action corps, housing assistance and food resources. Pitman Hughes' realization that the area could be revitalized by actively engaging and including the community was prescient and is startlingly relevant. As her stature and influence grew to a national level, Pitman Hughes went from the West Side to spending several years traversing the country with Steinem and educating people about feminism, childcare, and race. Pitman Hughes's community activism was transformed when she moved to Harlem in the 1970s to counter gentrification. She bought the franchise to the Miss Greater New York City pageant in order to demonstrate that black was beautiful. She also opened an office supply store and became a powerful voice for Black women entrepreneurs and Black-owned business only to be thwarted by plans for economic development that favored national chains over local businesses. Throughout every phase of her life, Pitman Hughes' understood the transformative power of activism with the Black community.
