Past Lives Peter Fenwick, Elizabeth Fenwick, 2001-07-01 For centuries, the existence of reincarnation has been a firmly held belief of millions that crosses races, religions, and cultures. In *Past Lives*, Dr. Peter Fenwick and Elizabeth Fenwick examine this extraordinary phenomenon by attempting to determine whether people are experiencing actual memories, or thoughts and ideas based on imagination. Featuring more than 100 firsthand accounts from those who believe they can recall their previous existences, this insightful exploration of reincarnation may change the way you think—and challenge your views of life itself. • A World War II veteran relives the moment of his death—in the cockpit of a bi-plane during the first World War. • A hypnotized woman starts speaking with an Irish brogue about her life in Ireland although she's never visited there. • While vacationing in Egypt, a woman correctly describes a temple she was once worshipped in—without ever having been inside.

Children's Past Lives Carol Bowman, 2012-02-01 Has your child lived before? In this fascinating, controversial, and groundbreaking book, Carol Bowman reveals overwhelming evidence of past life memories in children. Not only are such experiences real, they are far more common than most people realize. Bowman's extraordinary investigation was sparked when her young son, Chase, described his own past-life death on a Civil War battlefield—an account so accurate it was authenticated by an expert historian. Even more astonishing, Chase's chronic eczema and phobia of loud noises completely disappeared after he had the memory. Inspired by Chase's dramatic healing, Bowman compiled dozens of cases and wrote this comprehensive study to explain how very young children remember their past lives, spontaneously and naturally. In *Children's Past Lives*, she tells how to distinguish between a true past life memory and a fantasy, offers practical advice to parents on how to respond to a past life memory, and shows how to foster the spiritual and healing benefits of these experiences. Perhaps the most moving, convincing, and best-documented evidence yet for life after death, *Children's Past Lives* will stand alongside the classics of Betty J. Eadie, Raymond Moody, and Brian Weiss in its power to comfort, uplift, and transform our thinking about life after death.

Return to Life Jim B. Tucker, M.D.,2013-12-03 Dr. Tucker, in a follow-up to his book *Life Before Life*, explores American cases of young children who report memories of previous lives in the New York Times bestseller, *Return to Life*. A first-person account of Jim Tucker's experiences with a number of extraordinary children with memories of past lives, *Return to Life* focuses mostly on American cases, presenting each family's story and describing his investigation. His goal is to determine what happened—what the child has said, how the parents have reacted, whether the child's statements match the life of a particular deceased person, and whether the child could have learned such information through normal means. Tucker has found cases that provide persuasive evidence that some children do, in fact, possess memories of previous lives. Among others, readers will meet a boy who describes a previous life on a small island. When Tucker takes him to that island, he finds that some details eerily match the boy's statements and some do not. Another boy points to a photograph from the 1930s and says he used to be one of the men in it. Once the laborious efforts to identify that man are successful, many of the child's numerous memories are found to match the details of his life. Soon after his second birthday, a third boy begins expressing memories of being a World War II pilot who is eventually identified. Thought-provoking and captivating, *Return to Life* urges its readers to think about life and death and reincarnation, and reflect about their own consciousness and spirituality.

Past Life Regression Mary Lee LaBay,2004-12-10 The quest for self-knowledge and awareness has gained increasing popularity over the past several decades, with an explosion of beliefs and methodologies. Central to these practices is the exploration of past lives. From the curious layperson to the traditional doctor of medicine, people are employing various techniques in an effort to facilitate this experience. Certified hypnotherapy instructor Mary Lee LaBay has written *Past Life Regression: A Guide for Practitioners* as a comprehensive text for beginning as well as veteran therapists. Ms. LaBay covers both basic and advanced techniques in a philosophical context, to help practitioners generate maximum healing and change during the past life session. Through case studies and concise instructions, the author demonstrates practical and elegant uses of these techniques that allow the client to discover life purpose, aspects of their relationships, roots of disease, addiction, and phobias, as well as a wide range of other life issues.

Past Lives, Present Stories Judith Marshall,2014-10-08 Discover how flashes from past lives can appear as signs and synchronicities, childhood impressions, dreams and memories, even spontaneous shifts in consciousness or time. Providing

time-tested exercises, *Past Lives, Present Stories* shows how to explore your past lives and use the lessons you've learned to flourish in your present incarnation. Join author Judith Marshall as she takes you through the full range of techniques for exploring your past lives and piecing together information to help you on your path. Providing examples of her own glimpses into her past lives, Judith illustrates how illuminating and healing past-life discovery can be.

Invisible Roots Barbara Stone, 2008-09-15 What happens when psychological problems and physical symptoms stubbornly persist even with the most advanced methods of cure? This problem confounded many of psychotherapist Dr. Barbara Stone's clients, who could not shake phobias, addictions, depression, anger, pain, chronic fatigue, and other physical conditions, no matter what they tried. Then, searching deeper realms uncovered links to traumatic past lives and to spirits of the deceased who had not been able to move into the Light because of emotional turmoil. After treating the wounds of these past lives and earthbound spirits, the presenting problems disappeared. This groundbreaking book describes these remarkable stories and the methods used to help people heal. A resource for therapists confronted with these phenomena, this book is also for anyone struggling to understand the origins of persistent patterns of blockage or disease. Best of all, it brings the remarkable breakthrough therapies of Energy Psychology to bear on this difficult area, providing an abundance of tools and techniques for resolving issues whose roots lie in realms other than the present lifetime.

Discovering Your Past Lives Gloria Chadwick, 1988-09-22 Describes how to recognize past-life memories as they arise from the subconscious mind. --Fate magazine.

In This Life Terri Herman-Ponc, 2012-12-01 Psychologist Lottie Morgan knows something is wrong when she starts reliving memories of a lover she's never had. At first, she attributes them to fever-induced dreams. But when the fever disappears and the visions don't, Lottie thinks she may need therapy of her own. Then she meets Galen. Their first encounter is as intense as it is eye-opening, and Lottie is unprepared for the fire Galen arouses in her. His revelation that they shared a passionate relationship thousands of years ago explains the memories and entices Lottie into wanting to learn more about her past. Her decision, however, comes at a price. Galen may hold the answers but he could destroy the devoted, lifelong relationship Lottie has with her current lover, David. As parallels between both of her lives emerge and the memories escalate, Lottie becomes caught between two lifetimes, two men, and long-buried deceptions that present an opportunity to right previous wrongs. Unless Lottie repeats her past mistakes. Sensuality Level: Sensual

Across Time and Death Jenny Cockell, 1994 For as long as she could remember, Jenny Cockell had felt she had lived a former life as Mary Sutton. Finally, Jenny acted on her intense need to find her lost family. After years of painstaking searching, she finally reunited with family members from her previous lifetime. This is her startling, true story.

Awakening Past Lives John Z. Amoroso, 2012-06 The experiential exercises in this book allow the reader to regress back

to past lives, as well as into what the author defines as the 'energetic chain of experience' (E.C.E.). The E.C.E. includes between life, before life and perinatal (in utero) experiences as well as biographical experiences.

Past Lives, Present Dreams Denise Linn,1997 As we approach the beginning of a new millennium, huge and exciting changes will occur. And as powerful planetary shifts increase, we have a unique opportunity to release our limitations. Past Lives, Present Dreams teaches us how to best take advantage of the energies available for growth and personal expansion. In this wise and thorough guide to past-life therapy, renowned healer Denise Linn shows you how to address persistent conditions that haven't responded to other types of therapy. You will come to understand . . . * The concepts of reincarnation, soul mates, and karma * Techniques that can be used for past-life regression * How past-life therapy can improve your health, relationships, and prosperity * How fears, phobias, and blockages can be released through regression * Dreams and how they provide a vital connection to your past lives * Spirit guides, animal guides, and angels that can assist you in past life exploration With many examples of past life regressions and her comprehensive knowledge of mystical traditions around the world, Linn teaches you to rewrite the past to improve your present and future.

Reliving Past Lives: The Evidence Under Hypnosis Helen Wambach,2021-04-06 In *Reliving Past Lives*, psychologist Helen Wambach, PhD, shares the fascinating results of her large-scale past-life group hypnotherapy sessions. In an effort to rule out false memory, fantasy and wishful thinking often associated with past life hypnosis, Wambach devised a protocol where she chose time-specific periods from 2000 BC to the twentieth century and asked respondents where they were and what they were doing during that specific period. Race, social class, occupation, types of money used and gender were all explored. Mundane questions were asked such as: What types of utensils are being used? Describe weaving techniques that are being used. What foodstuffs are commonly in use during this time? What color is the brickwork of the houses? As expected, when taken to a specific period some respondents reported experiences while others reported nothing, prompting the question, did they report nothing because they were between lives? Wambach reasoned that if she asked a large number of subjects questions about a specific time and place and received a sizable percentage of similar answers from subjects who weren't consciously aware of the information they were reporting, that was something worth investigating further. Together with her book, *Life before Life*, the data is compelling reading for anyone pondering the validity of reincarnation and life beyond physical death.
