India Before Europe Catherine B. Asher,Cynthia Talbot,2006-03-16 The first survey of the political, economic, religious and cultural landscapes of medieval India.

India before Europe Catherine B. Asher,Cynthia Talbot,2022-09-08 India is a land of enormous diversity. Cross-cultural influences are everywhere in evidence, in the food people eat, the clothes they wear, and in the places they worship. This was ever the case, and at no time more so than in the India that existed from c. 1200 to 1750, before European intervention. In this thoughtfully revised and updated second edition, readers are taken on a richly illustrated journey across the political, economic, religious, and cultural landscapes of India - from the Ghurid conquest and the Delhi Sultanate, through the rise and fall of the southern kingdom of Vijayanagara and their successors, to the peripheries of empire, to the great court of the Mughals. This was a time of conquest and consolidation, when Muslims and Hindus came together to create a literary, material, and visual culture which was uniquely their own and which still resonates today.

The Zoomorphic Imagination in Chinese Art and Culture Jerome Silbergeld, Eugene Y. Wang, 2016-10-31 China has an age-old zoomorphic tradition. The First Emperor was famously said to have had the heart of a tiger and a wolf. The names of foreign tribes were traditionally written with characters that included animal radicals. In modern times, the communist government frequently referred to Nationalists as “running dogs,” and President Xi Jinping, vowing to quell corruption at all levels, pledged to capture both “the tigers” and “the flies.” Splendidly illustrated with works ranging from Bronze Age vessels to twentieth-century conceptual pieces, this volume is a wide-ranging look at zoomorphic and anthropomorphic imagery in Chinese art. The contributors, leading scholars in Chinese art history and related fields, consider depictions of animals not as simple, one-for-one symbolic equivalents: they pursue in depth, in complexity, and in multiple dimensions the ways that Chinese have used animals from earliest times to the present day to represent and rhetorically stage complex ideas about the world around them, examining what this means about China, past and present. In each chapter, a specific example or theme based on real or mythic creatures is derived from religious, political, or other sources, providing the detailed and learned examination needed to understand the means by which such imagery was embedded in Chinese cultural life. Bronze Age taotie motifs, calendrical animals, zoomorphic modes in Tantric Buddhist art, Song dragons and their painters, animal rebuses, Heaven-sent auspicious horses and foreign-sent tribute giraffes, the fantastic specimens depicted in the Qing *Manual of Sea Oddities*, the weirdly indeterminate creatures found in the contemporary art of Huang Yong Ping—these and other notable examples reveal Chinese attitudes over time toward the animal realm, explore Chinese psychology and patterns of imagination, and explain some of the critical means and motives of Chinese visual culture. *The Zoomorphic Imagination in Chinese Art and Culture* will find a ready audience among East Asian art and visual culture specialists and those with an interest in literary or visual rhetoric. Contributors: Sarah Allan, Qianshen Bai, Susan Bush, Daniel Greenberg, Carmelita (Carma) Hinton, Judy Chungwa Ho, Kristina Kleutghen, Kathlyn Liscomb, Jennifer Purtle, Jerome Silbergeld, Henrik Sørensen, and Eugene Y. Wang.

New Materialisms Ancient Urbanisms Susan M. Alt, Timothy R. Pauketat, 2019-08-05 The future of humanity is urban, and knowledge of urbanism’s deep past is critical for us all to navigate that future. The time has come for archaeologists to rethink this global phenomenon by asking what urbanism is and, more to the point, was. Can we truly understand ancient urbanism by only asking after the human element, or are the properties and qualities of landscapes, materials, and atmospheres equally causal? The nine authors of *New Materialisms Ancient Urbanisms* seek less anthropocentric answers to questions about the historical relationships between urbanism and humanity in Africa, Asia, and the Americas. They analyze the movements and flows of materials, things, phenomena, and beings—human and otherwise—as these were assembled to

produce the kinds of complex, dense, and stratified relationships that we today label urban. In so doing, the book emerges as a work of both theory and historical anthropology. It breaks new ground in the archaeology of urbanism, building on the latest 'New Materialist', 'relational-ontological', and 'realist' trends in social theory. This book challenges a new generation of students to think outside the box, and provides scholars of urbanism, archaeology, and anthropology with a fresh perspective on the development of urban society.

A Book of Conquest Manan Ahmed Asif, 2016-09-19 The question of how Islam arrived in India remains markedly contentious in South Asian politics. Standard accounts center on the Umayyad Caliphate's incursions into Sind and littoral western India in the eighth century CE. In this telling, Muslims were a foreign presence among native Hindus, sowing the seeds of a mutual animosity that presaged the subcontinent's partition into Pakistan and India many centuries later. But in a compelling reexamination of the history of Islam in India, Manan Ahmed Asif directs attention to a thirteenth-century text that tells the story of Chach, the Brahmin ruler of Sind, and his kingdom's later conquest by the Muslim general Muhammad bin Qasim in 712 CE. The Chachnama has long been a touchstone of Indian history, yet it is seldom studied in its entirety. Asif offers a close and complete analysis of this important text, untangling its various registers and genres in order to reconstruct the political vision at its heart. Asif challenges the main tenets of the Chachnama's interpretation: that it is a translation of an earlier Arabic text and that it presents a history of conquest. Debunking both ideas, he demonstrates that the Chachnama was originally Persian and, far from advancing a narrative of imperial aggression, is a subtle and sophisticated work of political theory, one embedded in both the Indic and Islamic ethos. This social and intellectual history of the Chachnama is an important corrective to the divisions between Muslim and Hindu that so often define Pakistani and Indian politics today.

The Last Hindu Emperor Cynthia Talbot, 2016 This book traces the genealogy and historical memory of the twelfth-century ruler Prithviraj Chauhan, remembered as the 'last Hindu Emperor of India'.

Constructing Islam on the Indus Hasan Ali Khan, 2016-08-08 This book represents the first serious consideration of Ismaili-Shia esotericism in material and architectural terms, as well as of pre-modern conceptions of religious plurality in rituals and astrology. Sufism has long been reckoned to have connections to Shi'ism, but without any concrete proof. The book shows this connection in light of current scholarly work on the subject, historical sources, and most importantly, metaphysics and archaeological evidence. The monuments of the Suhrawardi Order, which are derived from the basic lodges set up by Pir Shams in the region, constitute a unique building archetype. The book's greatest strength lies in its archaeological evidence and in showing the metaphysical commonalities between Shi'ism/Isma'ilism and the Suhrawardi Sufi Order, both of which complement each other. In addition, working on premise and supposition, certain reanalysed historical periods and events in Indian Muslim history serve as added proof for the author's argument.

Accidental Gamblers Sarthak Gaurav, Thiagu Ranganathan, 2023-01-31 Vidarbha - a major cotton growing region in central India has been the epicentre of a protracted agrarian crisis. Chronic indebtedness and farmers' suicides continue unabated despite decades of state intervention. Going beyond the contemporary discourse that finds fault in neoliberal policies and integration with global markets, this fascinating book tells the story of how nineteenth century 'accidents' particularly in the form of colonial policies and the American Civil War ushered in institutional transformations that shaped the region's cotton economy. By drawing insights from their longitudinal study in villages of the region spanning 12 years, Gaurav and Ranganathan present the 'gambles' that farmers are part of. The novelty of combining a long view of history and evidence based on primary field research results in a book that underscores the importance of investigating roots of agrarian crisis and paying attention to adjustments of farm households, at a crucial juncture in India's economic transformation.

Architecture of Mughal India Catherine Blanshard Asher, 1992-09-24 Traces the development and spread of architecture under the Mughal emperors who ruled the Indian subcontinent from the early-16th to the mid-19th centuries. The book considers the entire scope of architecture built under the auspices of the imperial Mughals and their subjects.

Routledge Handbook of South Asian Religions Knut A. Jacobsen, 2020-11-29 The Routledge Handbook of South Asian Religions presents critical research, overviews, and case studies on religion in historical South Asia, in the seven nation states of contemporary South Asia: India, Pakistan, Bangladesh, Nepal, Bhutan, Sri Lanka, and the Maldives, and in the South Asian diaspora. Chapters by an international set of experts analyse formative developments, roots, changes and transformations, religious practices and ideas, identities, relations, territorialisation, and globalisation in historical and

contemporary South Asia. The Handbook is divided into two parts which first analyse historical South Asian religions and their developments and second contemporary South Asia religions that are influenced by both religious pluralism and their close connection to nation states and their ideological power. Contributors argue that religion has been used as a tool for creating nations as well as majorities within those nations in South Asia, despite their enormous diversity, in particular religious diversity. The Handbook explores these diversities and tensions, historical developments, and the present situation across religious traditions by utilising an array of approaches and from the point of view of various academic disciplines. Drawing together a remarkable collection of leading and emerging scholars, this handbook is an invaluable research tool and will be of interest to researchers and students in the fields of Asian religion, religion in context, and South Asian religions.

The British National Bibliography Arthur James Wells, 2006

India in the Persianate Age Richard M. Eaton, 2019-07-25 SHORTLISTED FOR THE 2020 CUNDILL HISTORY PRIZE

'Remarkable ... this brilliant book stands as an important monument to an almost forgotten world' William Dalrymple, Spectator A sweeping, magisterial new history of India from the middle ages to the arrival of the British The Indian subcontinent might seem a self-contained world. Protected by vast mountains and seas, it has created its own religions, philosophies and social systems. And yet this ancient land experienced prolonged and intense interaction with the peoples and cultures of East and Southeast Asia, Europe, Africa and, especially, Central Asia and the Iranian plateau between the eleventh and eighteenth centuries. Richard M. Eaton's wonderful new book tells this extraordinary story with relish and originality. His major theme is the rise of 'Persianate' culture - a many-faceted transregional world informed by a canon of texts that circulated through ever-widening networks across much of Asia. Introduced to India in the eleventh century by dynasties based in eastern Afghanistan, this culture would become thoroughly indigenized by the time of the great Mughals in the sixteenth, seventeenth, and eighteenth centuries. This long-term process of cultural interaction and assimilation is reflected in India's language, literature, cuisine, attire, religion, styles of rulership and warfare, science, art, music, architecture, and more. The book brilliantly elaborates the complex encounter between India's Sanskrit culture - which continued to flourish and grow throughout this period - and Persian culture, which helped shape the Delhi Sultanate, the Mughal Empire and a host of regional states, and made India what it is today.

The Sikhs of the Punjab J. S. Grewal, 1991-02-21 In a revised edition of his original book, J. S. Grewal brings the history of the Sikhs from its beginnings in the time of Guru Nanak, the founder of Sikhism, right up to the present day. Against the background of the history of the Punjab, the volume surveys the changing pattern of human settlements in the region until the fifteenth century and the emergence of the Punjabi language as the basis of regional articulation. Subsequent chapters explore the life and beliefs of Guru Nanak, the development of his ideas by his successors and the growth of his following. The book offers a comprehensive statement on one of the largest and most important communities in India today.

A Social History of the Deccan, 1300-1761 Richard M. Eaton,2005-11-17 In this fascinating account of one of the least known parts of South Asia, Eaton recounts the history of the Deccan plateau in southern India from the fourteenth century to the rise of European colonialism. He does so, vividly, through the lives of eight Indians who lived at different times during this period, and who each represented something particular about the Deccan. In the first chapter, for example, the author describes the demise of the regional kingdom through the life of a maharaja. In the second, a Sufi sheikh illustrates Muslim piety and state authority. Other characters include a merchant, a general, a slave, a poet, a bandit and a female pawnbroker. Their stories are woven together into a rich narrative tapestry, which illumines the most important social processes of the Deccan across four centuries. This is a much-needed book by the most highly regarded scholar in the field.

A Concise History of Modern India Barbara D. Metcalf,Thomas R. Metcalf,2006-09-28 In a second edition of their successful Concise History of Modern India, Barbara Metcalf and Thomas Metcalf explore India's modern history afresh and update the events of the last decade. These include the takeover of Congress from the seemingly entrenched Hindu nationalist party in 2004, India's huge advances in technology and the country's new role as a major player in world affairs. From the days of the Mughals, through the British Empire, and into Independence, the country has been transformed by its institutional structures. It is these institutions which have helped bring about the social, cultural and economic changes that have taken place over the last half century and paved the way for the modern success story. Despite these advances, poverty, social inequality and religious division still fester. In response to these dilemmas, the book grapples with questions of caste and religious identity, and the nature of the Indian nation.
