**NATIONAL BESTSELLER** • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Grammar* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Learning Chinese can be frustrating and difficult, partly because it's very different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: "The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study." - Geoff van der Meer, VP engineering "This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision." - Zachary Danz, foreign teacher, children's theatre artist About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.

"What would happen if Adolf Hitler woke up in modern-day Berlin? In a bestselling satirical novel, he'd end up a TV comedy star . . . [Look Who's Back] has unsurprisingly sparked debate in a country that has grappled for decades with Hitler's unconscionable legacy." -Time Timur Vermes' record-breaking bestseller, Look Who's Back, is a satirical novel that imagines what would happen if Hitler reawakened in present-day Germany. The book was a massive success in Germany, selling more than 1.5 million copies. Janet Maslin of The New York Times called Look Who's Back "desperately funny . . . an ingenious comedy of errors." In the novel, Adolf Hitler wakes up in 2011 from a 66-year sleep in his subterranean Berlin bunker to find the Germany he knew entirely changed: Internet-driven media spreads ideas in minutes and fumes celebrity obsession; immigration has produced multicultural neighborhoods bringing together people of varying race, ethnicity, and religion; and the most powerful person in government is

a woman. Hitler is immediately recognized . . . as an impersonator of uncommon skill. The public assumes the fulminating leader of the Nazi party is a performer who is always in character, and soon his inevitable viral appeal begets YouTube stardom, begets television celebrity on a Turkish-born comedian's show. His bigoted rants are mistaken for a theatrical satire-exposing prejudice and misrepresentation- and his media success emboldens Hitler to start his own political party, and set the country he finds a shambles back to rights. With daring and dark humor, Look Who's Back skewers the absurdity and depravity of the cult of personality in modern media culture.

"When Stars Were in Reach" (WSWIR) is the true story of a group of plucky and determined high school students who dreamt big and put their high school on the map. Tired of the usual boring bake sales and dances, this group of high school seniors tried a novel approach to fundraising. They coaxed an initially reluctant administration to enter the rock concert business in the fall of 1967 by booking an on-the-rise, little-known British rock band named curiously enough The Who. In the inevitable clash between a Catholic high school's button-down culture and the destructive live act of The Who, something had to give. WSWIR deconstructs a rock n' roll perfect storm by reliving the events and revisiting with many of the colorful cast of characters (not just the students) involved in transforming the school's image from that of a staid, conservative high school in Scotch Plains, New Jersey to one that was soon at the cutting edge of the rock music scene in the years 1967 and 1968, rock n' roll's hey day. WSWIR is also a snapshot of The Who at a period in their career when for all intents and purposes they were little more than a cult band in the United States, known more for scintillating live performances than record sales. When surveying the various U.S. venues in which The Who performed on the way to reaching iconic status, one would be hard-pressed to find a more unusual setting than Union Catholic High School where The Who left an audience of mostly first-time concert-going teens with mouths agape. It was an event that is still talked about today by those who attended the show and scoffed at in disbelief by everyone else...that is, until now. This is a Black and White Edition, meaning with the exception of the front and back cover, all graphics are in black and white. The book includes rare photographs of The Who on the Union Catholic stage and backstage (in the teachers' lounge no less!) as well as other choice accoutrements.

Many language books are boring—this one is not. Written by a native English speaker who learned Spanish the hard way—by trying to talk to Spanish-speaking people—it offers English speakers with a basic knowledge of Spanish hundreds of tips for using the language more fluently and colloquially, with fewer obvious "gringo" errors. Writing with humor, common sense, and a minimum of jargon, Joseph Keenan covers everything from pronunciation, verb usage, and common grammatical mistakes to the subtleties of addressing other people, "trickster" words that look alike in both languages, inadvertent obscenities, and intentional swearing. He guides readers through the set phrases and idiomatic expressions that pepper the native speaker's conversation and provides a valuable introduction to the most widely used Spanish slang. With this book, both students in school and adult learners who never want to see another classroom can rapidly improve their speaking ability. Breaking Out of Beginner's Spanish will be an essential aid in passing the supreme language test-communicating fluently with native speakers.
