A New York Times, USA Today, and Wall Street Journal bestselling book. One of the Top 100 Romance Novels of All time on Goodreads! Archer's Voice is a full-length, standalone romance. Features a bonus scene from Archer's POV. I wanted to lose myself in the small town of Pelion, Maine. To forget everything I had left behind. The sound of rain. The blood. The coldness of a gun against my skin. For six months, each breath has been a reminder that I survived---and my dad didn't. I'm almost safe again. But the moment I meet Archer Hale, my entire world tilts on its axis . . . and never rights itself again. Until I trespass into his strange, silent, and isolated world, Archer communicates with no one. Yet in his whiskey-colored eyes, something intangible happens between us. There's so much more to him than just his beauty, his presence, or the ways his hands communicate with me. On me. But this town is mired in secrets and betrayals, and Archer is the explosive center of it all. So much passion. And so much hurt. But it's only in Archer's silence that we might just find what we need to heal . . . and live.

Turn a Blind Eye is the third installment in the gripping story of Detective Inspector William Warwick, by the master storyteller and #1 New York Times bestselling author of the Clifton Chronicles. Newly promoted to Detective Inspector, William Warwick is tasked with a dangerous new line of work, to go undercover and expose crime of another kind: corruption at the heart of the Metropolitan Police Force. Along with detectives Rebecca Pankhurst and Nicky Bailey, his team is focused on following Detective Jerry Summers, a young officer whose lifestyle exceeds his income. But the investigation risks being compromised when Nicky falls for Summers. Meanwhile, notorious drug baron Assem Rashidi goes on trial, defended by Booth Watson QC, while William's father Sir Julian and sister Grace lead the prosecution case. And William's wife Beth, now a new mother to twins, makes a surprising new friend in Christina Faulkner—the ex-wife of William's former rival, criminal financier Miles - who has not only turned over a new leaf, but also has a new-found source of income when Faulkner dies suddenly of a heart attack and she stands to be sole inheritor of his estate. As the undercover officers start to draw the threads together, William realizes that the corruption may go deeper still, and more of his colleagues than he first thought might be willing to turn a blind eye.

Ordered by Robert the Bruce to stay out of sight after nearly being exposed during a mission, warrior Gregor "Arrow" Macgregor returns home where he must contend with his mischievous ward who is no longer a girl but a desirable woman. Original. 150,000 first printing.

This book tells about target shooting, field competition and bow hunting.

Staying faithful when the pressure was most intense. That's what these two did. The Jewish people had reason to be depressed. Their nation had been conquered. Their hometown was in ruins. They were living in captivity. Yet from the ashes, God raised up two key figures to preserve the Jewish race. Daniel was among the first of the captives carried away by the Babylonians. Although he lived in a culture opposed to God, he was always faithful to the Lord – even in the face of death – and ultimately was able to influence kings and rulers. Esther was in exile during the time of the Persian Empire. Like Daniel, the Lord also placed her in a position to influence those in power. God also called her to step out in faith and risk her life to foil a plot against her people. As a result of her bold actions, the entire Jewish race was saved from annihilation. The Life Lessons with Max Lucado series brings the Bible to life in twelve lessons filled with intriguing questions, inspirational stories, and poignant reflections to take you deeper into God's Word. Each lesson includes an opening reflection, background information, an excerpt of the text (from the New International and New King James versions), exploration questions, inspirational thoughts from Max, and a closing takeaway for further reflection. The Life Lessons series is ideal for use in both a small-group setting and for individual study.

There are many books about shooting Compound and Recurve bows but no book deals with the specific problems of the BAREBOW archer, as this book does. It presents a systematic, biomechanically efficient BAREBOW technique. A starting point to

help you decide how you shoot and settle on your own shooting style, it will still serve as your guide for many years of competitive and enjoyable archery. Archery is a performance sport, no matter how good your aim if you fail in the shot execution, you miss. The shooting process is what makes you accurate and a biomechanically efficient BAREBOW technique will make this easier. The techniques described in this book are relevant to any barebow or traditional archer, not just Stringwalkers. Correct use of muscles, joints, and bones is needed to ensure energy is not wasted. This requires good alignment, proper use of archer's back muscles, and the transfer of the archer's effort into the back before allowing expansion to happen naturally. This book explains how to achieve this and details training methods and tools, including some notes for those participating in 3D and Field Archery. Target Panic is the most overlooked problem of BAREBOW archery. It is vital to know how to prevent it. The essential mental control is integrated throughout the description of the shooting process. Once you already have it, you have only two options: to conquer it or to suffer from it for the rest of your archery life. Consequently, Target Panic is addressed in depth. The module devoted to the mental side of BAREBOW archery includes an explanation of Target Panic and presents methods to reassert control and overcome it. The mental systems used to learn how to prepare yourself for competition and then perform under pressure are also explained. NOTE: This book does not set out to teach the very basics of how to shoot a bow. It is advisable to learn the early steps of shooting a bow under the supervision of a competent coach.

Chinese Archery is a broad view of traditional archery in China as seen through the eyes of historians, philosophers, poets, artists, novelists and strategists from 1500 BC until the present century. The book is written around parallel text translations of classical chinese sources some famous and some little known in which Chinese writers give vivid and detailed explanations of the techniques of bow-building, archery and crossbow technique over the centuries. The author is both a sinologist and practising archer; his translations make the original Chinese texts accessible to the non-specialist. Written for readers who may never have picked up a book about China, but still containing a wealth of detail for Chinese scholars, the book brings the fascinating history of Chinese archery back to life through the voices of its most renowned practitioners.

Nearly a decade after his last volume of short stories was published, Jeffrey Archer returns with his eagerly-awaited, brand-new collection TELL TALE, giving us a fascinating, exciting and sometimes poignant insight into the people he has met, the stories he has come across and the countries he has visited during the past ten years. Find out what happens to the hapless young detective from Naples who travels to an Italian hillside town to find out Who Killed the Mayor? and the pretentious schoolboy in A Road to Damascus, whose discovery of the origins of his father's wealth changes his life in the most profound way. Revel in the stories of the 1930's woman who dares to challenge the men at her Ivy League University in A Gentleman and A Scholar while another young woman who thumbs a lift gets more than she bargained for in A Wasted Hour. These wonderfully engaging and always refreshingly original tales prove not only why Archer has been compared by the critics to Dahl and Maugham, but why he was described by The Times as probably the greatest storyteller of our age.

While the English were familiar with archery as a sporting event and the bow and arrow as suitable tools for hunting, Native Americans relied on archery for survival possibly since the first tribes were formed, as far as historians can tell. Fashioning arrowheads from stone and bows from bone, horns, wood and animal sinew, the Native Americans killed animals for food and clothing and protected their tribes from attacking enemies with archery. Once the Native Americans gained access to horses, they became extremely adept at archery on horseback. Just as it was for Mongol troops and other Asian armies, this skill was highly effective in wartime situations. Passing the techniques on to young male warriors,

archery became a valuable skill in almost every tribe in the Americas and especially amongst the Yahi people. Particularly adept in archery, the Yahi became known for their beautiful bows. Ishi, the last of the Yahi Indians, taught Saxton Pope, a professor, how to make arrows and bows like his tribesmen and how to effectively hunt with them. Pope, having learned from one of the greatest marksmen in history, went on to be considered the "father of modern bow hunting."

Thrilling stories about hunting wildcat, buffalo, mountain sheep, wild boar, alligator, deer and small game with a bow and arrow.

Be wary of the people no one wants on their team, the ones who are too small, too slow and not very capable. The unwanted have a built-in motivation to do whatever it takes to succeed that those who were picked first do not have. This is the story of such a person and what he did to find his place at the top of the world in his sport.

This guide to the spiritual and technical practice of this graceful martial art, by 15th-generation master Hideharu Onuma, includes illustrations and photographs.

Examines archery techniques from the point of view of the interrelationship between the anatomy of the human body and the anatomy of the bow.

Scarlet remembers. Everything. Her past lives, Tristan, Gabriel, Nate: she remembers it all--including how to get to the Fountain of Youth. But time is running out. Heather and Gabriel have been kidnapped by Raven, while the curse that has plagued Scarlet and Tristan for centuries has shifted, putting the star-crossed lovers in more danger than ever before. Water from the Fountain of Youth is the only thing that can save Scarlet and her loved ones. But the water comes at a price. With lives--and hearts--at stake, Scarlet leads her friends on a dangerous journey to the Fountain of Youth. Where eternal life is possible, but death is certain.

The sun is shining through the bars of my window on what must be a glorious summer day. I've been incarcerated in a cell five paces by three for twelve and a half hours, and will not be let out again until midday; eighteen and a half hours of solitary confinement. There is a child of seventeen in the cell below me who has been charged with shoplifting - his first offence, not even convicted - and he is being locked up for eighteen and a half hours, unable to speak to anyone. This is Great Britain in the twenty-first century, not Turkey, not Nigeria, not Kosovo, but Britain. On Thursday 19 July 2001, after a perjury trial lasting seven weeks, Jeffrey Archer was sentenced to four years in jail. He was to spend the first twenty-two days and fourteen hours in HMP Belmarsh, a double A-Category high-security prison in South London, which houses some of Britain's most violent criminals. Hell, the first volume in Archer's The Prison Diaries, is the author's daily record of the time he spent there.

Be the next to join more than 8 million Americans who enjoy this popular pastime.

No one knows for certain just when the bow and arrow came into use in America, but they were in use from the far North to the tip of South America when Europeans first arrived. Over the hemisphere the equipment ranged from very poor to excellent, with the finest bows of all being made in the Northwest of North America. Some of these bows rivaled the ancient classic bow in beauty of design and workmanship. The attitudes of whites toward Indian archers and their equipment have ranged from the highest of praise with mythical feats rivaling those of William Tell and Robin Hood—to mockery and derision for the Indians' short, "deformed" bows and small arrows. The Laubins have found most of the popular conceptions of Indian archery to be erroneous—as are most of the preconceived notions about Indians—and in this book they attempt to correct some of these false impressions and to give a true picture of this ancient art as practiced by the original Americans. Following an introduction and history of Indian archery are chapters on comparison of bows, bow making and sinewed bows, horn bows, strings, arrows, quivers, shooting, medicine bows, Indian crossbows, and blowguns. Those wishing to learn something about the use of archery tackle by American Indians, something of the ingenuity associated with its manufacture and maintenance, and something about the importance of archery in everyday Indian life will find in this book a wealth of new, valuable, and important information.

This book will guide you through the 'mysteries' and 'black magic' of StringWalking so you will see that there are neither 'mysteries' nor 'black magic' involved. StringWalking is complex, but you can easily tune your bow to shoot accurately where you aim. To stringwalk, you hold the string at different places (crawls) according to the distance to the target and use the tip of the arrow to aim. You grip the string closer to the nock for longer distance targets and grip it farther down from the nock for closer targets. However, drawing the string from different places is stressful on the bow, since its parameters (tiller, power stroke, etc.) change from shot to shot as the crawl changes. Therefore, the correct tuning of the bow to its arrows is trickier than for other shooting techniques. If you want to obtain good results, you must tune the bow so that it works, more or less, accurately at all distances, when using different crawls. We will start by defining the

Barebow Class and the many ways of aiming without sights, which includes StringWalking. We will analyze bow mechanics, both in a simple situation (gripping the string from one point) and when StringWalking (gripping the string from different points). We will also consider criteria for equipment selection, the riser, limbs, bow length, draw weight, balance, etc. There are special sections on rest, button, tab, arrows, etc. Then, we will analyze how to set up our equipment and the different ways of tuning it. Tuning is therefore very personal, but with a little work and dedication, you can achieve excellent results. Then you will enjoy the sight of your arrows flying, with accuracy, from a well-tuned, well-behaved bow. Finally, we introduce the form of competition in which the barebow is at home. We explain the rules and how the competition works. Preparation for a day in the field is explained and we give hints on how to approach shooting in natural surroundings and how to perfect your distance judgement skills. So, at the end of this book not only will you will be able to enjoy the sight of your arrows flying accurately from a well behaved bow, but from that bow in a natural and enjoyable setting.
