This book, in a short space, covers an extensive ground of Hindu teachings. It provides a panoramic view of a Hindu approaches to religion, philosophy, science, politics, mythology, art, the role of women, and the past and the future of humanity.—Dr. David Frawley Redundancy of the idea of religion seems to be growing in an age in which any mystery can be demystified by science. It also seems as if patronising religion is outdated in today's so-called progressive world. However, adaptability and progressiveness have been the basic requisites of Hindu philosophy. Hence it requires its followers to evolve with change. Through this book, the authors have tried to endorse the role of Hinduism in the formation and development of human society. They have looked back at the conception, evolution and sustenance of Indian society through

the lens of Hinduism, and have tried to explain this process through short Hindu mythological tales. We believe decoding folklore is also a source of understanding the history of any given period. Different tales spanning different ages and times bring forth a completely different picture of the mores and morality of our society, which still abide with the constant basic principles of Hinduism. This signifies the adaptability of this great religion with changing times. The reader will discover that, eventually, the core values of Hinduism remain the same and support its relevance today and will continue to do so for eternity. The universe is made up of stories, not of atoms.—Muriel Rukeyser, Writer and Poetess

Nirvana ~the theory of dualism - personal healing is the need of hour from the prison of stress,pain,overthinking and dilemmas Through references of certain ancient scriptures,Vedas ,. This book is an account of how Dr. Kalam visualizes Information and Communication Technology mining the rural talent. Here, Dr. Kalam presents his dream of schools in India at 2020 as symbiotic nerve centres connecting teachers, students and community; personifying knowledge that exists in the world. He also makes a clarion call to accelerate the process of societal transformation. This would involve raising the standards of governance and safeguarding the sanctity of public institutions. The book

uses the metaphor of a tree to describe the process of knowledge bearing fruits of prosperity in the contemporary globalized world where different phases, formative, adult working life, and post-50 experienced senior citizens, call for different kinds of learning. The book refers to a contextual contribution of a large number of Indian scientists and artists and proves that there is no age bar to blossom. He advocates creation of conditions that favour growth of diverse individual talents akin to a garden and calls for a scientific mind-set guided by conscience, consensus and by actions that take our social and moral values into account in building our own systems.

The book responds to oft asked questions such as: What are the winning traits of Indian bosses? What cultural influences have shaped their mindsets? What makes them adaptable in any business situation? What can the West learn from India on leadership? Discover and leverage:

- The pluralistic notion of Indianness
- Forces of desh (place) and kaal (time)
- The praxis of collectivism and hierarchy
- Context sensitivity and co-holding paradoxes and

dilemmas • Multifacets of the Indian leader • Insights from ancient inheritance and modern legacy • Awareness of what impedes women leaders • The opportunity for Indian youth The wisdom of Indian-ness—‘the World is One’—belongs to all humans. It invites the corporate Rishi within us, to act with ecological balance, inclusion and harmony.

The 2010 mega-scams created a crisis of trust in governance and the leadership. Seeking solutions, N. Vittal analyses the record of the institutions involved and traces the roots of the growing rot to the decline of accountability in public life, the lack overall of transparency in governance, besides general greed and decline in integrity. As a prominent insider in government for over four decades, he believes that greater transparency and use of technology and ensuring there is no alternative can reform our system. The curb on use of money power in state elections and the 2010 landmark judgement in the case of P.J. Thomas’s appointment as Central Vigilance Commissioner are such steps. Through greater application of Right to Information, strengthening of watchdog bodies like the judiciary or the Central Election Commission, and choosing people of integrity and commitment to man them, besides an alert civil society and media, Vittal is optimistic of achieving a clean India.

With 750 million people living in villages, India has the largest rural population in the world. Based on his Indian experience, Dr Kalam recommends a sustainable and inclusive development system called PURA—Providing Urban Amenities in Rural Areas—to uplift the rural masses not by subsidies but through entrepreneurship with community participation. To make his case, Dr Kalam cites the examples of individuals and institutions, in India and from across the world, who, with an entrepreneurial spirit and a burning desire to make a difference, have successfully generated and tapped into the potential of the rural masses. Fabio Luiz de Oliveira Rosa changed the face of the rural district of Palmares, Brazil, by acquiring for the farmers access to electricity and water, which effect combined with better agricultural methods led to an increase in prosperity and stemmed the migration to the cities The 123-strong Magar clan owned Magarpatta, a 430-acre plot on the outskirts of Pune, Maharashtra. In the 1990s,

they organized and set up the Magarpatta city which is now home to over 35,000 residents and a working population of 65,000, and boasts of an IT park.

Precious Souls: A journey into the inspiring lives of special children and their families, is a first of its kind effort to understand the world of children with special needs and create awareness among people about their small requirements. There are 24 lives in the book and all are replete with grim determination -- so unlike us they are, but so courageously they live. Precious Souls calls for each reader to give nothing, but share all the love that they have whenever they see a special child. Equal share of your love, confidence and support should also go to their parents, who nurtured their special child, without losing hope. Even though they have seen surroundings with healthy children, when they look home, they have found a certain incompleteness, but they never lost courage, and fought the battle with destiny, emerging victorious. Their profoundness is worth ounces of admiration. The book explores disappointments and triumph in a narrative manner; the author telling each life as it went on during his interaction with the families. The style gets the reader involved as if he or she is seeing the child or their parents right in front of them. Late Dr A P J Abdul Kalam was so touched by the subject that he even wrote the foreword for the book. To give a glimpse of a few stories, the book narrates the life of ten-year-old Diwakar Bhaskar who is

diagnosed with Maple Syrup Urine Disease (MSUD), a metabolic disorder passed down through families in which the body cannot break down certain parts of proteins. But he trounced his disorder and found his calling in painting, drawing works of art which has a rare balance of colour and sensitive strokes. An example is the logo of the Precious Souls, which the author has used to mark the immense talent in each of the special children featured in the book. Then there is thirty four-year-old S Sushmitha Danabalana, who had developmental delays compared to other children, when born. Now, she is independent and part of her salary goes to sponsoring the education of a differently-abled student. She has even won the Karnataka State Women's Achievement Award. The book tells the tale of 15-year-old Adithya Venkatesh, who suffers from Pervasive Developmental Delay (PDD), a type of Autism Spectrum Disorder (ASD) that slows down the ability to perceive things. But with classical music he has awed everybody and his penchant for music has been removing all barriers he faces on a daily basis. With these 24 lives, the author has managed to bring out the true essence of life - nobody is perfect, and in the pursuit of perfection, we all are on the same road. It is necessary of all of us to get together and encourage children with disabilities and lend support in the form of understanding their families. Together, we can bring a change in their lives, a message crystal clear through

Precious Souls. The author, Dr Anantha Krishnan M, is a seasoned aerospace and defence journalist in India. It was like any other day on the Anna University campus in Chennai. As I was returning to my room in the evening, the vice-chancellor, Prof. A. Kalanidhi, fell in step with me. Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room. When I answered, a voice at the other end said, 'The prime minister wants to talk with you.' Some months earlier, I had left my post as Principal Scientific Adviser to the Government of India to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change. Turning Points takes up the incredible Kalam story from where Wings of Fire left off. It brings together details from his career and presidency that are not generally known as he speaks out for the first time on certain points of controversy. It is a continuing saga, above all, of a journey - individual and collective - that will take India to 2020 and beyond as a developed nation.

Leading scholars from a range of disciplines contribute to an inclusive discussion of the latest techniques and issues examined by the capability approach. It will appeal to readers across academic backgrounds including development studies, economics, sociology, education, urban planning, political science, geography, public policy and management.
