First Grave on the Right is the smashing, award-winning debut novel that introduces Charley Davidson: part-time private investigator and full-time Grim Reaper. Charley sees dead people. That's right, she sees dead people. And it's her job to convince them to "go into the light." But when these very dead people have died under less than ideal circumstances (i.e., murder), sometimes they want Charley to bring the bad guys to justice. Complicating matters are the intensely hot dreams she's been having about an Entity who has been following her all her life...and it turns out he might not be dead after all. In fact, he might be something else entirely. This is a thrilling debut novel from Darynda Jones, an exciting newcomer to the world of paranormal romantic suspense. First Grave on the Right is the winner of the 2012 Rita Award for Best First Book.

Revised edition of International business, 2015.

The annual Mermaid Festival is the setting for Esme Addison's sunny-yet-sinister second Enchanted Bay mystery, perfect for fans of Heather Blake and Bailey Cates. The small town of Bellamy Bay has its share of skeletons in its closet, but it isn't used to bodies turning up in the local history museum. After all, this coastal North Carolina town is much like any other...except, of course, for the mermaids. Helping to run the family business, an herbal apothecary, while keeping her supernatural secret hidden is no easy feat for water witch Aleksandra Daniels. But somehow she's still found time to help her friend Celeste, who has her own Caribbean mermaid heritage, plan the annual Mermaid Festival. As fun-seekers throng the beaches, Alex gets to know and is intrigued by renowned artist Neve Ryland, who's in town to decorate the local park with a mermaid-themed mural. Celeste, however, is less enamored with the artist, as Neve has been spending entirely too much one-on-one time with her boyfriend

Jasper, director of Bellamy Bay's history museum. Then, a reception for Neve ends abruptly when the artist is found dead in his office. When the police investigation nets Celeste, Alex decides to find the true culprit. With the help of her magically-inclined aunt and cousins, Alex dives in to clear her friend's name. But there was more to Neve Ryland than met the eye...and Alex fears she may be in way too deep. Will she catch the crook or be next on the hook?

Given the global nature of business today and the increasing diversity within the workforce of so many industries and organisations, a cross-cultural component in management education and training has become essential. This is the case for every type of business education, whether it be for aspiring graduates at the start of their careers or senior managers wishing to increase their effectiveness or employability in the international market. The 4th edition of Understanding Cross-Cultural Management has been adapted in line with the feedback from our many readers, and boasts new case study material based on recent research, as well as a stronger focus on Asian cultures, thereby providing more non-Western examples.

This unique and ground-breaking book is the result of 15 years research and synthesises over 800 meta-analyses on the influences on achievement in school-aged students. It builds a story about the power of teachers, feedback, and a model of learning and understanding. The research involves many millions of students and represents the largest ever evidence based research into what actually works in schools to improve learning. Areas covered include the influence of the student, home, school, curricula, teacher, and teaching strategies. A model of teaching and learning is developed based on the notion of visible teaching and visible learning. A major message is that what works best for students is similar to what works best for teachers – an attention to setting challenging learning intentions, being clear about what success means, and an attention to learning strategies for developing conceptual understanding about what teachers and students know and understand. Although the current evidence based fad has turned into a debate about test scores, this book is about using evidence to build and defend a model of teaching and learning. A major contribution is a fascinating benchmark/dashboard for comparing many innovations in teaching and schools. The fifth edition of this widely used text provides a global overview of the major topics within human geography, including food security and population, geopolitics and territory, inequality and power, production, consumption, the global financial system, governance and now a new chapter on citizenship. Substantial and comprehensively updated chapters ensure balanced treatment across the range of contemporary human geography.
