

many factors to consider, however, especially with the surrounding governments of Iran, Turkey and Syria all having substantial Kurdish populations of their own. If a Kurdish homeland is extracted from Iraq, it could lead to a violent insurgency in other countries and contribute to added violence instead of creating stability. It all amounts to an explosive situation in which one lone American can change the face of world politics. But Jackson may just die in the process as he seeks to create a place on the map for Kurdistan. To function in modern society complex data must be absorbed and understood at a breakneck pace. The most efficient way to do this is through data-based graphics. This book is an exploration and celebration of graphical methods of data presentation. Visual Revelations' principal purpose is to enlighten, inform, and amuse the reader regarding the shortcomings of common graphical practices; particularly how they can misinform while simultaneously providing models of wonderful graphics. There are many examples of the best graphic practice, graphs that go beyond conveying, facts, and structure to be able to carry emotion as well. Aimed at an educated, lay audience, this volume benefits anyone who must either convey or receive quantitative information, including designers, statisticians, and people in the media.

Stranded By: Dino J. Gutierrez Stranded: The Long Journey Home tells the story of a father and son traveling around the United States of America to explore its beauty and celebrate young Nic's coming of age. Political unrest interrupts their vacation as armed conflicts erupt in Iran and Syria and eventually a terrorist attack hits US soil. The catastrophic attack is devastating, wiping out electricity and infrastructure nationwide. Father and son were in Yellowstone park for the aftermath of the attack and must then walk to Texas, to Paul Sanchez's home, in hopes of finding it still standing.

Discover the dangerous, futuristic world of the #1 New York Times bestselling Hunter series from legendary fantasy author Mercedes Lackey. They came after the Diseray. Monsters. Long ago, the barriers between our world and the Otherworld were ripped open, and it's taken centuries to bring back civilization in the wake of the catastrophe. Now, the luckiest Cits live in enclosed communities, behind walls that keep them safe from the hideous creatures fighting to break through. Others are not so lucky. In Hunter, Joyeaux Charmand believes that every Cit without magic deserves her protection from dangerous Othersiders. Then she is called to Apex City, where the best Hunters are kept to protect the most important people. Joy soon realizes that the city's powerful leaders care more about luring Cits into a false sense of security than protecting them. More and more monsters are getting through the barriers, and the close calls are becoming too frequent to ignore. And when an act of sabotage against Joy takes an unbearable toll, she uncovers a terrifying conspiracy in the city. There is something much worse than the usual monsters infiltrating Apex. And it may be too late to stop them... In Elite, Joy knows she'll be facing more dangerous Othersiders than ever before as a new member of the Elite Hunter unit. But if anyone is up to the challenge, it's her. Then the rules change. Monsters unlike any Joy's ever seen or even heard of are breaking through Apex City's barriers, and the Hunters are scrambling to find new ways to fight them—all the while hiding the true danger Apex faces from the Cits, who are ignorant of the severity of the Othersiders' attacks. The leaders of Apex must come together to protect the city, but tensions have never been higher between the Hunters and the powerful PsiCorps, with each group competing to be the primary protector of the city. The conflict escalates even further when Joy starts discovering bodies of Psimons while patrolling the city sewers on a special assignment from her uncle, who commands the Hunters. A storm is approaching Apex City, and unless Joy and her fellow Hunters put up the fight of their lives, it might just sweep them all away . . . In Apex, the riveting conclusion to the Hunter trilogy, Joy must risk everything to end a brutal war before she loses all she's ever loved. The corrupt and powerful PsiCorps is determined to usurp the Hunters as chief defenders of Apex City and Joy is squarely in their crosshairs. Unused to playing political games, she has few people she can truly trust—not even Josh, her first friend in Apex City, who broke up with her when it became too dangerous for a Psimon to be dating a Hunter. Then Josh comes to Joy for help. He fears that Abigail Drift, the head of PsiCorps, will use him in her experiments designed to empower PsiCorps and render Hunters superfluous—a scheme that's already killed dozens of Psimons. Joy manages to smuggle Josh to safety, but he can't evade Drift forever. As Joy faces ever more powerful Othersiders, she is helped by the most surprising ally imaginable -- the same Folk Mage she once met in battle. But can Joy trust the most cunning and treacherous of all Othersiders?

In the city of Villa Park, California, retired businessman Fred Dupree lies dead in his home. His son Forrest, the drummer of an up-and-coming band, Purple Cinnamon, has both opportunity and motive working against him—his father was worth well over six million dollars. Enter Homicide Detective Christie Cloud, who upon investigation of the tampered crime scene begins to suspect that her colleagues' belief in Forrest's guilt might be premature. Following the vicious homicides of three more seniors, Cloud pursues leads across the Pacific Northwest, pitting her against a ruthless L.A. gang member. The first clue is discovered inside the files of a retired Southern California insurance salesman. The members of Forrest's rock band are determined to prove that he is innocent, and end up in the middle of the Seattle strip club scene. Detective Cloud is introduced to the world of ecstasy distribution and the dark side of the billion-dollar insurance business and comes to learn how far those involved will go to protect their investments. The Drummer will challenge readers as they are thrust into a world of crime scene forensics, bizarre sex, and rock n' roll.

Censorship! The word itself sparks debate, especially when the context is the public school. Since the publication of the second edition of this landmark book in 1993, wired classrooms, legal challenges, and societal shifts have changed the landscape for the free exchange of ideas. Completely revised and updated, this new edition remains the most comprehensive guide for protecting the freedom to read in schools: For school librarians and media specialists, teachers, and administrators, Reichman covers the different media (including books, school newspapers, and the Internet), the important court cases (including recent litigations involving Harry Potter, the Internet, and Huck Finn), the issues in dispute (including violence, religion, and profanity), and how the laws on the books can be incorporated into selection policies. An entire chapter is devoted to troubleshooting and answering the question of What do we do if...? Look no further for the best and most specific information on providing access and facing challenges to intellectual freedom. You'll find answers if you are asking questions like these: * What is the distinction between making selection decisions and censoring?

? The day-by-day inside story of the making of Tombstone (1993) as told to the author by those who were there—actors, extras, crew members, Buckaroos, historians and everyone in between. Historical context that inspired Kevin Jarre's screenplay is included. Production designers, cameramen, costume designers, composers, illustrators, screenwriter, journalists, set dressers, prop masters, medics, stuntmen and many others share their recollections—many never-before-told—of filming this epic Western.

Soon after we landed it became apparent that there was more than enough artillery here, that the enemy were excellent shots, and that their ammo supply seemed to be endless. With the Japanese deeply entrenched and determined to die rather than surrender, Robert Dick and his fellow soldiers quickly realized that theirs would be a war fought inch by bloody inch—and that their Sherman tanks would serve front and center. As driver, Dick had to maneuver his five-man crew in and out of dangerous and often deadly situations. Whether crawling up beaches, bogged down in the mud-soaked Leyte jungle, or exposed in the treacherous valleys of Okinawa, the Sherman was a favorite target. A land mine could blow off the tracks, leaving its crew marooned and helpless, and the nightmare of swarms of Japanese armed with satchel charges was all too real. But there was a war to be won, and Americans like Robert Dick did their jobs without fanfare, and without glory. This gripping account of tanker combat is a ringing testament to the awe-inspiring bravery of ordinary Americans.

Joy knows she'll be facing more dangerous Othersiders than ever before as a new member of the Elite Hunter unit, but if anyone is up to the challenge it's her. She's been Hunting these monsters since she was a child, and has a pack of eleven fiercely protective magical Hounds. Then the rules change. Monsters unlike any Joy's ever seen or even heard of are breaking through Apex City's barriers, and the Hunters are scrambling to find new ways to fight them—all the while hiding the true danger Apex faces from the Cits, who are ignorant of the severity of the Othersiders' attacks. The leaders of Apex must come together to protect the city, but tensions have never been higher between the Hunters and the powerful PsiCorps, with each group competing to be the primary protector of the city. The conflict escalates even further when Joy starts discovering bodies of Psimons while patrolling the city sewers on a special assignment from her uncle, who commands the Hunters. Someone is killing Psimons, and if Joy doesn't uncover the true culprit she might just take the fall for it. Chaos erupts when Ace, the murderous Hunter who tried to kill Joy at her Elite trials, escapes from the Army's captivity and defects to the Othersiders. Joy has no idea what Ace might be capable of with the help of the cunning Folk, but she may be about to find out; Othersider forces are gaining strength and momentum just beyond the barriers. A storm is approaching Apex City, and unless Joy and her fellow Hunters put up the fight of their lives, it might just sweep them all away . . .

Behind the Lines is W. E. B. Griffin's powerful novel of World War II -- and the courage, patriotism, and sacrifice of those who fought it. By 1942, the Japanese have routed the outnumbered American forces and conquered the Philippines. But deep in the island jungles, the combat continues. Refusing to surrender, a renegade Army officer organizes a resistance force and vows to fight to the last man. A Marine leads his team on a mission through the heart of enemy territory. And the nation's proudest sons fight uncelebrated battles that will win -- or lose -- the war . . .

There is no sanctuary. That was taken away in the blink of an eye. Humanity went out not with a whimper, but a bang. Jack, a sometimes humorous, sometimes philosophical ex-special operations pilot and soldier is one of the few left to struggle through the desolation left in the aftermath; seeking to survive as a new ferocious species emerges from the rubble, hungry and unrelenting. Will his special forces training be enough? Will he be able to keep his children safe and guide the few survivors through perils that now roam the world they once knew? Or will the hordes that now own the night prevail, forever removing the last of mankind from existence? Humankind was once at the top of the food chain. But that has now changed. This hard-hitting, action-packed series begins with Jack Walker being suddenly thrust into a world where the infrastructure which cherished Armani suits, night clubs, fast and expensive cars and watching the daily stock market are gone. Left in its place is the material world mankind built but a majority of the population has vanished; replaced by a new, savage, unrelenting, cunning, animalistic species which hunts and operates at night.

It is the 1960s. This teenage boy sails with the Merchant Marine, mines for gold in Colorado, and goes on a special mission in Vietnam. Every time he sleeps, he lives a different life.

A police trooper inspects a car during a routine traffic stop and finds a vast cache of weapons, complete with automatic rifles, thousands of rounds of ammunition, and black ski masks—a veritable bank robber's kit. Should the men in the car be charged? If so, with what? A son neglects to care for his elderly mother, whose emaciated form is discovered shortly before she dies a painful death. Is the son's neglect punishable, and if so how? A career con man writes one bad check too many and is sentenced to life in prison—for a check in the amount of \$129.75. Is this just? A thief steals a backpack, only to find it contains a terrorist bomb. He alerts the police and saves lives, transforming himself from petty criminal to national hero. These are just a few of the many provocative cases that Paul Robinson presents and unravels in *Would You Convict?* Judging crimes and meting out punishment has long been an informal national pastime. High-

profile crimes or particularly brutal ones invariably prompt endless debate, in newspapers, on television, in coffee shops, and on front porches. Our very nature inclines us to be armchair judges, freely waving our metaphorical gavels and opining as to the innocence or guilt-and suitable punishment-of alleged criminals. Confronting this impulse, Paul Robinson here presents a series of unusual episodes that not only challenged the law, but that defy a facile or knee-jerk verdict. Narrating the facts in compelling, but detached detail, Robinson invites readers to sentence the transgressor (or not), before revealing the final outcome of the case. The cases described in *Would You Convict?* engage, shock, even repel. Without a doubt, they will challenge you and your belief system. And the way in which juries and judges have resolved them will almost certainly surprise you.

This is a manual for Evangelical Christians who anticipate the "second coming" of Jesus Christ and understand that they may be called upon to endure some of the hardships of the End Times. It takes the genre of survival literature up a notch by addressing the moral, ethical and doctrinal questions that Christians should consider in planning for existential challenges in an uncertain future. The author doesn't "reinvent the wheel" on common survival issues, but covers items of interest to Believers who want to develop a survival strategy that deals with the world as they find it, yet is consistent with their faith. Among these are: Does charity really "begin at home?" Is it righteous to use lethal force in defense of yourself and others? Does subscribing to the Pre-Tribulation Rapture mean that Believers need not be concerned about coping with the End Times?
