The James Beard Award–winning, bestselling author of *CookWise* and *KitchenWise* delivers a lively and fascinating guide to better baking through food science. Follow kitchen sleuth Shirley Corriher as she solves everything about why the cookie crumbles. With her years of experience from big-pot cooking at a boarding school and her classic French culinary training to her work as a research biochemist at Vanderbilt University School of Medicine, Shirley looks at all aspects of baking in a unique and exciting way. She describes useful techniques, such as brushing your puff pastry with ice water—not just brushing off the flour—to make the pastry higher, lighter, and flakier. She can help you make moist cakes; shrink-proof perfect meringues; big, crisp cream puffs; amazing pastries; and crusty, incredibly flavorful, open-textured French breads, such as baguettes. Restaurant chefs and culinary students know Shirley from their grease-splattered copies of *CookWise*, an encyclopedic work that has saved them from many a cooking disaster. With numerous “At-a-Glance” charts, *BakeWise* gives busy people information for quick problem solving. *BakeWise* also includes Shirley's signature “What This Recipe Shows” in every recipe. and culinary information can apply to hundreds of recipes, not just the one in which it appears.

BakeWise does not have just a single source of knowledge; Shirley loves reading the works of chefs and other good cooks and shares their tips with you, too. She applies not only her expertise but that of the many artisans she admires, such as famous French pastry chefs Gaston Lenôtre and Chef Roland Mesnier, the White House pastry chef for twenty-five years; and Bruce Healy, author of *Mastering the Art of French Pastry*. Shirley also retrieves "lost arts" from experts of the past such as Monroe Boston Strause, the pie master of 1930s America. For one dish, she may give you techniques from three or four different chefs plus her own touch of science—"better baking through chemistry." She adds facts such as the right temperature, the right mixing speed, and the right mixing time for the absolutely most stable egg foam, so you can create a light-as-air génoise every time. Beginners can cook from BakeWise to learn exactly what they are doing and why.

Experienced bakers find out why the techniques they use work and also uncover amazing pastries from the past, such as Pont Neuf (a creation of puff pastry, pâte à choux, and pastry cream) and Religieuses, adorable "little nuns" made of puff pastry filled with a satiny chocolate pastry cream and drizzled with mocha icing. Some will want it simply for the recipes—incredibly moist whipped cream

The TLC (Therapeutic Lifestyle Changes) Diet is a low saturated fat, low cholesterol diet that was originally designed to help high-risk patients reduce their high blood cholesterol levels, as well as lowering risk for developing heart disease and suffering future heart attacks. However, this diet isn't just for those dealing with health problems, because recent studies have also revealed that TLC happens to be one of the healthiest and best overall diets for anyone interested in a healthier lifestyle. U.S. News and World Report recently ranked TLC as the #2 best overall diet, as well as being one of the best diets for heart healthy eating (#2) and overall healthy eating (#2). The TLC Diet was created by the National

Institutes of Health's National Cholesterol Education Program and is considered a medically-sound and well-researched diet. As opposed to gimmick diets that are often debunked, this diet will be around for the long term. However, unlike other diets that offer a step-by-step plan, TLC requires effort and attention on the part of the follower for long-term success. The Complete Idiot's Guide® to the TLC Diet offers readers a structured program not only for eating and cooking for TLC success, but it offers guidance for healthy lifestyle changes that will provide a non-gimmick, medically-proven plan for anyone interested in healthy, life-changing results. Readers will learn the often confusing differences between "good" and "bad" cholesterol, how to cook and eat right to get the desired results, and how to change their lives for the better with this sound, healthy program.
