Eating on the Move from the Eighteenth Century to the Present Rita d'Errico, Stefano Magagnoli, Peter Scholliers, Peter J. Atkins, 2023-06-07 This book focuses on food and meals consumed during travel since the transport revolution and examines the ways in which the introduction of new forms of transport (propelled by steam and petrol engines), not only affected the way people travel but also led to a transformation in the way we eat. Eating on board a train is different from eating on a ship, and the same is true for other forms of transport. Such differences are not simply a question of quality or variations of menu; a unique history has defined each of these different situations, a history which is still largely to be studied. This volume contains contributions from a mix of established food historians and young researchers. Social and economic history overlap with cultural history approaches and forays into the fields of linguistics and art, confirming that the field of food history, and more generally food studies, is by definition a field of transdisciplinary and border research. This volume will be of interest for scholars within the field of food history, food studies, and food culture, as well as social and cultural historians dealing with industrialization or social policy.

La tenaglia magistrati-economisti sui cittadini Francesco Felis, 2019-04-30 Devono le leggi economiche dominare i rapporti sociali? Nell'ambito di questo dilemma, nella ricerca di un equilibrio, si muove il presente lavoro. Due sono i pilastri su cui esso si fonda: argomenti e temi giuridici da un lato, che, però, hanno anche un impatto economico, e, dall'altro, la pretesa di egemonia del dato economico su ogni altro valore. Pretesa molte volte ammantata di scientificità, che travolge i rapporti reciproci, influenza il caos delle stesse pronunce giudiziali e il caos normativo, rendendo incerto il destino delle persone. "Per aver paura dei magistrati non bisogna essere necessariamente colpevoli (ma anche con gli economisti non si scherza)" ironizza l'autore, e in questo importante saggio, per contenuti e dimensioni, con garbo e autorevolezza ci spiega chiaramente il perché. Francesco Felis è nato ad Albenga (SV) nel 1957. Vive a Genova dal 1967, dove si è laureato in Giurisprudenza con 110 e lode nel 1982. È notaio dal 1988. Autore di molteplici pubblicazioni, giuridiche e non, è intervenuto a diversi convegni giuridici e politici.

Italy in the Modern World Linda Reeder, 2019-12-12 Providing a comprehensive history of Italy from around 1800 to the present, *Italy in the Modern World* traces the social and cultural transformations that defined the lives of Italians during the 19th and 20th century. The book focuses on how social relations (class, gender and race), science and the arts shaped the political processes of unification, state building, fascism and the postwar world. Split up into four parts covering the making of Italy, the liberal state, war and fascism, and the republic, the text draws on secondary literature and primary sources in order to synthesize current historiographical debates and provide primary documents for classroom use. There are individual chapters on key topics, such as unification, Italians in the world, Italy in the world, science and the arts, fascism, the World Wars, the Cold War, and Italy in the 21st century, as well as a wealth of useful features for students, including: * Comprehensive bibliographic essays covering each of the four parts * 23 images and 12 maps *Italy in the Modern World* also firmly places both the nation and its people in a wider global context through a distinctly transnational approach. It is essential reading for all students of modern Italian history.

Introduzione alla sociologia Ambrogio Santambrogio, 2014-06-10T00:00:00+02:00 Cos'è la sociologia, che rapporto c'è tra sociologia e mondo moderno, in che senso la sociologia ci aiuta a comprendere la nostra realtà attuale. Una introduzione completa e accessibile alla disciplina che studia il mondo in cui abitiamo. Alla base di questo libro ci sono alcune idee di fondo. La prima è che la sociologia è una disciplina storica. Lo è in un duplice senso: ha un'origine storica, che ovviamente segna i suoi metodi e i suoi contenuti; il suo oggetto di studio sono fatti storici - le azioni degli uomini in società - che devono essere interpretati. In questa prospettiva, si può dire che la sociologia è ciò che hanno fatto - e tuttora fanno - i sociologi: per questo motivo, nel libro si è utilizzato un percorso basato sulla presentazione di singoli autori o scuole di pensiero e non un approccio de-storicizzato per concetti. La seconda mette in luce lo stretto legame storico e concettuale che esiste tra sociologia e mondo moderno in tre distinte fasi: l'avvento della modernità (sino alla fine della prima guerra mondiale); la modernità compiuta (sino al 1989); la modernità globalizzata (i nostri giorni). La terza idea si riferisce al fatto che la sociologia è una scienza sociale e deve essere compresa senza essere separata nettamente dalle altre discipline - come il diritto, la storia, l'antropologia, la scienza politica, la psicologia, l'economia - con cui condivide, nella sostanza, un unitario progetto scientifico. Il volume è composto di quattro parti: la prima fornisce una presentazione di cosa è la sociologia, discutendo, in particolare, i concetti di società e individuo. La seconda e terza parte presentano gli autori e gli approcci che hanno fatto, e fanno, la sociologia e le relative correnti, come il funzionalismo, lo strutturalismo, la teoria critica, ecc. Infine, la quarta presenta i problemi che la sociologia deve affrontare in un'epoca di globalizzazione.

Marshall McLuhan Douglas Coupland, Communications theorist Marshall McLuhan (1911-1980) predicted the effects of electronic media on modern culture as early as 1964. McLuhan published several breakthrough books and coined terms like hot and cool media, the global village, and the medium is the message.

Ora diremo di Napoli Angela Orlandi, 2012 This work aims at filling some historiographical gaps concerning the economy and the commercial activities of Naples and its satellite ports in the decades around the turn of the fifteenth century using unusual and complicated sources such as Tuscan trading practices and Venetian tariffs. To the analysis of these materials the study of commercial letters sent to the Merchant of Prato by operators present in those areas was added. This addition offers two levels of interpretation, the first of which concerns the methodological aspects of the research. From the second, the one of results, a particularly articulated picture emerges in which the Neapolitan region appears as an attractive outlet market for woollen cloths and silk drapes manufactured in the cities of central-northern Italy and, at the same time, as an important supply market of some raw materials and many foodstuffs.

[An Institutional History of Italian Economics in the Interwar Period — Volume I](#) Massimo M. Augello, Marco E.L. Guidi, Fabrizio Bientinesi, 2019-11-25 Italy is well known for its prominent economists, as well as for the typical public profile they have constantly revealed. But, when facing an illiberal and totalitarian regime, how closely did Italian economists collaborate with government in shaping its economic and political institutions, or work independently? This edited book completes a gap in the history of Italian economic thought by providing a complete work on the crucial link between economics and the Fascist regime, covering the history of political economy in Italy during the so-called “Ventennio” (1922-1943) with an institutional perspective. The approach is threefold: analysis of the academic and extra-academic scene, where economic science was elaborated and taught, the connection between economics, society and politics, and, dissemination of scientific debate. Special attention is given to the bias caused by the Fascist regime to economic debate and careers. This Volume I deals with the economics profession under Fascism, in particular in light of the political and institutional changes that the regime introduced, the restructuring of higher education, the restriction of freedom in teaching and of the press, and with respect to promoting its own strategies of political and ideological propaganda. Volume II (available separately) considers the public side of the economics profession, the “fascistisation” of culture and institutions, banishment and emigration of opponents, and post-WW2 purge of Fascist economists.
