Don't Be Stupid About Investing H. Granville James,2016-03-31 Investing is a game. We play with real money. The game is run by people who don't care about you. They want your money. And they know people will invest stupidly if they get enough chances. You need to Think for Yourself. You can win this game, but only if you make good decisions. This is not the same advice you read everywhere else. This is for when you figure out all that commonly accepted BS doesn't work as promised. You don't really think Wall Street has changed, do you? It's your money. You don't have to do what everyone else does. Why not step away from the herd and Think For Yourself? When you're done reading this book, you will be a better investor. We give you the ability to choose your own investments and safely maximize your returns. You can make money for yourself instead of letting everyone else profit from your efforts. Going along with the herd is stupid most of the time, and especially in the world of investing. Why not step away? You are the best source for your answers. No one cares about your money more than you. Question; Do you know your risk free rate of return? Do you use it in your investment decisions? Most people are just shoveling money into things like a 401K because someone told them to do it. Don't be one of them. Use critical thinking and allocate your money to do what is best for you. Note: This book assumes you've read our companion book Don't be Stupid about Money. Understanding money from our point of view helps you make smarter investments. Street Smart beats theory every time. We make investing easy. There is no reason for it to be difficult. And there's no reason for you to be another victim of the herd mentality. Why not spend a couple of hours with us and make better decisions forever? You already know that's a good investment. Read now and be wealthier for the rest of your life. HGJ

Don't Be Stupid about Money and Investing H. Granville James,2018-05-20 Money can make you happy. Or not. It all depends on you.Most money decisions are bad. They're made without critical thinking. Stupid is normal these days when it comes to money. People just keep paying without thinking until the stress wears them out.Wouldn't it be better to Think For Yourself? Stop doing what everyone else does and start making better money decisions. Your money can make you happy if you know how to use it.This is not the same advice you get everywhere else. This is for when you realize all that commonly repeated BS is not what's best for you. It's your money. You don't have to do what everyone else does. Why not Think For

Yourself and choose your own course? This book will give you a real world understanding of money. Some people call it street smart. Whatever you call it, you will make better decisions because reality makes a better foundation. For example; When did qualifying for a mortgage become the guide for buying a house? That's just stupid... read our book and you'll know the reality. How about budgeting? Expense tracking sounds smart and the apps are easy to write, so you get plenty of advice to do it. But wouldn't you rather budget simply and effectively? That's how you make your life better instead of wasting time. And investing? You don't really think anyone playing at home beats Wall Street, do you? Wall Street is more profitable than ever. If you are playing their game then you are just paying their salaries. Think for Yourself and invest where you get the best real returns. Our books use critical thinking to make life better. And when you think critically about money, you get different answers from the rest of the herd. We Simplify and we keep it fun. Money is just another tool we use to live. Once you understand it, money is just another hammer in the toolbox. Why not spend a couple of hours with us and be wealthier for the rest of your life? You already know that's a good investment. Read now and be smarter with your money forever. HGJ

Never Buy Another Stock Again David Gaffen, 2010-09-09 Want to build long-term, sustainable wealth? Then stay out of the stock market! That's radically different advice from what the experts have served up for decades... but look at the miserable results those pundits have delivered! Investors who've chosen equity-based buy-and-hold approaches have seen their assets decline dramatically: not just for a year, but often for decades. Fortunately, there are better ways to invest — and *Never Buy Another Stock Again* reveals them. Renowned Reuters financial journalist David Gaffen first explains why stocks are an even worse short- and long-term investment than you realize. Next, he shows how to create a balanced portfolio that reflects a big-picture, holistic approach, intelligently incorporating cash, real estate, retirement funds, savings, and other holdings. Gaffen's strategies rely primarily on investments outside the stock market, while identifying strictly limited roles for mutual funds and ETFs. Readers will learn how to: dramatically reduce investing costs that can kill your returns; invest in an environment where double-digit returns can never be expected; overcome huge flaws in conventional diversification strategies; and offset risks associated with existing equity ownership.
